Place Of Use Data

Yellow line is the draft Place of Use created by IDWR based on historical data and records.

Yellow dot is draft Point of Diversion created by IDWR based on historical data and records.

Green line is decreed/licensed POU (this may only represent the Quarter-Quarter sections of the decree/license)

1987 Aerial Photo

Notes

T1S R14E Sections 9 & 10

- POU created using a plat map supplied by the city, Blaine County tax records, and 1987 & 2004 aerial photos.
- PODs digitized using a plat map submitted with the statutory claims and the 2004 NAIP true color imagery.
- They claiming different PODs than what is licensed
 - 37-2457 licensed PODs: 2 wells located in west ½ of Block 16, and 1 well in Block 22.
 - 37-2716 licensed for 1 POD in Block 4.
- 10/31/05 – Talked with Bonnie Peters (208-764-2333), Fairfield City Clerk, on the telephone. Mrs. Peters stated that she thinks that originally there was 1 well in block 16 and 2 wells in block 22. The property along with the well in block 16 was sold in 1990. The city now uses a 1 well in Block 4 and 2 wells in Block 22. She will ask the engineering department to send us a map of Fairfield's city water system. Mrs. Peters stated that the city primarily pumps from one well and uses the other two as back-ups in case there are problems with the primary well. We briefly discussed the statutory claims. Mrs. Peters is the person whom compiled the information submitted for evidence of priority. It appears that the three statutory claims represent time when the city was upgrading its water system.
- 8/11/06 – Talked with Bonnie Peters (208-764-2333), Fairfield City Clerk, on the telephone. The city of Fairfield has purchased a water well from Jerry Caven and plan to use it for Irrigation water within the City Limits. Claim 37-2560A has been filed for a portion of the water from the well, but the remainder is unclaimed. Ms. Peters wanted to know how the City of Fairfield can get the water into their name. See letter in claim file 37-2457. The City also plans to buy a well from Brenda Greenman (NENW S9 1S 14E) and transfer it into their name. There is no SRBA claim on the well owned by Greenman.
- Evidence of priority submitted all supports the well licensed in 37-2457. The evidence lists 1.5 cfs and Permit No. 19245, which are related to 37-2457.
- Recommendations:
 - 37-2457 – 1.5 cfs for Municipal use.
 - 37-2716 – 1.23 cfs for Municipal use.
 - 37-4156 – No evidence of priority submitted. Claim disallowed.
 - 37-4157 – No evidence of priority submitted. Claim disallowed.
 - 37-4409 – No evidence of priority submitted. Claim disallowed.
- Data used for review: 1987, 1992, & 2004 aerial photos, Blaine Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

State of Idaho

License and Certificate of Water Right

Water License No. 19245

Amount 1.5 second feet

Water District No.

Priority January 14, 1942

THIS IS TO CERTIFY that VILLAGE OF FAIRFIELD

of Fairfield, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 14, 1942; that Permit No. 19245 was issued under said application; that Certificate of Completion of works, with a carrying capacity of three second feet, was issued thereunder on July 15, 1952, showing that said works were completed on the 18th day of December, 1946; and that on the 1st day of November, 1952,

VILLAGE OF FAIRFIELD

of Fairfield, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of three wells ~~tributary~~ (subterranean flow), for the purpose of Municipal water supply for Village of Fairfield, Idaho, under Use Permit No. 19245 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 5024, on the 20th day of November, 1952;

The right hereby confirmed dates from January 14, 1942;

The Point of Diversion ^{are} is located in the West half Block 16, and Block 22, Village of Fairfield; ~~the~~ 44 Sec. 9, Tp. 1 S., R. 14-E., B.M. Camas County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.5 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			Village of Fairfield, Idaho.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

20th day of November, 1952.

(SEAL)

E. M. Humphrey
Deputy State Reclamation Engineer

37 2457

July 11, 1952

Permit No. 19245

There are three wells on this filing, each approximately 338 feet in depth.

Well No. 1 - At approximately 200 ft. down they struck an artesian flow and cased it off through 10 in. casing because it was mineralized and they did not wish it in the village water system. This was flowing out the 10 in. casing on the outside of the regular casing at time of this inspection. There is an 8 in. casing down 333 ft. and then either 6 or 4 in. perforated casing a short distance below that. Pump is Pomona Turbine No. P D 2326. G. E. motor, $7\frac{1}{2}$ h.p., 3 phase, 60 cycle, 220 V., 20 amps., 1750 r.p.m. No. 6049900. There is a heavy concrete ~~base~~ ^{pipe} approximately 2 ft. by 2 ft. Water is delivered into system through 6 in. outlet. Pump operates against tank head of 40 to 49 lbs.

