Notes

T2N R18E Section 15

- 10/24/05 talked with Rick Baird, airport manager, on the telephone. This has been used since it was licensed in 1976 until the hanger was removed about 6 months ago. They are planning to use the right in the future.
- 10/25/05 talked with Rick Baird, airport manager, on the telephone. He stated that they do not want to claim an industrial use for this water right, they only want to claim domestic.
- Recommended Domestic as licensed for 0.02 cfs and 1.1 AF. The license documents indicate that the domestic use was for the restrooms and sinks in the hanger. The same sue as being claimed now.
- Data used for review: 1987, 1992, & 2004 aerial photos, Blaine Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

I met with Rick this afternoon and looked over both water files and he advised me that the POD is not in the runway it is just on the south side of an old hanger building which has been torn down for some time but they do not want to give up the well or the right due to future growth and the need of water for a future building and these rights for domestic purposes should be changed to Commercial and Industrial, the place of use for this 7109

right was the white hanger marked on 2004 photo. They want to retain the .08 CFS as on License.

W R 12137 =is a well just south of the tower building on East side of runway, for the use in the tower. The yellow area on photo is approx. the location of the tower. This water should also be changed to commercial and industrial.
