Re: Water Rights Objection – Claim – 87-11258

To whom it may concern:

Last week we received a phone call from Lacey Rammell-O'Brien, Deputy Attorney General with the Idaho Department of Water Resources in regards to our objection (filed in December 2021) to the Claim 87-11258. She pointed out that we had inadvertently wrote our own address in the mailing section that was supposed to be the address for the claimant. She advised us to use Standard Form 7 and complete the "motion to file late objection" to correct this oversight. None of the information is different in this late objection from the original objection other than the correct address for the claimant. We are requesting that the court accept this motion to file a late objection.

Thank you,

 

James & Tonya Murray
