Dear Steve,

Enclosed are documents that I hope will be sufficient to transfer this water right.

Lee Peterson came up to take pictures and GPS the point of diversion.

I have no specific knowledge of the priority date but will approach a few of the old timers for their recollections.

Sincerely,

Peter Janss

I called Elsie about these two files and she informed me that Peter Jans now owns both these water rights and she gave me Peters phone numbers so I then called him and made an apt. to meet him at the property to review these files . And he showed me on the color photo where the ditches are , we then drove to the spring location and walked up the ditch to the pond and spring ,as I went along I observed water in this ditch but it was not moving it was just ponding in the pond and ditch for stock [horses & cows] and where there was water the cows were lounging . I observed that all this land is used for pasture which is now dry and has been for some time, all the cattle were wanting to be moved due to this dry grass has not food value. I did GPS the spring in pond , photo 1030302 S is where the spring is showing a small amount bubbling up in pond which is just enough to keep the pond and a small amount going down ditch for stock water . There are two diversions from this ditch to the east but as shown on photo 306 E check structure there is no water passing and photo 305 E is dry and both have been dry for some time . Photo 304 is where I measured the ditch width & depth due to what little water there was in this ditch I could see no amount of movement but I would guess approx 5-6" maybe. All this area depends on snow and spring rains for water to irrigate their lands it appears to me that the springs in late summer are just stock purposes very little if any can be diverted .

File 37-4149

INTER-DEPARTMENT MEMO — 1

DATE 9-26-84

SUBJECT Pre-Transfer field exam

An investigation of the claimed right 37-4149 on 9-26-84 revealed a hot spring intermingled with a ^{cold} spring fed stream being diverted by a poorly maintained earth dam through a poorly maintained ditch. I measured the flow with a v-notched weir at a break in the ditch and in the ditch itself & with a pipe bucket & stopwatch at a rodent hole in dam. Total flow measured was 0.34 cfs. Flow is probably greater earlier in year. The only apparent irrigation was pasture and ^{approximately 4 acres} adjacent to house. Mr Wolfe said that he puts a dam in the ditch along the road and sub irrigates the land in sec 22. He said the land in sec. 21 has not been actively irrigated for about 10 yrs — Terry Blau but believes that it too sub irrigates from the ditch along the north end.

Re: Evidence of Priority

RESPONSE DEADLINE
JUNE 17, 2005

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-_____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
