RE: Snake River Basin Adjudication (SRBA) Claim 63-35200

Dear Evelyn Roesler:

Enclosed are 6 packets that contain copies of the documents that need to be mailed to the entities on the Certificate of Mailing.

As we discussed, the original claim that was submitted was missing the PERIOD OF USE and a QUANTITY element making the claim incomplete.

It is recommended that you resend the motion and completed claim to each party. I also recommend including a letter that explains why you are resending the mailing. A prepared letter is included in the packet, but please feel free to send whatever you feel is appropriate.

Each packet should have all the documents you need:

- Copy of the original *Motion for Determination of Deferred De Minimis Domestic and Stock Water Use* with NEW Certificate of Mailing page that will need to be completed for each packet (or you could just complete 1 and make copies, but I wasn't sure if you had a copy machine available to you).
- Cover letter (You could just sign one letter and make copies, but again, I didn't know if you had a copy machine available to you so I made 6 copies so you could just sign each one).
- Copy of completed claim 63-35200
- Mailing Label
- Envelope

They just need to be signed and mailed. **Note**, however that two of the packets need to be sent certified. I have indicated which packet should be sent certified with a yellow sticky note.

We also discussed the requirement to publish notice in the paper. On the phone, I told you I would send you copies of the order that describes the requirements for publishing notice. I have enclosed a copy of that order and highlighted the area of interest. If you have not published notice yet, then I would make sure to run it for 3 weeks. If you have already published notice and it only ran for two weeks, I recommend contacting the Snake River Basin Adjudication

Court at (208) 736-3011, and asking for instructions as how to meet the requirements of the order.

If you have any questions or need further clarification, please don't hesitate to contact me.

Respectfully,

Craig L. Saxton