Well No. 2 - Pomona Turbine pump No. P D 2325. Pump in this one, same as in No. 1, sets down 60 ft. Each has a 4 in. column. There is a G. E. 7.5 h.p. motor, same specifications as No. 1, No. 6049903. There is a heavy concrete ~~base~~ ^{pipe} under pump and motor approximately 2 ft. by 2 ft. square. Outlet is through 6 in. pipe through a large check valve into pressure tank. Pressure tank is approximately 4 ft. in diameter by 32 ft. long and supposed to hold 35,000 gallons. These two pumps and pressure tanks are located in a wooden structure 16 ft. by 72 ft. by 10 ft. *Located in Block 16* high. There is a heating stove used in winter to protect against freezing.

Well No. 3 - Located in Block 22. 338 ft. deep by 10 in. in diameter, cased to the bottom. Bottom 75 ft. is perforated. Pump is down 60 ft. Pump No. P L 7684. Motor is 15 h.p. Westinghouse, 3 phase, 60 cycle, 220 V., 33.4 amps. 1745 r.p.m. This well is in a small house built of boards and is connected by pipes underground to the pressure system in the house that houses the other two wells.

Fairfield is a village of 500 population. The first two wells did not furnish sufficient water for irrigating all the gardens as well as furnishing household and stock water. For this reason the third well was drilled. Allow $12\frac{1}{2}$ inches each on Wells Nos. 1 and 2, and 50 inches or 1 cubic foot per second on Well No. 3, making a total of 75 inches.

19245-

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 19245.

Comes now Village of Fairfield and represents to the State Reclamation Engineer of the State of Idaho:

That it is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 19245.

That the point of diversion is described in said permit as being located in the West half of Block 16 of said village.

That they now request that the point of diversion be changed to include two additional points (or well), another in the West half of Block 16, and one in Block 22, of said village.

That his reasons for desiring to make such change are as follows: Additional wells were found necessary to obtain the required amount of water.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Fairfield, Idaho, this 11 day of July, 1952.

H. A. KINSMAN
Chairman of Board of Trustees

Date of receipt at Department of Reclamation July 12, 1952.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 19245. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that The Village of Fairfield of Fairfield, County of Camas, and State of Idaho, the holder of Permit No. 19245, issued upon Application No. 28729 bearing date of priority of January 14, 1942, authorizing the diversion of Three (3) second feet of the waters of 3 wells (subterranean flow) County of Camas, State of Idaho, for municipal water supply for Village of Fairfield, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use Three (3) second feet of the waters of said wells. that the points of diversion of said waters or location of the wells are as follows: Two wells in the West Half of Block 16, and one well in Block 22, Village of Fairfield. and that the place of use of said water is the Village of Fairfield, Idaho.

Witness my hand this 15th day of July, A.D. 1952.

MARK R. KULP
State Reclamation Engineer

Proof of completion of works made December 18, 1946.
Certificate of completion of works issued July 15, 1952.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19245This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant Village of Fairfield, Fairfield, Idaho
2. Source of water supply: 3 Wells Subterranean
2 wells in W. half of block 16 } Village of Fairfield
3. Location of point of diversion: Is in the 1 well " Block 22 of Section 9
T. 1 S R. 14 E County of Camas

4. Describe works as they exist, giving dimensions and capacities of same: There are two wells in block 16, both in one house along with a large steel pressure tank 4' d. x 32' long. Heated in winter to prevent freezing. There is a third well in block #22. It is their best well and was drilled because the other two did not furnish sufficient water.

5. Water is used for: Domestic - Lawns - Gardens - Fire Protection

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

This examination was made on the 11th day of July, 1952

(Signed) C. H. Humphrey Examiner.

See Map "Village of Fairfield"

Bonnie Peters
Clerk, City of Fairfield
Fairfield, ID 83327

RE: Snake River Basin Adjudication claim 37-2560A

Dear Ms. Peters,

Here is some follow-up information regarding the irrigation well and water rights the city purchased from Jerry Caven. Water right 37-2560 was licensed for 1.0 cfs for irrigation of 58 acres. Water right claim 37-2560A (owned by Jerry Caven) is valid for 0.21 cfs for irrigation of 12 acres. The remainder of water right 37-2560 has not been claimed in the SRBA, and unless someone files a claim for it, that portion of the water right will no longer exist.

If the City of Fairfield owns the remainder of the water in 37-2560, it can file a claim for it in the SRBA. However, since the transaction was completed after 1987, the place of use in the water right decreed by the SRBA court would be the land where the water was being used in 1987. So it is possible that City of Fairfield would own the water rights on land it does not own. After the SRBA court decreed the water right, the City of Fairfield could file a transfer with the Department of Water Resources to move the water to the city irrigation area, but at that time the City of Fairfield would be required to document ownership of the water.

Enclosed are the following:

- Water right license 37-2560
- SRBA water right claim 37-2560A
- The preliminary SRBA recommendation (with map)
- Change is Water Right Ownership Form

Feel free to contact me at (208) 287-4937 if you have any questions or would like to discuss this.

