 - 37-2087A: 1.0 cfs for Irrigation of 50 acres
 - 37-2087B: 1.0 cfs for Irrigation of 50 acres
- Claimed for 3.0 cfs on 49 acres

Notes

T1S R21E Section 11

- Found 14 acres
- 10/7/05 – Tried call claimant, both numbers busy.
- This claim combines rights 37-2087A, 37-2087B, & 37-4047.
 - 37-2087 was permitted for 3.2 cfs, but based on the “proof of use” field inspection it was cut back to 2.0 cfs
 - 37-2087 licensed at 0.02 cfs/acre and licensed POU was 100 acres
 - Split into:
 - 37-2087A: 1.0 cfs for Irrigation of 50 acres
 - 37-2087B: 1.0 cfs for Irrigation of 50 acres
 - Claimant is claiming both 37-2087A and 37-2087B on 14 acres
 - Unclear if claimant can get water across the road to east from POD, as claimed. Recommended only the acres west of road.
 - The significant reduction in acres indicates partial forfeiture
 - Recommended diversion rate of 0.02 cfs/acre
 - 37-4047 appears to be a statutory claim for the 1.2 cfs that was not licensed
 - No evidence of priority submitted for the 1.0 cfs of this claim that represents 37-4047.
 - 1.0 cfs of claim disallowed.
- Priority date:
 - If only water for 37-2087 are included in the claim, the priority date can be 9/19/1907
 - If water for 37-2087 and 374047 are included in the claim, the priority date must be after 9/21/1908
 - The “proof of use” inspection for License No. 3135 (37-2087) was 9/21/1908.
 - Possibly better to file new claim for 37-4047?
- Recommendation
 - 0.28 cfs for Irrigation of 14 acres
 - 0.02 cfs/acre as licensed.
- Data used for review: 1987, 1992, & 2004 aerial photos, Blaine Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

I met Paul at his home in Carey this morning and reviewed his two water right files and he said his source is Little Box canyon for 4044 and the area in red on photo at top is sub irrigated from the highline canal And the area in brown by 'curve in road is only irrig. With flood water when it is available . The claim for 3 CFS on 40 acres looks OK . The area under 2087 is supplied from Big Box Canyon and it is not and has not been used as domestic source for years, it is strictly irrigation water . The red area below No. 2 POD is sprinkler irrig. With main line proceeding South. See Photo's for notes.

Subject: RE: 37-2087

You are right in that going with the earliest priority date the 2.00 cfs would be the most you could recognize. This assumes that there is no creditable information to substantiate a beneficial use with the early priority date.

A quick shot without reviewing any of the files is that you could recognize the largest combined diversion rate by recognizing the latest priority date for the statutory claim. If the claimed acres were excluded via a field exam one would have to assume that the ground was not developed at that date. However, you could recommend the entire place of use and rate based upon acceptable evidence of priority. Most of the time you need to put the information together and then communicate with the claimant and present the options to him and let him make the decision.

Subject: 37-2087

Kelly,

Claim 37-2087 appears to be claiming 1.0 cfs from 37-2087A, 1.0 cfs from 37-2087B, & 1.0 cfs from statutory claim 37-4047. They all have the same priority date. Looking through files, it appears that 37-2087 was originally permitted for 3.2 cfs in 1907, but based on the "proof of use" field inspection in 1908 it was cut back to 2.0 cfs. 37-4047 appears to be a statutory claim for the 1.2 cfs that was not licensed.

I think that the earliest possible priority date for 37-4047 is in 1908, when the field inspection was done for the permit/license. Therefore I can only recognize this right for 2.0 cfs from 37-2087. If the owner wants to pursue the 1.2 cfs from 37-4047, they will need to file an adjudication claim on 37-4047 and provide evidence of priority, etc.

Any thoughts, suggestions, holes in my reasoning?

Thanks!

Matt

Priority Date Sept 19, 1907

- recognize 2.0 cfs from 37-2087
- Beneficial use claim for 1.0 (1.2?) cfs Sept 21, 1908
 - need evidence of priority
 - possibly put into 37-4044?

Priority date Sept 21, 1908

- with acceptable evidence of priority for 37-4047 could recognize all 3.0 cfs w/ a ~~priority date~~ later priority date
