RE: Snake River Basin Adjudication
Claims 37-04323 and 37-04325

Sir:

I am Charles J. Olson, son of Axel and Lela Olson, born 14 January 1931. The priority date of 1945 on water rights 37-04323 and 37-04325 is not correct from my understanding of how the water was put to beneficial use in the settlement of the property. Following are a list of statements with documents as exhibits that show how these property settlements evolved..

In 1924 my father purchased the North East quarter of Sec. 5 T 02S R 11E from the heirs of Louis A Nelson who received a homestead patent on this property dated 13 June 1906. See Exhibits 1. My father was acquainted with Louis A. Nelson and how he had put the water from John's Spring to beneficial use in the North East quarter of Sec. 5 T02S R 11 E, which is known as water right 37-04323. My father related to me how the Louis A Nelson had irrigated the marsh lands to produce hay for the cattle, and other lands for summer grazing, of both dairy and beef, and horses used to pull farm implements and transportation, for Louis's sustenance during the year.

In the deed from Louis Nelson to Axel Olson, my father, in 1924, water rights are mentioned as one of the improvements. See Exhibit 2. Therefore these water rights had to be established prior to 1924 and the date of June 1906 is proper. My father also knew John Johnson

who received a homestead patent on the North West 1/4 of Sec 5 T 02S R 11E on 16 November 1894 See Exhibit 3. My father's account of this property is very similar to the account of the North East 1/4 of Sec 5 T 02S R 11E , except the water source was from Camas Creek. This is water right 37-04323.

The adjoining South West 1/4 Sec 32 T 01S R 11E carries a quit claim deed from T P Zaspel to Otto Johnson , dated 8 October 1900, where improvements state water right from Spring Creek ,Zaspel Lake and Malad River, a 2 room dwelling home, dairy house, sheds and corrals. The water right on this property is now part of water right 37-03425. See Exhibit 4.

I am personally familiar with water right 37-04323 because I helped my father irrigate and harvest crops on this land in the late 1930s and all of the 1940s. And my father related to me that we were irrigating and harvesting this hay as it had been irrigated and harvested from the early 1900s.

After I completed my schooling and military service, in early 1956, I returned to the area where I resided and rented my father's land and also rented that portion of Fred Malcomson's farm located in the North 1/2 of Sec 5 T 02S R 11 E. Fred outlined to me that the water right on Camas Creek and John's Spring were the earliest on Camas Creek and John's Spring going back to the homestead days. The volume of water was the total flow of Camas Creek and John's Spring once the snow peak water was gone.

I was made aware of the Malcomson -Hobdey water right agreement in 1951. The result of this agreement gave Malcomson the sole senior water right and additional water on Camas Creek and John's Spring to irrigate their lands in north 1/2 of Sec.5 T02S R11E and the SW 1/4 of Sec 32 T 01S R11E . See Exhibit 5.

In summary, I would like to state that Malcomson's claim to a water right presented to

IDWR in 22 April 1983 and legally advertised in the Mountain Home News , which received no protest, is a very good summary of water rights 37-04323 and 37-04325. See Exhibit 6. If I can be of any help in resolving the objection filed in the SRBA concerning the priority dates on water rights 37-04323 and 37-04325, please contact me,

Sincerely.

Exhibit 1

Instrument No. 17273

THE UNITED STATES OF AMERICA.

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETING:

Homestead Certificate No. 12228

Application 1336

WHEREAS, there has been deposited in the General Land Office of the United States a certificate of the Register of the Land Office at Hailey Idaho, whereby it appears that pursuant to Act of Congress approved 20th May, 1862, "To secure Homesteads to actual Settlers on the Public Domain," and the acts supplementary thereto, the claim of Louis A. Nelson has been established and duly consummated in conformity to law, for the Lots numbered one and two and the South half of the North East quarter of Section Five in Township two South of Range Eleven East of Boise Meridian in Idaho containing one hundred and Sixty two Acres and fifty-three hundredths of an acre.

according to the Official Plat of the survey of the said land, returned to the General Land Office by the Surveyor General.

