Please refer to the information submitted to IDWR on November 15, 2006. This right was originally licensed for 0.14 cfs, appurtenant to our original property which contained 11.39 gross acres. Although a 3.73 acre parcel was split off and sold, none of the water right was intended to be conveyed with this land. We retained the well and diversion system, and all of the water right including the diversion rate remained appurtenant to and has been utilized on the 7.66-acre parcel which we retained. Further, the water right has been used on this parcel continuously, and no water has been used on the 3.73 acre parcel.

Therefore, a reduction of the diversion rate is not warranted, and the recommendation should reflect the full licensed rate of 0.14 cfs. pursuant to License of Water Right #37-7037.

Memorandum

Date: November 13, 2006

To: AJ Claim 37-7037

From: Jeff Peppersack

Mr. Plott, claimant (phone 788-7892), returned my call today to discuss the place of use claimed.

Mr. Plott indicated that he understood that he owned about 15 acres at the time of licensing. The license was issued in 1972 for 15 acres of irrigation at 0.14 cfs and 45 afa (3.0 afa per acre). Mr. Plott said he sold off about 3 or 4 acres on the south side in the early 70's and claimed 10.2 acres on his SRBA claim because he still understood that he owned over 10 acres at that time. His intent was only to claim the portion he now owns. He said he specifically excluded water rights when he sold the south parcel(s). He said his existing lot is actually about 8 acres, so he doesn't know what happened to the balance. He indicated that the licensed irrigation use covered his entire property and is still being irrigated. Mr. Plott indicated that, to his knowledge, the Wynn place has not been irrigated since he sold it.

I confirmed through the Blaine County tax lot information that the parcel in the name of Plott is 7.7 acres and the land just south in the name of Wynn totals 3.7 acres (two parcels). Wynn's did not file an SRBA claim for any portion of the right. However, review of imagery from 1987 indicates a portion of the 3.7-acre parcel may have been irrigated. Later imagery from 2004 and 2006 also indicates possible irrigation.

Steve Clelland confirmed the irrigation use as claimed in a 1990 field exam; however, he did not have the benefit of the parcel maps and could not measure the place of use. I created a shape of the existing Plott parcel, excluding house, etc. and recommend a place of use of 7.5 acres.

Follow up – November 20, 2006

Mr. Plott submitted several documents with a letter on November 16, 2006 to support his claim. One of the documents is a warranty deed from 1974 confirming the sale of a parcel to the south of his existing property. The deed does not exclude water rights, so water rights were likely conveyed with the land. Mr. Plott would need to provide additional documentation to indicate that he retained or re-acquired the portion. If the water right were split, it would be $3.73/15 \times 0.14$ cfs or 0.03 cfs for the portion sold. The remainder would be 0.11 cfs for Plott. Since there are no other claims to the water right, I recommend 0.11 cfs for Plott under the original water right number (no number split).

For Plott's portion, I do not recommend partial forfeiture, but rather a consolidation of the rate from the "extra" acres to the current 7.5 acres. Plott's diversion rate has not likely changed since licensed as indicated in his letter and the result does not exceed 0.02 cfs per acre. I recommend a diversion volume of 22.5 afa (7.5 acres x licensed volume of 3 afa per acre).

WATER RESOURCES

November 11, 2006

Mr. Jeff Peppersack

Jeff,

Regarding our telephone conversation, I am enclosing information for your perusal in reference to our water rights permit # 37-7037, on our property in Blaine County.

When we purchased the property in 1966, we were told there was 15.33 acres. However, things were pretty loose at that time and it was not surveyed. A later survey showed this was inaccurate.

During 1968 we began to sprinkle the entire property under permit #37-7037.

February 1975 JUB Engineers surveyed 3.73 acres on the south end of our property. Which we sold. We purposely had the survey aligned and the boundary altered to NOT include the irrigation well. (Please note location of well on map.) We continued to use this well from 1968 up to the current time to irrigate the balance of the property, shown as tax lots 6256 and 6257 on the enclosed Record of Survey.

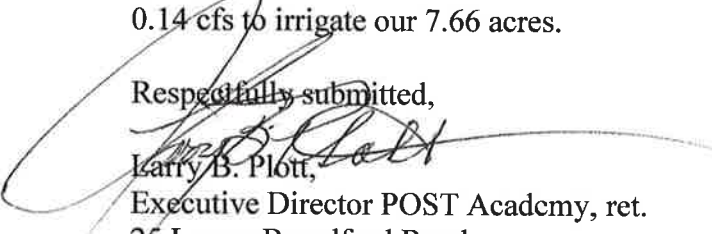

Enclosed are :

- Survey from Sawtooth Engineering
- License of water rights #37-7037
- Application for permit with their recommendations for beneficial irrigation including measuring device January 9, 1969
- ORDER for removal of measuring device for #37-7037 June 23, 1970
- JUB Engineers survey of 3.73 acres + Warranty Deed of sale
- See letter of October 22, 1968 from the Agricultural Extension Service to Department of Reclamation in reference to our location, soil content, and rate of water flow

It is noteworthy that the owners of the property we sold, have never irrigated any part of the 3.73 acres sold to them. It has changed hands 3 times. There was never any intent by us to convey any amount of water to the 3.73 acres sold. We retained the well with the same water flow to irrigate our land.

Because we have been watering our 7.66 acres with the same water flow that we had in 1968, it is our recommendation that our water rights be kept at the current rate of 0.14 cfs to irrigate our 7.66 acres.

Respectfully submitted,

Larry B. Platt,

Dear Sirs:

The lands for which Larry Plot, Bellevue, Idaho is making application for beneficial use of water are of fairly high requirements. They are principally in the Little Wood series soils and are fairly low water holding capacity. Water penetration is very rapid.

Because of the for going situation and that the water table is quite close, it would be beneficial to the irrigation system to file at the rate of 2" per acre. Any lose through the soil will return to the underground system on the site.

Sincerely,

James I. Eakin

RE: SRBA Claim

Dear Claimant:

Please find enclosed your claim and your check # 554 for \$ 90.00 which you submitted to our office. I am returning these pursuant to Rule 10,4 of the Department's Adjudications Rules and Regulations. In checking your claim it appears that the following items need clarification:

Domestic Claim

- ☒ Item #2 Priority
- ☐ Item #4 Point of Diversion Legal Description
- ☒ Item #6 Uses descriptions — Need cfs (normally for Domestic it is 0.04 cfs)
- ☐ Item #9 Description of Non-irrigation Uses
- ☐ Item #10 Place of Use Legal Description
- ☐ Item #16 Signature & Notorization
- ☐ Improper fee (THE CORRECT FEE IS \$ _____)
- ☐ Other or Remarks

- X Item #8, #7
- X Item #7, #15 (usually "Beneficial Use")

If you wish to continue to press your claim please find enclosed instructions and another claim form to use. If you will make the necessary corrections and return your claim with the correct fee and a copy of this letter within 30 DAYS of the date of this letter, your filing will be considered timely and will not be assessed an additional late fee of \$ 50.00.

BEFORE RETURNING THE CLAIM PLEASE READ THE ENCLOSED DRAFT TEXT FOR D&S BROCHURE. Due to recent rulings by the court you may defer filing the claim if you so desire but it is recommended by the Department that you continue to press your claim. If you have any questions contact our office.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor
