Re: P & C Irrigation Association, Inc. - Second Amended Claim No. A37-02740

Dear Allen:

I have just received a copy of the Second Amended Notice of Claim A37-02740 with the receipt stamp from IDWR together with a copy of the Adjudication Claim's Proof Reading Report which I must assume was changed to reflect this filing. However, the remarks in the Proof Reading Report should be corrected to match the remarks in the Second Amended Claim as filed. For example, there is no longer an "accomplished change in place of use" since the place of use has been administratively approved through Transfer No. 4213. Please call me if you have any questions about this request. Thank you.

Sincerely yours,

HOGUE, SPECK & AANESTAD, P.A.

TRANSFER NO. 4213
WATER RIGHT NO. 37-02740CONDITIONS/REMARKS:

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
3. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- * 7. Right No. 37-02740 is limited to the irrigation of 330 acres in the place of use described above in a single irrigation season.
8. The total instantaneous diversion of water from all points of diversion under Transfer No. 4213 shall not exceed 4.06 cfs.
9. Prior to diversion of water under this approval, the right holder shall install a totalizing measuring device acceptable to the Department at all authorized points of diversion which will allow determination of the total rate of diversion and total diversion volume.

MEMORANDUM

TO: FILE 37-02740

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4213

DATE: May 5, 1994

=====

Transfer No. 4213 was filed to add a point of diversion and change the place of use, creating a permissible place of use under Right No. 37-02740. The right will be limited to irrigation of 330 acres within the 1,158 acre place of use described on the transfer.

Since portions of the original right are removed from the place of use thru this transfer, and essentially all acres could be located outside the original place of use in any given season, proof of ownership is required. No evidence of ownership has been provided at this point and I have requested the information from the applicant. Processing will be stopped until the necessary proof of ownership has been received.

In order to insure that no expansion occurs conditions limiting the total acres, rate and volume have been applied to the right. Other recommended conditions include drilling permit requirements, irrigation overlap, groundwater/surface water use, permissible place of use, multiple points of diversion and standard transfer conditions.

this right probably would not work well for a transfer... it is part of a large Permissible Place of Use (PPU). the right is limited to irrigate 330 acres within the larger PPU of 1158, therefore there is no change in quantity. I will forward this to Doug Jones at the Southern Region in case they get the call from Speck.

Just talked with Jim Speck about the 2 acre place of use (T01N, R22E, Section 32, NESW) that describes BLM land. Jim said he will talk to Steve about transferring the POU to private land. If not possible, then we can do an SF-5 that deletes the POU and adjusts quantity. He will try to get the transfer accomplished so a NAP can be filed and the Initial Hearing can be vacated.

SUBJECT: QUESTIONS ON PROPERTY HE MAY PURCHASE...
phone call (X) walk-in (.)

Said he had made an offer on some property and he needed some information since this was the final day. It is owned by William Laidlaw and on 80 acres in T01S, R22E, SE 1/4 of Section 9. The only appurtenant irrigation rights I could find were under the Fish Creek Reservoir Company, (A37-01162 and A37-14273), and the P & C Irrigation ASSN (A37-02740). Faxed him profile reports to 788-8276 for the above mentioned claims and suggested he call them for information...
