RE: Receipting Problems

In October, 1988, the firm Hogue, Speck and Annestad submitted a check for \$78.00. A Receipt #C004195 was incorrectly written for \$25.00. In response to our February 6, 1989, letter the firm submitted a check later that month for \$53.00 recorded by Receipt #C005660. Identifying the problem on February 7, 1989, with regard to the initial check, on April 11, 1989, a Receipt #T006287 was written for \$53.00 to correct the earlier discrepancy. The law firm at that point had paid \$131.00 for a claim with total fees of \$78.00. As a result a refund of \$53.00 is due the law firm.

E. NARRATIVE/REMARKS/COMMENTS

FROM: Georgia Satterlee
DATE: 29 May 1997
RE: 37-08226

At 1100 hrs. on 23 May 1997, I met with Colleen Runyen, President of the Homeowner's Association in the Greenhorn Subdivision.

The Greenhorn Subdivision consists of 35 lots. As of this date, 18 lots are developed. The Greenhorn Subdivision (the well logs are under the name of Smokey Mountain Association) has a licensed right, 37-07935 with an adjudication claim. Plus a permit, 37-08464. The licensed right is for domestic use and the permit is for irrigation of approximately 105 acres in the subdivision.

There are two wells located in a pump house 1,000 feet westerly of Highway 93 and Greenhorn Road intersection (NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, T03N, R18E) that provide water for the Greenhorn Subdivision. The water is pumped over a mile and stored in two tanks that total 55,000 gallons. The diversion points are for domestic use and irrigation. Per phone call on 27 May 1997 with Ken Smith of Wood River Drilling, he says each 25 horse power pump is delivering about 150 gallons per minute.

The association board members want clarification of their claims, in addition to the permit, 37-08226, which is located in Lot 4 of the Greenhorn Subdivision.

At 1300 hrs. on the same day, I met with Kristine Pigeon to perform a field examination regarding the permit, 37-08226.

The well associated with 37-08226 is located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, T03N, R17E. When proof of beneficial use was filed, the applicant stated the rate to be 0.02 cfs. The discharge from the well was comparable to rate on the proof. During a phone conversation on 27 May 1997, Ken Smith @ Wood River Drilling agreed with the low output of this well. A theoretical was computed and a rate of 0.04 cfs derived from the calculation. The less rate will be recommended.

Although Ms. Pigeon is irrigating approximately 6 acres, I am recommending one acre because of the capacity of the well.

Ms. Pigeon has beneficially used the other five acres for over 10 years. The permit for irrigation, 37-08464 is covering the extra acres.

Analysis/Recommendation:

Domestic is disallowed because domestic is already claimed in 37-07935.

Stock - 8 horses

Irrigation - one (1) acre in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, T03N, R17E

PLEASE SEE BACK OF BENEFICIAL USE FIELD REPORT FOR RATES AND VOLUMES.
