The rights listed below are limited to the irrigation of a combined total of 2859.2 acres in a single irrigation season. Combined Right Nos.: 37-891B, 37-1206, 37-2556A and 37-4109.

This right is limited to the irrigation of 1116.4 acres within the boundary of the Baseline Canal Co.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

It would seem to me that there would be a benefit to us and Baseline Canal Co. if we were to recommend as a company, which would also allow us to recommend a service area instead of individual places of use.

Given the relationship that's described between the Baseline Canal Co. and the Pump Assns, it also seems to me that the Base Line Canal Co.'s claims could take the place of claims filed by the Pump Assns.

I know that we've recommended rights to companies in Basin 67 that were no longer in existence with the Secretary of State, but were still organized and had officers that could bind its users. We did this for both storage and natural flow companies.

Subject: Disposition of Base Line Canal Co.

Gents:

As discussed earlier today with Dave, Base Line Canal Co. (37-891B and 37-1206), Baseline Pump Assn. #1 (37-4109) and Baseline Pump Assn. #2 (37-2556A) have filed the referenced claims in the SRBA and I am trying to deal with them. They are intertwined in sort of a symbiotic relationship.

As you may already know, Baseline Canal #55C is a redirection from the Bypass Canal on the Big Wood River. The watermaster of WD37 delivers water to the Baseline Canal #55C headgate and then the water below that headgate is delivered by the Base Line Canal Co. The water being delivered is privately held decreed rights to individual decree holders as well as shareholders in the entities identified above. I understand that all water right holders that take delivery thru the Baseline Canal are share holders in the Base Line Canal Co. (Things match up well but I do not think that the Base Line Canal Co's list has been updated with the splits of the Molyneux property.)

I understand that none of these three entities are registered with the Secretary of State but at one time Base Line Canal Co. was registered. I talked to Cathy Zaccardi who is the secretary of all three entities and she may look into dealing with the Secretary of State. The entities share common boards or governance.

Attached are documents sent by Cathy at my request to describe the shareholders in these entities. It is my understanding that Base Line Canal Co. is sort of an umbrella organization and the pump associations operate within the boundary of the Base Line Canal Co. Each pump association is associated with operation and maintenance of a well that supplements water to the shareholders via the Baseline Canal system. Note that physically water from the wells can not get to the property of some of the shareholders but in practice water is exchanged within the Baseline Canal system. For example Lau has shares in the Baseline Pump Assn #2 but the well is actually miles down the canal and in practice he is delivered water only from the river through the Baseline Canal but the extra water he gets beyond his decree comes from someone else's decree that is replaced by the well downstream.

<< File: 20061128150214183.pdf >>

Attached is the Watermaster's delivery records I've been dealing with for the Baseline Canal.

<< File: Bypass.xls >>

We currently have a shape of the Base Line Canal Co. service area available in our GIS platform.

I need guidance with regards as to how to recommend these claims. Questions that come to mind.....

-Do I recommend the Base Line Canal Co. in a service area or only to the acres being recommended to the

individuals?

-If I recommend the Base Line Canal Co. in a service area can I recommend the Pump Assns in the same service area?

-If I do not recommend the Pump Assns in a service area how to I come up with acres...are they limited by share, limited by acres of their individual decrees, etc??

-Can I recommend all claims in the name of the Base Line Canal Co. and leave that entity to sort out their shares and charges internally?

If after studying this for a while maybe we can discuss further if you have questions.

RESPONSE DEADLINE

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

Dear Claimant in the Snake River Basin Adjudication (SRBA):

You or the predecessor in interest of your property filed a "Notice of Claim to a Water Right in the Snake River Basin Adjudication" with the Idaho Department of Water Resources. Claim filing began in 1988, and since that time IDWR has worked to complete recommendations throughout the state. Now the investigation of "Irrigation and Other State Based Claims" is about to begin in the area where your claim(s) were filed, IDWR's administrative Basin 37. As shown in the enclosed map, this basin includes parts of Blaine, Camas, Elmore, Gooding and Lincoln counties and is subdivided into 3 parts.

If your claims are located in Basin 37 Part 2 or Part 3*, you are invited to attend a public meeting at one of the locations below on **Wednesday, September 22, 2004**:

10:00 am
Liberty Theater
116 N. Main St.
Hailey, Idaho

or

2:30 pm
Camas County Senior Citizens Center
7129 W Willow
Fairfield, ID

* Similar informational meetings were held in Basin 37 Part 1 over the last couple of years.

The purposes of this general informational meeting are to provide an update on how the adjudication process works; introduce IDWR staff that will be working in your area; and to give you the opportunity to express concerns or discuss problems relating to water delivery in your area. This will help us understand, from an historical perspective, the use and delivery of your water right.

IDWR adjudication staff will be investigating your claims beginning this year with additional field work next season. We request your cooperation in this process - the better we understand your water rights, the more accurate our recommendation will be to the SRBA Court.

Please contact our toll-free number, 1-800-451-4129, if you have any questions.

Sincerely,

Douglas Jones, P.E.
Supervisor
