May 19, 2005

RECEIVED
JUN 21 2005
Department of Water Resources
Southern Region

Idaho Department of Water Resources
1341 Fillmore Street, Suite 200
Twin Falls, Idaho 83301-3380

To Whom It May Concern:

This is in reference to water right #37-4277. I, Otis Disbennett Jr., was Deputy Water Master for water district 37 and 37M from 1979 through 2005.

This affidavit is regarding water right #37-4277 that is currently owned by Robert F. Bouttier. The two wells in question have diversion points known as:

GROUND WATER	NW1/4SW1/4SW1/4	Sec. 36, Twp 02N,	Rgc 18E, B.M.
BLAINE County			
GROUND WATER	NW1/4NW1/4SW1/4	Sec. 36, Twp 02N,	Rgc 18E, B.M.
BLAINE County			

Place of Use

IRRIGATION Within BLAINE County

T02N R18E S36	NWSW	31.0	T02N R18E S36	SWSW	38.0
T02N R18E S36	SESW	3.0			

Total Acres: 72

These wells had gas-powered pumps and were flood irrigating the ranch prior to 1935. The owners of the ranch were personal friends of my father, and I would accompany my dad when he would visit them. I, personally, first saw the wells pumping water in 1935. I do not know the quantity of water pumped, but it was enough water to flood irrigate the gravelly hay ground on the ranch. I have personally witnessed the fact that this has been continuously irrigated cropland since 1935.

Yours truly,

Otis Disbennet Jr. (Tinker)
Retired Deputy Water Master
District 37-37M

Re: Evidence of Priority

RESPONSE DEADLINE
JUNE 17, 2005

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-_____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, R.E.
Water Rights Supervisor

Boise, ID 83720-0098

Dear Shelley Keen,

I, Richard Gouley, purchased the fifteen acres (lots 2 & 3) south of lot 1 of the Scofield subdivision, in 1977, which was owned by Lyle Scofield. Lot 1 was about 6.4 acres, which Lyle Scofield was irrigating with 2 irrigation wells. One was a culvert well in the ground on the property line between lots 1 & 2. The other pump was pumping water out of the Broadford Slough. It was a 6 cylinder diesel powered pump. Lyle Scofield used a combination of flood irrigation and hand lines to irrigate the acreage.

Robert Bouttier irrigated the property for Lyle Scofield in the mid-1980s, when he was too old to do the work himself.

Sincerely,

A handwritten signature in dark ink, appearing to be 'R. Gouley', with a long horizontal stroke extending to the right.

RE: Notice of Claim to a Water Right No. 37-4277

Dear Claimants:

The Department has received the notice of error that you submitted for the above referenced claim. In review of the claim file it was determined that you have submitted evidence that documents an earlier priority date than was claimed.

Please note that we cannot recommend an earlier priority date than was claimed. The claim in our file claims a priority date of June 1, 1949, so that is what was recommended in the preliminary recommendation of this claim. Enclosed you will find an amended claim form that will allow the Department to recommend the earlier priority date once the form is signed in the presence of a notary public and returned. Please sign the claim and return it to my attention at your earliest convenience so that the Department can recommend the earlier date in the recommendation to the SRBA Court.

As for the amount of water recommended, the Department cannot recommend more than an inch to the acre for this right unless you provide documentation that the soil you are irrigating needs more water. The notice of error submitted indicates that Mr. Brockway will conduct a soil analysis of your property this spring. The Department will recommend an inch per acre for this right when the Director's report is submitted and then if you still feel you need additional water, you can file an objection with the SRBA Court that will allow time for Mr. Brockway to conduct the soil analysis for this right.

If you have any questions regarding this matter, please do not hesitate to contact me at (208) 287-4953.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

MEMORANDUM

DATE: December 21, 2006

TO: SRBA Claim File 37-4277

FROM: Shelley W. Keen 

RE: Priority Date

The claimed priority date for SRBA Claim 37-4277 is 6/1/1949. The claimant submitted evidence that the use commenced in 1935, and the initial recommendation prepared by Nick Treasure included a 1935 priority date. Because the claimant did not amend the claim, however, the priority has to be 1949 or later. I changed the recommendation to show a priority date of 6/1/1949.

MEMORANDUM

DATE: December 21, 2006

TO: SRBA Claim File 37-4277

FROM: Shelley W. Keen *SWK*

RE: Points of diversion, place of use, and quantity

This morning I spoke with the claimant, Rob Bouttier, about the points of diversion and place of use recommended for Claim 37-4277.

Points of Diversion

The map sent to Mr. Bouttier with the draft recommendation for this claim showed the points of diversion in the centroids of the 10-acre tracts. According to Mr. Bouttier, the points of diversion are actually in the locations depicted on the map prepared by Nick Treasure on June 24, 2005. I updated the location of the points of diversion in IDWR's spatial database.

Place of Use

Mr. Bouttier had several concerns about the place of use as it is depicted on Nick Treasure's 6/24/2005 map. The first concern was the exclusion of the horse track at the southern end of the property. Mr. Bouttier explained that it was created in the late 1980s, used for a few years, and then discontinued. It is not evident on 1980 aerial photography. It is still detectable, however, on the 2004 and 2006 aerial images, although it appears that it may be vestigial. I added the track area back into the place of use because it was part of the irrigated area in the 1980s.

The second concern was the area on the east side of the property along the Big Wood River. Mr. Bouttier said that he irrigates more land along the riverbank than shown in the place of use drafted by Nick Treasure. Treasure's recommended place of use conforms quite well to the irrigated boundary along the river in 1987, but it is clearly different than shown on the photography for other years, including 1980, 1992, and 2004. In all of those years the irrigated area along the river appears greater than it was in 1987. Mr. Bouttier explained that the river channel has changed due to flood events over the years, especially in the early 1980s, but it has been stabilized by dikes designed by Brockway Engineering. Because it seemed evident to me that the boundary digitized by Nick Treasure marked a low point in history rather than the norm, I recreated the boundary with more land along the riverbank.

The third concern about the place of use was the rectangular area excluded for the farmstead in the NW $\frac{1}{4}$ SW $\frac{1}{4}$. It is too large because a small pasture area next to the road that was not irrigated in 1987 was excluded. That area was irrigated in 1980, and possibly also in 1992, so I added it to the recommended place of use.

Quantity

The recommended place of use increased from 56.2 acres to 64 acres. Therefore, I increased the recommended rate to 1.28 cfs and the recommended volume to 224 acres. Mr. Bouttier told me that he actually diverts over 900 gpm, and he believes he needs that much because of the gravelly soil. I explained that the recommendation could exceed 0.02 cfs per acre if he presented evidence showing that a higher rate is necessary.

(2.00 cfs) 100 1/4 107
