MEMORANDUM

TO: Files 37-00604 & 37-07775E

FROM: Pam Skaggs^{ES}/State Office

SUBJECT: Transfer 5306 *nl*

DATE: April 7, 1999

Transfer 5306 changes the point of diversion under Right 37-07775E, and changes both the point of diversion and source under a portion of Right 37-00604, splitting the right into Parts A and B.

The applicant's land is covered by both the early priority decreed right from the Big Wood River and a licensed groundwater right, however due to subdividing and development, access has been minimal in recent years. The applicant proposes to drill a new well on his property to provide a more practical and efficient delivery means for these rights. Both rights will be delivered through the well and the surface water will continue to be delivered to the Glendale Canal for mitigation purposes.

Season of use and diversion volume was adjusted to current standards. Recommended conditions include drilling permit requirements, watermaster control, measuring devices & lockable controlling works, surface to groundwater conditions, irrigation overlap, and standard transfer conditions.

Re: Ownership Change for Adjudication Claim #A37-07775

Dear Claimant(s):

In 1988, Rod Kegley filed a claim in the SRBA appurtenant to lands of which you now own a portion. The Department issued a License on these lands on September 8, 1994 and at that time the right was split into parts B through G. To correspond with the license we have split Mr. Kegley's SRBA claim into parts B through G. I have enclosed a copy of your claim A37-07775E. Please review the record and if you have any corrections or questions, feel free to call this office.

Please be aware that should you decide to drill a new well to isolate your portion of the right, you will need to file a transfer with the department.

Sincerely,

Jeanie Robertson
Water Right Agent
