Feb 4th, 2022

Dear Mrs. Werner:

Enclosed is the 'Notice of Claim To a Water Right Acquired Under State Law' you sent me. This right deals with the license 96-8719. We sincerely appreciate your having the relevant information already typed in.

As per the informational sheet also sent with the papers and in the penultimate paragraph of said papers there is a statement indicating that if the water rights were acquired by inheritance "...that water right may be determined to no longer exist" if a notice of claim has not been filed. In as much as none of us are able to foresee the future to any degree of certainty, We are hereby including our children in the ownership of said water right. You will note their signatures under ours.

This addition constitutes the only change made from your entries. This in no way effects a change in our approved permit, #96-9879, received September 2nd, 2021. We are aware that proof of useage is required for that permit, and will be sent well within the date due. The reason we can not send that in now is due to the four feet of snow on the ground.

We are not signing up for the written monthly docket sheet prepared by the court; however, we trust that we will be notified if there appears any problem with the determination of usage.

Thank You for your attention to these matters.

Sincerely,

Mark Riener
