37-7322 Claim Review

S. Keen

12/26/2006

Place of Use and POD are vaguely described on the field report done for Permit 37-7322 in 1975. It is possible that the POU included both the lot currently owned by Wallace Young and the one owned by his son, W. Scott Young. Neither lot is 8 acres, as was licensed. It would take both lots to provide 8 acres to be irrigated.

However, this month W. Scott Young told FIDWR's SRBA examiner, Sandy Hemenway, that the entire use is on his lot. She confirmed 5.3 acres of irrigation, which matches the license, and D+S uses that were not licensed. 1987 aerial photography seems to confirm the presence of the D+S uses at that time. Therefore, ~~I am recommending a~~ could recommend a change in nature of use, if it were claimed. However, because only irrigation was claimed, that will be the only use recommended.

I will indicate that the rest of the right has been forfeited although, like I said, it may be appurtenant to the Wallace Young parcel or have been changed to D+S use.