Sincerely,

Matt Anders
GIS Specialist – Snake River Basin Adjudication

RE: Snake River Basin Adjudication claims 37-2457, 37-2716, 37-4156, 37-4157, & 37-4409

Dear Ms. Peters,

The City of Fairfield has submitted water right claims 37-2457, 37-2716, 37-4156, 37-4157, and 37-4409 for the Snake River Basin Adjudication (SRBA). These five claims represent two different categories, previously licensed water use and undocumented water use.

Claims 37-2457 and 37-2716 are based on water use that was licensed by the State of Idaho. In the SRBA, previously documented water rights are reviewed to determine if they are still valid. I have reviewed claims 37-2457 and 37-2716, determined both are valid water rights, and plan to recommend that the SRBA court decree them as water rights.

Claims 37-4156, 37-4157, and 37-4409 represent water use that has not been documented by a license from the State of Idaho or a court decree. In the SRBA, previously undocumented water use is reviewed to determine if a water right has been established. I am reviewing claims 37-4156, 37-4157, and 37-4409 for the SRBA and I am requesting that the City of Fairfield submit additional information documenting the amount of water being claimed and the date the water use started (priority date). If you do not submit acceptable evidence documenting when your water use started and how much water is being used, Idaho statutes mandate that these water claims be disallowed by the SRBA court.

Enclosed are the following:

- SRBA water right claims 37-2457, 37-2716, 37-4156, 37-4157, and 37-4409.
- Water right licenses 37-2457 and 37-2716.
- "Evidence of Priority" pamphlet.
- A 1987 aerial photo with the place of use and points of diversion (wells) for 37-2457 and 37-2716 identified.

Feel free to contact me at (208) 287-4937 if you have any questions or would like to discuss this.

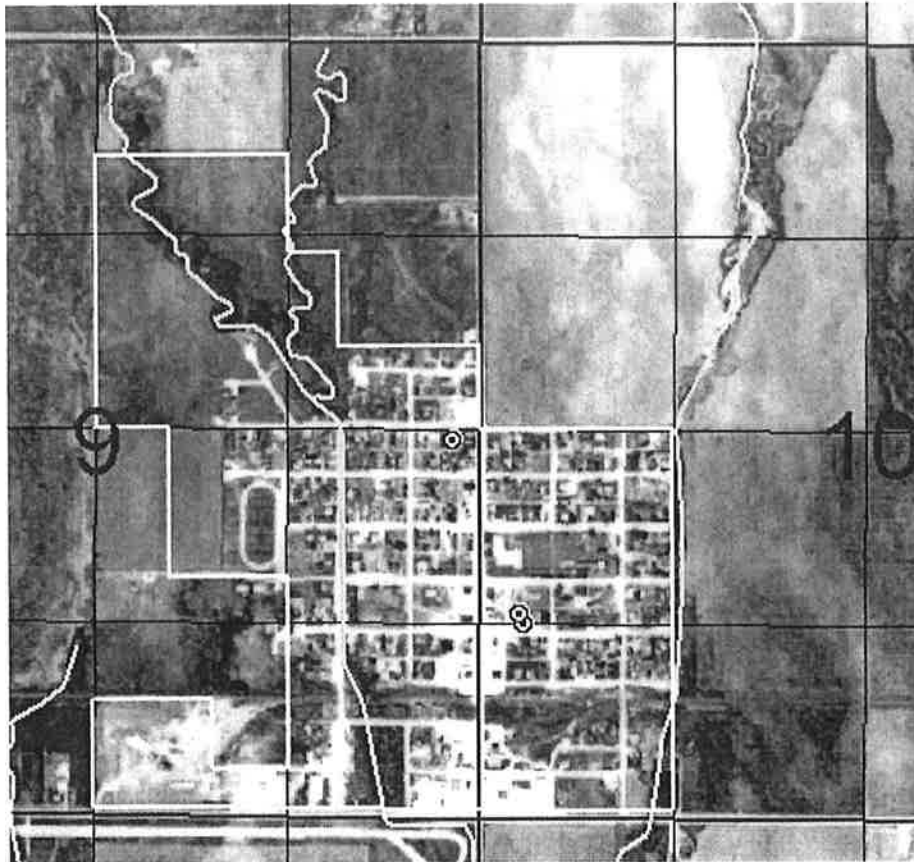

Sincerely,

Matt Anders
GIS Specialist – Snake River Basin Adjudication

Dear Claimant(s):

Please find enclosed your receipt and a copy of a computer generated claim based on the information from your original claim(s) which has been entered in our computer records.

Please review the computer generated claim for accuracy. In a few instances clarifications may have been added by the Department at the time of data entry. If you have any questions or objections regarding the computer record of your claim(s), please contact this office.

Yours truly,

A handwritten signature in cursive script, appearing to read 'Judy Givens'.

Judy Givens
Adjudication Secretary

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW
Adjudication Bureau Chief
