A37-02779 A

Mr. Jeff Peppersack
Idaho Department of Water Resources
Adjudication Bureau
Statehouse Mail
Boise, ID 83720

Dear Jeff:

Enclosed is information our Regional Wildlife Land Manager in Jerome received from the Bureau of Reclamation (Bureau) regarding our filing for water right no. A37-02779 (partial). The claim was for 2,000 acre feet of storage in Little Wood Reservoir for the purpose of wildlife propagation and irrigation at the Carey Lake Wildlife Management Area. Along with the claim form, we submitted a copy of a signed agreement between the Department of Fish and Game, Little Wood Canal Company, and the Little Wood Irrigation District regarding the storage at Little Wood Reservoir.

Based on the letters and notice of proof of beneficial use the Bureau sent to us (attachments), it appears they do not believe we have a claim to the 2,000 acre feet of storage granted us in the original agreement, dated February 20, 1956. Can you clarify the situation for me? Does this affect the status of our claim for the 2,000 acre feet? We were unaware of the attached material when we filed our claim in November, 1990. If you can shine some light on this for me, I would be grateful.

Sincerely,

Cindy Robertson
Fishery Biologist

To: Regional Director, Boise
Attention: 424

From: Project Superintendent

Subject: Proof of Beneficial Use, Little Wood River Reservoir

In reference to the several documents upon which the operating plan of the Little Wood Reservoir is predicated, we infer that the 2,000 acre feet of storage space need not be allocated to the Idaho Fish and Game Department for use at Carey Lake.

1. The Little Wood River Project - Definite Plan Report says, "Storage water in Little Wood Reservoir for fish and game and delivery of this water to Carey Lake when needed to maintain the lake at an area of approximately 500 acres will mitigate the fish and game losses that would be created with the project- - -" The carryover of the water allocated to fish and wildlife will have the beneficial effect of providing additional water for the minimum pool in Little Wood Reservoir at times when it would not otherwise be available.

2. House Document No. 381, 84th Congress, 2nd Session, Page 13, (2), "That only water surplus to meeting the irrigators needs would be available for diversion to Carey Lake".

3. The Contract No. 14-06-100-1549 between the United States and The Little Wood River Irrigation District states on Page 10, b. "Project operation shall be in accordance with the plan outlined in House Document No. 381, 84th Congress, 2nd Session."

We concur in your thinking that the space is available by agreement.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER

TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 17th day of October, 1965,
at Boise, County of Ada, State of Idaho, before
John H. Welch, a Notary Public, proof will be submitted of the
application to beneficial use of 1,000 ^{acre} ~~square~~ feet ~~per second~~ of the waters of Little
Wood River in accordance with the terms and conditions of
Permit No. 2-1049 heretofore issued by the Department of Reclamation of the State of
Idaho.

The name and post office address of the person or corporation holding said permit _____
The United States of America, acting through the Regional Director, Region 1, Bureau of
Reclamation, P. O. Box 937, Boise, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 1,000 acre feet

The point of diversion of said water is _____

NW1/4 Section 13, T. 1 N., R. 20 E., B.M.

The place where said water is used (LEGAL DESCRIPTION) Lands under the Little Wood
River Irrigation District canals in Townships 3 South, 1 and 2 North, Range 20 E., B.M.;
Townships 1 and 2 South and 1 North, Range 21 E., B.M.

The date of priority which said user is prepared to establish is April 10, 1959

Subject: Proof of beneficial use, Little Wood River Reservoir

We plan to proceed with the filling of beneficial use in connection with permit No. P-1049 for Little Wood River Reservoir. A draft of a proposed notice of publication is enclosed for your review.

This filing is a little awkward in that the District filed on 17,000 acre feet of additional capacity because of reconstruction of the dam, and the United States filed on 18,000 acre feet. The State permitted the District to perfect its filing for 17,000 acre feet of capacity, so there is only 1,000 acre feet left under our permit.

As you know, 2,000-acre feet of storage have been allocated to the Idaho Fish and Game Commission for its Carey Lake Fish and Wildlife Refuge. As we understand the situation, the District has perfected its permit without reference to the 2,000-acre feet allocated to the State Fish and Game Commission. We have only 1,000 acre feet of space (actually less than 1,000 acre feet as the total added capacity of the reservoir is less than 18,000 acre feet). Our plan is to attempt to complete our filling without reference to the 2,000-acre feet of storage, with the thought that the space has been made available to the State by agreement. We do not know what the State Engineer will do with our filling.

We would appreciate your comments.

Subject: Water Right Filing at Little Wood Reservoir (Water Rights)

Dear Dale:

Last fall you called inquiring about the subject filing under the Snake River Basin Adjudication. Cindy Robertson from your Boise Office was in touch with Ed Thomas of our Regional Office. Since that time Ed found some additional reference material, and a copy is enclosed.

Sincerely,

John M. Dooley
Project Superintendent
