INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), of Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right. During an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed Claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believe there are Water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than ½ acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Re: Quigley Canyon Ranch, L.L.P.

Dear Allen:

Enclosed you will find a Proof of Beneficial Use for Permit No. 37-08283, Notice of Change of Water Right Ownership for the water rights and SRBA claims currently in the name of Quigley Ranch Partnership, and a copy of the filed Application for Registration of Limited Liability Partnership for Quigley Canyon Ranch, L.L.P. Quigley Ranch Partnership was an Idaho general partnership that simply registered as a limited liability partnership under the new name of Quigley Canyon Ranch, L.L.P. The ownership of the Partnership remains the same. However, the name and address change for the partnership required the filing of the Notice of Change of Water Right Ownership. I am also enclosing our firm's check for \$100 in payment of the Proof Beneficial Use fee for Permit No. 37-08283.

The Proof of Beneficial Use for Permit No. 37-08283 covers only a portion of the uses authorized by the Permit. The other uses are therefore waived.

Please call me if you have any questions. Thank you.

Sincerely yours,

HOGUE, SPECK & AANESTAD, P.A.

Dear Gary:

I inspected this permit which is in Quigley Creek and find that this water does not reach Big Wood River during the irrigation season, therefore, I feel that a measuring device or control gate would not be required at this time by Water Dist. #37. However, a measuring device and control gate may be required in the future.

Sincerely,

Ave depth = 1.08'

Using Eqn. $Q = CLH^{3/2}$ est. $Q = (3.32)(140')(1.08')^{3/2} = 520.6 \text{ cfs} > 269$

∴ It appears spillway is adequate.

Note: During flood flows it is expected that spillway would scour and erode to pass additional water or provide extra freeboard.

The amount of snow would not allow me to check the point of diversion and

other uses of the stream. I talked to Mrs. Wes Doudy, a resident at the

lower end of Qigley Creek. She informed me she did not use any of the water and knew of no other uses on Qigley Creek. Applicant was not available for comment.

RE: 37-08283

(A) 37-02741, -02784A, -07693, -19736 irrigation/stock claims

On September 30, I met with Fred Judd and John Burke, partners in the Quigley Canyon Ranch L.L.P., to conduct a field examination for the above permit. The water source associated with the permit is Quigley Creek. There are two ponds, on-stream, that are approximately 1.5 mile apart on a east-west line.

Both ponds have been inspected (1992, 1996-97) by dam safety personnel. The data in the file includes surface area and storage capacity from the inspections.

During a Beneficial Use Reconnaissance Program (BURP), the flow of Quigley Creek was measured by DEQ personnel.

June 1995: SWSWSW $\frac{1}{2}$ Sec 31, T03N, R19E recorded rate=5.10 cfs

July 1998: SESESE $\frac{1}{2}$ Sec 36, T03N, R18E recorded rate=5.07 cfs

While conducting the field examination, I wrestled with the portable flume to get the flow rate. Although the portable flume won the match, the closest reading I could obtain was comparable to the rates measured by DEQ.

When filing Proof of Beneficial Use, the applicant's lawyer paid \$100, which equates to 0.21-1.00 cfs and/or 21-100 afa. The total pond capacity is 35 acre feet. It appears the fee was directed at the acre feet? Therefore, I can recommend the limited rate of 1.00 cfs.

Stockwater-cows can be seen in photo background of the upper pond, Mr. Burke says their land abuts with BLM land and the stock drink water from creek as far east as the NENE $\frac{1}{2}$ of Section 1, T02N, R18E.

Fish Propagation and Fish Propagation Storage-Mr. Judd says they plant fish. Then they "rent" the upper pond out to one of the sport fishing businesses, who then charge anglers per pole.

Recreation-in connection with the above use

Aesthetic-in connection with the above use

Fire Protection-The fire protection storage (upper reservoir) was permitted for the proposed residential community, that was not developed, therefore it will not be recommended.

RE: YOUR RESEARCH REQUEST

As we discussed on the phone, I enclose copies of the proof sheets for the water usages in the name of Quigley Ranch Partnership and the CVRs done during the reviews in the Test Area (2N, 18E) that I described to you.

I found the most recent Extension of Time form that you mentioned and note that it takes the permit up to February 1, 1997. I enclose a copy for your client file as you said that Stoney was to have taken care of it and he did. It was misfiled in the drawer here. I have attached a profile report of the permit for your review also.

My notes are enclosed for your use in reviewing the combining and renumbering of the claims.