NOW KNOW YE, that there is therefore granted by the UNITED STATES unto the said Louis A. Nelson the tract of land above described, to have and to hold the said tract of land, with the appurtenances thereof unto the said Louis A. Nelson and to his heirs assigns forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing or other purposes, and rights to ditches and reservoirs used in connection with such water rights as may be recognized and acknowledged by the local customs, laws and decisions of courts, and also subject to the right of the proprietor of a vein or lode to extract and remove his ore therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law. And there is reserved from the land hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

IN TESTIMONY WHEREOF, I, Theodore Roosevelt PRESIDENT OF THE UNITED STATES OF AMERICA, have caused these letters to be made Patent and the seal of the General Land Office to be hereunto affixed.

Given under my hand, at the City of Washington, the thirtieth day of June in the year of our Lord one thousand nine hundred and six and of the Independence of the United States, the one hundred and thirtieth

In witness thereof The said party of the first part has hereunto set his hand and seal the day and year first above written.

Signed Sealed and Delivered Oscar T P Zaspel in the presence of
Asa Johnson.

Exhibit 5

Water Right Trade Agreement

In 1951 Fred Malcomsen and Charles Hobdey made a verbal water right trade agreement. Charles Hobdey would trade all of his water in Camas Creek and Johnson Spring being delivered by the Woods ditch to Fred Malcomsen in exchange for all of Malcomsen's water right to Dyer Creek, a tributary of the Malad River.

We the daughters of Charles Hobdey attest that this is what was ~~to~~ told to us and is how the water has been used since that date.

Exhibit 6

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

Notice is hereby given that Fred Malcomson / or Agnes Malcomson
(Name of Claimant)

RE: Claim No. 37-4325

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

ALLEN D. MERRITT
Senior Water Resource Analyst

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before .

Yours truly,

Mary A. Newby
Secretary

Case No. 39576

Subcase No. 37-4323 37-4325

NOTICE OF COMPLETED
ADMINISTRATIVE PROCEEDING

IDWR has completed the following Administrative proceeding: **SUBSTITUTION OF PARTY**

Does the change in "ownership" result in a splitting of the water right claimed? ☐ Yes ☒ No

IDWR certifies that it has completed its investigation into the changes to the elements of the water rights listed above as set forth in the attached *Amended Director's Reports* for said water rights. No other changes have been made to the elements of these water rights except as set forth above.

IDWR has served copies of the *Notice of Completed Administrative Proceeding* and *Amended Director's Report(s)* on the claimant(s), prior claimant(s) and all parties in the subcases affected, if any, as reflected on the attached certificate of mailing.

Dated: 4/3/08

RE: SRBA Claim(s) 37-4323, 37-4325

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett
Technical Records Specialist

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

Please print or type. Attach pages with additional information. Instructions are included at the end of this form. Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case IDWR will produce new water right number(s) for the split(s).

Water Right No(s)	Adjudication Claim No(s)	Split(s)	Water Right No(s)	Adjudication Claim No(s)	Split(s)
37-4323					
37-4325					

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are on file with the county Planning and Zoning or Recorder's Office).
- OR**
- D. If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency or equivalent **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3.	Name and Address of Former Owner/Claimant(s)	Anderson, Malcomson, Swenson
4.	New Owner/Claimant(s)	Clare M. Olson & Karen Y. Olson
		Name Connector (Check one): ☐ and, ☐ or, ☐ and/or

5. Date you acquired the property _____

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in line 1, then skip this line and go to line 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (you may copy this page, if necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

DESCRIPTION OF YOUR PORTION OF WATER RIGHT (If the right will not be split, skip this area and proceed to line 7)

STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Mountain Home ID 83647

Clare Olson
P.O. 136
Hill City ID 83337

Dear Mr. Olson:

I am Clayton Colthorp of Mountain Home ID and I worked for the Mountain Home Irrigation District for 26 years. At first I was ditch rider and then manager; during this time I was also Water Master for Basin 61 A, which included creek rights on Canyon Creek. I retired in 2006. I believe this qualifies me to measure water over a diversion/weir to determine the water flow.

