Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Gwinn F. Rice
P.O. Box 131 Hill City, ID 83337-0131
4. New Owner/Claimant(s) Idaho Department of Fish and Game

- City, State and ZIP Code Boise ID 83707
- New Telephone Number (208) 334-3700
5. Date you acquired the property March 11, 2002

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

RE: Snake River Basin Adjudication; Claims #37-04323, #37-04325 and #37-4061

February 13, 2008

Kelly Christensen
Department of Water Resources
1341 Filmore St., Ste. 200
Twin Falls, ID 83301

Dear Mr. Christensen,

This letter is concerning the water rights in the case filed with the SRBA District Court Case #39756. I am objecting to the recommendations of IDWR concerning the above mentioned water rights. The evidence I am presenting here will also be presented to the court.

The reasons for the objection are mainly a question of fairness and equality on the part of IDWR, and how they came to their decisions. The Gwinn Rice claim #37-4061 is the right I am using for comparison as to the information used to establish this right, as opposed to the information given for claims #37-04323 and #37-04325 belonging to Fred Malcomsen.

I am requesting that the water rights on claims #37-04323 and #37-04325 remain as they were originally applied for by Fred Malcomsen in 1983. Fred's claim was never protested as to priority date or place of use. The claim was publicly advertised in area newspapers. Information provided by Fred is the most accurate reflection for these water rights. The water has been used to irrigate this ground continuously over the years. Yet, IDWR recommended changes to the priority date, amount of water to be used and place of use. Gwinn Rice's claim #37-4061 was protested, and upheld by IDWR. Rice, using only his aunt's, Elsie Francis's affidavit, whom had never owned nor irrigated the related ground to this claim, secured IDWR's recommendation for approval. IDWR accepted her affidavit without question or exception.

In comparison, claims #37-04323 and #37-04325 (Malcomsen's) IDWR recommended a different priority date, less acreage for place of use and a lesser quantity of water, for no justifiable reason, during the adjudication process. The evidence for these claims is more extensive and certainly better documented than Rice's claim was. This evidence attached to this letter will show why claims #37-04323 and #37-04325 should remain as they were historically and claimed by Fred Malcomsen in 1983.

Please consider also, additional water rights obtained by Fred Malcomsen from Charles Hobdey. This right became part of Fred's claim. The water was diverted from Camas Creek through the Woods Ditch to Zapal Lake and used in Section 32, refer to Exhibits 4 and 5. This right had a priority date of Oct. 8, 1900, and was part of water right #37-04403. This further documents use of Camas Creek water in Sec. 32 and establishes a priority date of 1900.

My farther Charles Olson, has presented most of the evidence herein. I have leased this ground for many years and am currently under contract to purchase it. Please reconsider your recommendation on Malcomsen's claims, so as to let the water originally claimed for this ground remain as it was.

Any further questions please contact me at the phone number listed below. I would be more than pleased to meet with IDWR at your convenience.

Respectfully Submitted,

A handwritten signature in cursive script that reads "Clare Olson". The signature is written in dark ink and is positioned below the "Respectfully Submitted," text.

Notes

T2S R11E Section 1; T2S R12E Sections 5 & 6

- Found 867 acres.
- Additional acres north of Camas Creek claimed in Section 1, but this land appears to be uphill from the PODs.
- Diversion rate:
 - North POD
 - Estimated ditch capacity = 7.5 cfs
 - Channel is 15 ft wide by 1.0 ft deep.
 - Assuming velocity of 0.50 ft/sec
 - Average velocity of measurement was 0.47 ft/sec
 - Discharge measurement during field exam was 3.44 cfs
 - South POD
 - Estimated ditch capacity = 15.0 cfs
 - Channel is 20 ft wide by 1.5 ft deep.
 - Assuming velocity of 0.50 ft/sec
 - Average velocity of measurement was 0.47 ft/sec
 - Estimated maximum diversion capacity = 22.5 cfs
- Recommendation:
 - Priority date: 6/1/1939 based on affidavit by Lena Rice
 - Evidence of priority for 1912 by Elsie Francis is inconclusive for diversion rate, POU, and POD.
 - Diversion rate: 17.34 cfs
 - 0.02 cfs/acre
- Data used for review: 1987, 1992, & 2004 aerial photos, Camas Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

I was able to contact the Fish& Game field man { Terry Gregory} and made an apt. to go up to Hill City and review these files with him and try to locate the diversion points. We met at the old Hill City store and looked over the files, and in doing so we tried to locate the springs in files 20819 & 20820 Terry finally located the area of the springs and he told me the Fish & Game does not own these rights they are on Gwinn Rice property and this water does not get to the Fish & Game property . I suggested he have their property manager look into these two files with the IDWR and try to determine who owns the spring water.

37-4061 POD #1 We then went to camas creek and located the diversion which I was able to measure at the point I got the GPS as shown in photo 1030315 looking West, and on measurement sheet .

All of this land is sub irrigated, no corrugations, sprinklers [nothing] it just flood over and thru the soil this property is used basically for wildlife deer elk , birds ducks geese, and sometimes cattle .

37-2694 POD 2 & 3 While walking all around the this pasture [dry grass about 2' high] Terry located a well in this field but after getting a photo and GPS this well has a 8" casing, he said he was not sure this is the right well so we proceeded to look further and found a well #3 with a 6" casing, that he thought could be the right one so we got a photo & GPS of this well and he said that the second well might be under water in this pond. Again all this land is sub irrigated and is used for wildlife , birds and sometimes cattle.

37-7286 POD #4 Off we went again across the pastures and located this well which has a 6" casing and a 2" galvanized discharge into the stock tanks as seen photo 318 looking North . Again this land that gets wet is sub irrigated and the land is used for wildlife, birds and sometimes cattle.

37-4061 POD #5 photo 319 looking West there is very little water flowing in this ditch bur just enough to make small ponds in the ditch Terry and I estimated about 5-6" of water.

Terry told me 3 weeks ago these diversions were dry but due to the rain they have started running a little.

RE: Water right claims 37-4061 and 37-20820 (split from 37-4049)

Dear Mr. Jones:

I have attached notarized affidavits from the previous water right owner (Gwinn Rice Ranch, Inc.) as to the priority date and use of the above water rights. Mrs. Lena Rice and Mr. James Rice provided these affidavits in February 2002 when the Idaho Department of Fish and Game acquired the property from Gwinn Rice Ranch, Inc. Their affidavits did not include mention of the quantity of water associated with either claim. I have also attached handwritten records obtained from Mr. James Rice as to the amount of hay produced from the lands irrigated by the above water rights for the years 1986, 1988, 1989, 1993, and 1995-1997.

If you have further questions or information needs, please contact me at 287-2715 or Mike McDonald in our Jerome office at 324-4359.

TO: M2H Anders, IDWRSUBJECT: Gwinn Rice Ranch WaterFROM: Cindy Robertson, IDFGDATE: 17 January 2006

M2H: I have enclosed copies of the letter and attachments that I sent to Doug Jones in April 2005. I have also included a copy of a map showing approximate POD's for 37-4049 and 37-4061, but I'm not sure if the crosshatching showing POU's is really decipherable. I think the horizontal cross-hatching is associated with the POU for 37-4061 and the vertical cross-hatching near the POD for 37-4049 is associated with the POU for that right as well. I asked our lands folks for a "better" map, and they didn't have one. Let me know if I can provide any additional information.

Re: Evidence of Priority

RESPONSE DEADLINE
JUNE 17, 2005

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

I, Elsie M. Francis, being first duly sworn,
deposes and says: would like to say that the land in
Secs. 5 & 6, Township 2 South
Range 12 East has been irrigated from Malad river now known as
Camas Creek by flood irrigation controlled by checks and dams as
long ago as 1912 when I first owned some of the land and have since
sold it to Gwinn Rice. Gwinn has also improved the system and
restored the land in many ways.

Re: Notice of Claim of Water Right
#37-4061 By Gwinn Rice Ranch, Inc.

We, the undersigned, claim exception to the above water right upon the following reasons:

1. That any right to the waters as referred by claimant in the amount stated has been abandoned by failure of the owner and his predecessors by their non use of 20.0 cubic feet of water.
2. That no rights in the waters of Camas Creek and its tributaries have been adjudicated or decreed, nor priorities established to the best knowledge of the undersigned.
3. That the undersigned and other landowners located in Township 2 South, Range 12 E.B.M. have appropriated the flow of Camas Creek by the use of natural and manmade diversions dating from 1910 to the present.
4. That the undersigned and other landowners, as hereinabove referred to, have placed said waters of Camas Creek to a beneficial use by means of diversion, both natural and manmade, and harvested crops from the premises so benefited.

Dated: April 10, 1975.

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

Lapsed Applications for Permit #37-07678 and #61-07450

Dear Water Right Holder:

Thank you for signing and returning my address change letter so promptly. I checked each of the permit numbers you wrote in your enclosure and found the following:

Applications for Permit #37-07678 and #61-07450 have lapsed. If you wish to file another Application for Permit, please call IDWR to have the form sent to you.

I could find no information whatsoever in our data base about permit #37-07026.

In response to your question about telling us when you move back to Boise in the winter and back to Hill City in the summer, yes, definitely tell us. Write down each of your water right and permit numbers, sign the note and send it to us so we can update our data base.

The only way you will know if someone has filed an objection to your water rights is if you get that notice in the mail. As you read in the Notice of Filing Director's Reports you received in March, 1999, there are deadlines by which you must have the Court's form to the Court by a specific date for both objections and responses to objections.

It would be unfortunate if you missed an important deadline or missed a hearing because your mail went to one of the

addresses and you were living at the other address. IDWR can help you avoid this event if you'll keep us posted of your changes.

Change of Address

Department of Water Resources

OK

Dear Water Right Holder:

Records not changed - address in Hill City correct. - 8-10-99

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water rights can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by July 19, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water right referenced above, please write down the name and address of the new owner(s) so we can send them a form to make this required change to the water right record.

Sincerely,

Sally
