RE: Water Right No. 37-4149

Dear Claimant(s):

This office has received your Notice of Change of Water Right Ownership recently submitted. We also received check number 2815 in the amount of \$25; however, we are returning it to you, as the ownership change fee is not required for this particular water right claim. This claim has not yet been decreed by the SRBA Court. The ownership change is being processed and a copy will be mailed to you upon completion.

Thank you for your patience and cooperation. If you have any questions regarding this letter, feel free to contact this office at (208) 334-2190

Re: Water Rights

From: Al Stampke

Hill City, ID.

Attention Don Shaff;

In Regards to water claim 37-4149A, I have done some research and found that the water usage can go back to before the early 1950's when first the Vodameirs and then the Yamamotos used said water on this farm.

The following people to the best of their recollection remember the water rights being used on this farm:

NAME:	<u>Josephine Weatherly</u>	<u>76</u>
	<u>Pat Funkhouser</u>	<u>61</u>
	<u>Sam Strauss</u>	<u>49</u>

Yours sincerely,

When talking to Peter Jans he told me that Guillermo [Alberts mother] no longer claims ownership of this water right and he gave me Alberts phone N o. so I called him and met his wife at home and told her what was needed to update this water right file and she informed me that Albert works for Camas Co. highway Dept so I called his cell and met him at the highway office and reviewed this file . He looked at the color photo and told me the red area is his home, lawn and small goat pasture the land south is hay field which is now dry and has been for some time, while talking to a lot of people in this valley one crop of hay is usually all they get unless they have a well for irrigation. While with Peter Jans I got the GPS and info at the springs. At the spring Photo 1030302 looking SE is the pond where the spring comes up which has a small movement of water for the pond and a small amount going down the ditch for stock purposes at this time. Photo 303 looking south at amount in ditch below the pond, 306 E is a check structure and 305 is a ditch east both dry and has been for some time 304 is the location I measured the ditch width and depth , I also notices very little movement in the water but the cows were staying close to where they could get water. While talking to Albert I gave him a change of ownership form to send into IDWR which he said he would get this done very soon.

FROM Terry Blau

File 37-4149

INTER-DEPARTMENT MEMO — 1

DATE 9-26-84

SUBJECT Pre-Transfer field exam

An investigation of the Claimed right 37-4149 on 9-26-84 revealed a hot spring intermingled with a ^{cold} Spring fed stream being diverted by a poorly maintained Earth dam through a poorly maintained ditch. I measured the flow with a v-notched weir at a break in the ditch and in the ditch itself & with a pipe bucket & stopwatch at a rodent hole in dam. Total flow measured was 0.34 cfs. Flow is probably greater earlier in year. The only apparent irrigation was pasture and yard ^{Approx 4 acres} adjacent to house. Mr Wolfe said that he puts a dam in the ditch along the road and sub irrigates the land in sec 22. He said the land in sec. 21 has not been actively irrigated for about 10 yrs. Terry Blau but believes that it too sub irrigates from the ditch along the north end.

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

In reference to the claim rights claim # 37-4149A –

In 1916, a man named Votemire built the earth dam and began to use the hot springs for irrigation and stock water. After some time, he sold the farm to Jimmie Yamatoto. Mr. Yamatoto mainly used the water for irrigation on the ground of said water right. Mr. Ray Wolfe purchased the farm in 1968 and has used the water from the hot springs from that time to the present day, and has always been solely responsible for all maintenance to the earth dam and ditches.

Mrs. Guillermina Wolfe is now sole owner of Ray Wolfe Farms, and has all said responsibilities of hot springs and irrigation rights for Claim #37-4149A.

If you need more information, please feel free to call me at 208-539-2970.

CLAIM TO A WATER RIGHT

Dep
S. 1000

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.