I was contacted by the Olson's and was asked to measure some water on Camas Creek in Section 5 T02S R11 E B.M.. I went up to Hill City, Idaho on May 16, 2009 and measured the amount of water flowing over a concrete diversion/ weir, it measured 10.5 Cfs. I also measured the flow from Johnny's spring on this property but was unable to get an accurate measurement.

Sincerely,

Clayton Colthorp

Clare just wants to go get some measurements and wants to know if he can take someone up there, or if the Department would rather have someone there to confirm the measurements.

Part of the objection is to the diversion rate.

I have been prepping for the Apr 22-24 hearings in Hailey so I haven't had time to get back into this until now.

Part of the problem is that I did not bring the files with me when I moved to Boise so I am not up to speed on some of the details. If memory serves, we had talked about adding acres in Sec 5 S1/2 NW1/4 and an associated diversion rate. Also the priority date of one day after the Frost decree (12-14-1909) was also discussed.

Let me know what your recollection is and I will try to fit this group into the flurry of activity that the April hearings will undoubtedly generate. I'll try to get the files where ever they may be.

Kelly,

We had a status conference today on this one. Neither I nor Paul Arrington checked in with you before it happened so neither one of us had much information to update the court with.

In any event, I reiterated to Paul his client's problem of getting inside the Frost decree. Paul seemed fine with that idea and thinks his client will accept that. Could you please take a look again at what Paul gave us in this matter and let me know what priority date you would be willing to accept.

On the POU objection, could you take a look at what the difference of opinion is. I see that the total acres (140) is what was claimed and recommended, so it looks like it must be how the acres are broken down.

Paul also said that he needs to get some diversion measurements done this spring to support the objection.

Our next status is June 3, 2009, so that ought to be enough time to work things through.

Chris

12-14-1909

From: Christensen, Kelly
Sent: Wednesday, August 06, 2008 8:46 AM
To: Bromley, Chris
Subject: RE: Water Rights 36-4323 & 36-4325

While the ownership tracks the combined total of the irrigated pou recommended between the two rights it does not establish that the entire currently irrigated pou was irrigated in 1901. In that area we have a mixture of decreed rights, licensed rights and statutory claims. See the excel spreadsheet for priority date comparisons. The only recommended decreed right in the immediate area is 37-514 and that one is a bit of creative recommendation. It recognizes an unrecorded change in POU and then combines other beneficial use rights within that claim. (not other claims on a ppu but as a combined right).

I would be inclined to say that we shouldn't recognize the full right until after the decree date of the Frost decree.

To: Bromley, Chris; Christensen, Kelly
Cc: Shelley Davis; Paul Arrington
Subject: Water Rights 36-4323 & 36-4325

Kelly & Chris:

I have attached a flow chart depicting the ownership for water rights 36-4323 and 36-4325 to as far back as the late 1800's. The land was historically divided into two chunks that came together under common ownership in 1949 and 1950. I think that this shows the priority date for these water rights should be June 13, 1901. Certain lands in section 5 were acquired via homestead in 1906. Based on the homestead act, L Nelson had to prove that he had cultivated the property for at least 5-years prior to the date that the homestead certificate was awarded (thus, the June 13, 1901 priority date) (these are the lands in yellow on the flow chart). As to the (red) lands on the flow chart, the priority date could be as early as 1889, based on the 1894 homestead application for J. Johnson.

Tomorrow is the status conference for these water rights. As I indicated to Chris on the phone, I will likely be seeking to amend the objection to correct some problems with the place of use. Thanks,

Paul L. Arrington

Sent: Thursday, May 08, 2008 9:16 AM
To: Clelland, Steve; Christensen, Kelly
Cc: Shaff, Don
Subject: 37-4323, -4325 (Olson Late Objection)

Steve and Kelly,

Yesterday, SM Bilyeu granted the motion for late objection in these subcases. The basis for granting the motion is there are new owners and they wish to pursue an earlier priority date than was recommended for these beneficial use rights. The claimed priority is 1881. We recommended 1945.

