INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), of Idaho Code. Section 42-248 requires certain property holders to notify the Department of water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right. During an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed Claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believe there are Water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than ½ acre is irrigated, type and number of stock if your right is for stockwater, etc, In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstration the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Grigsby Claim on License 37-08012

Dear Jim:

During the recent ownership change completed by this office this record was flagged as containing discrepancies. My review found that the claim was made with a separate stockwater use not contained in the original appropriation, and the specifics of the issued license were not updated into the claim.

In general terms the sequence of events proceeded as follows:

- 1) Application for permit filed, 1982
- 2) Permit issued, 1982
- 3) Exam made, '84
- 4) Claim filed – as permitted, 1/89
- 5) License issued, 10/89.

I have amended the claim to reflect the issued license (copy enclosed). Stockwater was removed from the place of use, because it wasn't on the license and there isn't a separate claimed stockwater purpose of use. As a matter of water right administration stockwater can be construed as a part of domestic use, as defined in I.C. § 42-111, and therefore not required to be separately described.

Please review the enclosed documents and if you have any questions contact me.

Sincerely,