The claimant is represented by Paul Arrington/Shelly Davis. I did tell Paul on the record that I thought his client might very well run into a wall as far as priority goes because the recommended source is Camas Creek and the Frost decree will likely serve as a hard boundary for any beneficial use claim.

We have a status conference in July. In the meantime, Paul/Shelly will be collecting documents to submit to the Department regarding priority.

Chris

RE: Right 37-4323

The objection to this preliminary recommendation is to the priority date and the source of the water.

With respect to the priority date, the priority date on the original application which was filed in 1993, was done with the knowledge of persons who are now deceased. The priority date granted on the original application should be granted a strong presumption unless disproved by other evidence. This date is June 1, 1881.

A request for the right to attempt to secure other evidence is now being made with respect to the priority date.

On source of the water, it is correct that it is diverted on the mainstream of Camas Creek, but if you note the point of diversion is just east of the confluence of Camas Creek and the flow from Johnson Springs. With the up and down flow of Camas Creek, the majority of the water diverted is from Johnson Springs. It would be appropriate to indicate the source of the water as "Johnson Springs/Camas Creek" to denote the primary source of the water.

Photo of ditch from POD in SWNW Sec. 5 on Camas Creek

Photo of ditch from POD in SWNW Sec. 5 on Camas Creek

Photo of control structure for Camas Creek near POD in NWSWNE Sec. 5 on Camas Creek

Photo of ditch from POD in NWSWNE Sec. 5 on Camas Creek

Photo of diesel portable pump POD location in NESWNE Sec. 5 on Camas Creek

Notes

- Found 323 acre of Irrigation.
- Claimed source for 37-4323 is a Spring tributary to Camas Creek. The claimed POU is on the north side of Camas Creek (they use sprinklers with Camas Creek water on the south side of Camas Creek). So how do they get the water from the spring to the POU? During the field exam, Lee could not find a place to measure the discharge from the spring, suggesting a natural channel. The photos suggest the same thing. Therefore it appears the claimant lets the water run from the spring into Camas Creek, then downstream a short distance they divert water from Camas Creek and call it the spring water. Therefore the source is Camas Creek.
- The control structures are measuring the discharge of Camas Creek, not the diversion rate for these claims.
- Since the source of both claims is Camas Creek, the maximum duty of water is 0.02 cfs/acre. The diversion rate 323 acres is 6.46 cfs
- Diversion rate:
 - Much of the claimed POU appears irrigated on the 1987 aerial photo.
 - Delivery system appears capable of diverting 6.46 cfs
 - Ditch measured from POD in SWNW Sec. 5 was 6.0 ft wide and 1.5 ft deep. At an average velocity of 0.2 ft/sec, this ditch could carry 1.8 cfs.

- Ditch measured from POD in NWSWNE Sec. 5 was 5.0 ft wide and 2.5 ft deep. At an average velocity of 0.25 ft/sec, this ditch could carry 3.1 cfs.
- Claimant said that the diesel portable pump used in NESWNE Sec. 5 diverted 2.0 cfs.

➤ Recommendations:

- 37-4323
 - 2.80 cfs for Irrigation of 140 acres
 - Priority Date: 4/15/1945
- 37-4325
 - 3.62 cfs for Irrigation of 181 acres
 - Priority Date: 4/15/1945

10/9/06

I called Ann yesterday to make an apt. with her to review these files and while talking to her she informed me that Clair Olson was the renter of their property and she would call him and request his help and he agreed to help, so this morning I went up and met Ann and her sister Mary at hill city then we went to their property and met Clair. We went over these three files and he marked the POD and where the ditch's and pipes are, then we all four went out to the locations. POD # 1 Photo 1030305 looking East is the springs that flow into Camas creek, while there Clair and I both looked for some place to measure this stream but found none and he mentioned that if the weir at #2 and the weir at #3 were figured [both are good rectangular weirs] the difference would be the flow from # 1. [see #2 photo 302 and #3 photo 303] # 2 is (9' wide 2 1/4" flow] # 3 is [5' wide 5 1/4 " flow]

2 POD we did get across camas creek but the ditch was dry about 6' across and about 18" deep see photo 307 looking NW and photo 306 is the creek. Photo 302 is the check structure.

POD # 3 is the ditch north photo 308 there was no water flowing down the ditch which was approx. 5' across and 2 1/2' deep.

All the lands from 2&3 are all sub irrigated north, land south from #4 is sprinkled by 2 wheel lines and hand lines.

POD #4 is a portable diesel pump, Clair said it puts out 2 CFS. Photo 303 is the check structure for POD 3 & 4.

Description	GPS Name & No.	Position No.	USR No.	Plate No.	Photo No.

Lee R. Peterson

37-4325

Camas Creek

To do for field exam:

- 1) Outline Irrigation POU
- 2) Outline water distribution system.
- 3) GPS POD on Camas Creek
- 4) Measure diversion rate from Camas Creek
- 5) Measure dimensions of ditches

37-4326

To do for field exam:

- 1) Outline Irrigation POU
- 2) Outline water distribution system (pipes?).
- 3) GPS POD on Wildhorse Creek
- 4) Measure diversion rate from Wildhorse Creek

Open Channel Discharge Measurement Notes

A. GENERAL INFORMATION

1. Name of stream or ditch: COMAS Cr. - Springs
2. Location: 4323 & 25 COMAS Cr - 4326 wildhorse
3. Person conducting measurement: CLAIR OLSON (Renter) & LEE PETERSON
4. Date and time of measurement: 10/9/06 9:30A to 3PM
5. Accompanied by: ANN ANDERSON & her sister Mary
6. Measuring device size and ID no. _____
7. Spin test before measurement OK? _____ after measurement OK? _____
8. Purpose of measurement: Try to determine flow

B. MEASUREMENT DATA

Angle co-efficient	Dist. from Initial point	Width	Depth	Observation depth	Revolutions	Time in seconds	VELOCITY		Adjusted for hor. angle or _____	Area	Discharge
							At point	Mean in vertical			
1- Spring is figure flow over Rod 2 CK - rectangular weir 9' wide 2 1/4" flow then figure Rod 3 CK (rect. weir 5' wide 5 1/4" flow) the diff. would be flow from #1 spring											
#3 ditch dry see photo 308 											
#4 portable diesel pump 2 CFS to sprinklers - 2 wheel lines & hand lines											
#5 tires to connect pipe & spring but is now not working the pipe is dry water is running thru willows back to wildhorse cr. we est. 2 to 3"

RE: Snake River Basin Adjudication claims 37-4323 and 37-4325

Dear Mr. Anders:

Enclosed please find two affidavits to be filed with the respective claims. All of the family knows the land was irrigated with this water for years prior to 1945, but it is all hearsay and just knowledge passed down through the family. As the deeds show there were water rights with the premises at an earlier date.

In any event Ann and the rest will attempt to provide you with further information if it is available.

Respectfully,

Severt Swenson, Jr.

STATE OF IDAHO

County of Gooding

Ann Louise Anderson, being first duly sworn upon oath, deposes and states, that she is making this affidavit for filing with the Idaho Department Of Water Resources concerning Water Right Claim No. 37-04325 in the Snake River Basin Water System Adjudication.

Your affiant states that her earliest recollection of the use of said water rights on the real property described in the claim was the summer of 1945. Your affiant can remember observing her parents farm the premises and use the water from Camas Creek for irrigation purposes.

Your affiant's parents used and applied the water for irrigation purposes and farming until the early 1950s, when the land was leased by them to various tenants. Your affiant and her sisters have owned the real property since 1988 to the present date. The water rights described in the water claim have been used continuously since the summer of 1945 to the present date to irrigate the real property described in claim number 37-04325.

Dated: June 7, 2006.

Ann Louise Anderson

S T A T E O F I D A H O

Water License No. 4876

WHEREAS, On the 5th day of July, A. D. 1909, JOHN JOHNSON, of County Line, County of Elmore, State of Idaho, duly made application (No. 7070) to me for a permit to use 1.6 cubic feet per second of the waters of JOHNSON SPRING, County of Elmore, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 5th day of July, A. D. 1909, Permit No. 4876 was issued to said applicant for the diversion of said water, and providing for the completion of the works of diversion therein described on or before the 5th day of July, A.D. 1911, and for the application to beneficial use of said water on or before the 5th day of July, A. D. 1911, and,

WHEREAS, On the 5th day of December, A. D. 1910, JOHN JOHNSON, the holder of said permit duly made proof of the completion of adequate works for the diversion of 1.6 cubic feet per second of said waters, as evidenced by my Certificate No. 4876, dated July 20, 1911, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use 1.6 cubic feet per second of said water, with date of priority of July 5, 1909, and,

WHEREAS, On the 5th day of December, A. D. 1910, JOHN JOHNSON, the holder of said permit duly made proof of the application to beneficial use of 2/5 of 1 cubic foot per second of said water:

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to JOHN JOHNSON, of County Line, County of Elmore, State of Idaho, the holder and owner of said Permit No. 4876, a perpetual right, dating from July 5, 1909, to the use of two-fifths (2/5) of one cubic foot per second of the waters of JOHNSON SPRING, in the County of Elmore and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted at a point in the southwest quarter of northwest quarter (SW4 NW4) Section 5, Township 2 South, Range 11 East of Boise Meridian, and conducted to and upon 20 acres as follows: (10 acres in SW4 of NW4 and 10 acres in SE4 of NW4, Section 4, Township 2 South, Range 11 East of Boise Meridian, for the purposes of irrigation and domestic use, subject, however, to the laws of the State of Idaho applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this 20th day of July, A. D. Nineteen hundred and eleven.

A. B. Robinson,
 State Engineer.

RE: Snake River Basin Adjudication claims 37-4323, 37-4324, 37-4325, & 37-4326

Dear Mrs. Anderson,

You have submitted claims 37-4323, 37-4324, 37-4325, & 37-4326 for the Snake River Basin Adjudication (SRBA). Each of these claims requires that you submit evidence that establishes when the water started being diverted for the beneficial use you claimed. I have enclosed an Evidence of Priority pamphlet for guidance. If personnel testimony is submitted as evidence, please make sure it includes details describing how the person gained this personnel knowledge and any information they know about the diversion rate and water usage.

As you requested, I have also enclosed a copy of each of your claims and a 1987 and 2004 aerial photo with the locations of your claims identified.

Feel free to contact me at (208) 287-4937 if you have any questions.

Sincerely,

Matt Anders

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. All other rights are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

4 Notice is hereby given that Fred Malcomson /or Agnes Malcomson
(Name of Claimant)
329 Utah St. Gooding, ID 83330 Telephone No. 934-5985
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1981
A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.
- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Spring (Johnny's Spring) tributary to Camas Creek
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, af)		(Domestic, Irrigation, Stock, Etc.)	(Both dates Inclusive)	
			(Mo., Day)	(Mo., Day)
Quantity	<u>3.0</u>	Use <u>Irrigation</u>	Period of Use From <u>June 1</u>	To <u>Sept 1</u>
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
(4)	<u>3.0</u>	TOTAL QUANTITY USED.		

- (5) A) Point of diversion: (Location of point where water is diverted from its source)
SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 5 Twp. 2S Rge. 11E B.M., County of Elmore
 Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Check Dam & Ditches

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 140

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible: _____

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization: _____

(8) Remarks _____

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)
County of Gooding) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

RE: Snake River Basin Adjudication claims 37-4323 and 37-4325

Dear Mr. Anders:

I have enclosed a duplicate copy of several deeds and patents pertaining to the land on which this water is used and diverted. Please place a copy with each claim. The reason for the joint exhibit is because Johnson Spring is adjacent to Camas Creek and one of the points of diversion is at the confluence of the creek and the watercourse from Johnson Spring. The other point of diversion is upstream on Camas Creek. The water from both sources is used on the same land. I would request you put a copy with each application.

These documents show some of the chain of title on the transfer and purchase of the land to the present. As you note we are back to the 1920's on the land. I could not find any specific document which establishes the particular date of the initial diversion of the irrigation water. I would assume the dates of priority would be based upon the date the land was settled and proved up or the date of the patent. Also it could have been determined by the first adjudication of many years past.

To my knowledge there has been no objection to the use of the water in these claims during the years I have been in the family, which has been approximately 20 years. During the dry years the amounts used would be 100% of the flow from Johnson Springs and Camas Creek at those two points of diversion. During this use I do not believe there was any objection made. My wife who now owns the land with her sisters cannot recall any time the water was not used by her father and grandfather.

I checked with the Big Wood River Water Master's office and they have records back to the 1920's, but nothing earlier. Too many people have died to give historical information.

Ann Anderson will attempt to garner further historical information in the future and it will be provided, if any.

Respectfully,

 South of Range Eleven (11) East of the Boise Meridian.
 The East Half of the North West Quarter (E $\frac{1}{2}$ NW $\frac{1}{4}$) and the West Half of the
 North East Quarter (W $\frac{1}{2}$ NE $\frac{1}{4}$) of Section Thirty-two (32) Township One (1)
 South of Range Eleven (11) East of the Boise Meridian.
 The South West Quarter of the South West Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section

Twenty-seven (27); the South East Quarter of the South East Quarter
 (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section Twenty-eight (28) and the North Half of the North
 East Quarter (N $\frac{1}{2}$ NE $\frac{1}{4}$) of Section Thirty-three (33) all in Township Two
 (2) North of Range Nine (9) East of the Boise Meridian.

The grantor herein also hereby transfer and convey all of their
 right, title and interest in and to all of the general farm machinery
 and equipment in the Nels Malcomson Estate, now all located on the Mal-
 comson Farm, except the 1940 chevrolet pickup, D-4 Catipillar Tractor
 and 1947 Massey-Harris combine. Grantors herein also convey their full
 right to the Malcomson brand and all the Malcomson cattle more fully
 shown in the Nels Malcomson Estate and Decree now of record, together
 with the alfalfa and wheat also shown of record in said estate and
 decree.

TOGETHER With all and singular the tenements, hereditaments and appurtenances thereunto
 belonging or in anywise appertaining, the reversion and reversions, remainder and remainders, rents,
 issues and profits thereof, and all estate, right, title and interest in and to the said property, as well in
 law as in equity, of the said parties of the first part:

TO HAVE AND TO HOLD, All and singular the above mentioned and described premises, together
 with the appurtenances, unto the party of the second part, and to his heirs and assigns
 forever. And the said parties of the first part, and their heirs, the said premises in the quiet and
 peaceable possession of the said party of the second part, his heirs and assigns, against the
 said parties of the first part, and their heirs and against all and every person and persons
 whomsoever, lawfully claiming or to claim the same, shall and will WARRANT and by these presents
 forever DEFEND.

SCANNED

MAY 25 2006

Blackfoot 038570.

The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, a Certificate of the Register of the Land Office at Blackfoot, Idaho, has been deposited in the General Land Office, whereby it appears that, pursuant to the Act of Congress of May 20, 1862, "To Secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of Nils F. Malcomson

has been established and duly consummated, in conformity to law, for the southwest quarter of the southwest quarter of Section twenty-eight, the southeast quarter of the southeast quarter, the west half of the southeast quarter, the east half of the southwest quarter and the east half of the northwest quarter of Section twenty-nine, the east half of the northeast quarter of Section thirty-two and the west half of the northwest quarter of Section thirty-three in Township one south of Range eleven east of the Boise Meridian, Idaho, containing four hundred eighty acres,

according to the Official Plat of the Survey of the said Land, returned to the GENERAL LAND OFFICE by the Surveyor-General:

NOW KNOW YE, That there is, therefore, granted by the UNITED STATES unto the said claimant the tract of Land above described; TO HAVE AND TO HOLD the said tract of Land, with the appurtenances thereof, unto the said claimant and to the heirs and assigns of the said claimant forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with the above described land.

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
