Hi Kelly,

Maybe you can help me out on this one. The right holder of record appears to be River Grove Farms. The taxlot owner is RG Farm LLC. The claimant is listed as Peter M Thomas Trust with no mention of River Grove Farms. I sent a change of ownership letter to RG Farm. What do you think?

Based upon my limited knowledge I understand that we should now file an NCAP for this right??? I have data entered the amended water right info into the claim as of today. The license was issued with the wrong legal description for both POD and POU. When notified allocations corrected this error by updating the license.

Do we need to NCAP (or something) the license amendment? It's been finalized? I can't just file an ADR without having a court order - notice issues and they will call me on it.

My thought is that the amended license amends the adjudication claim, therefore this right should be reported as an ADR not an SF-5.

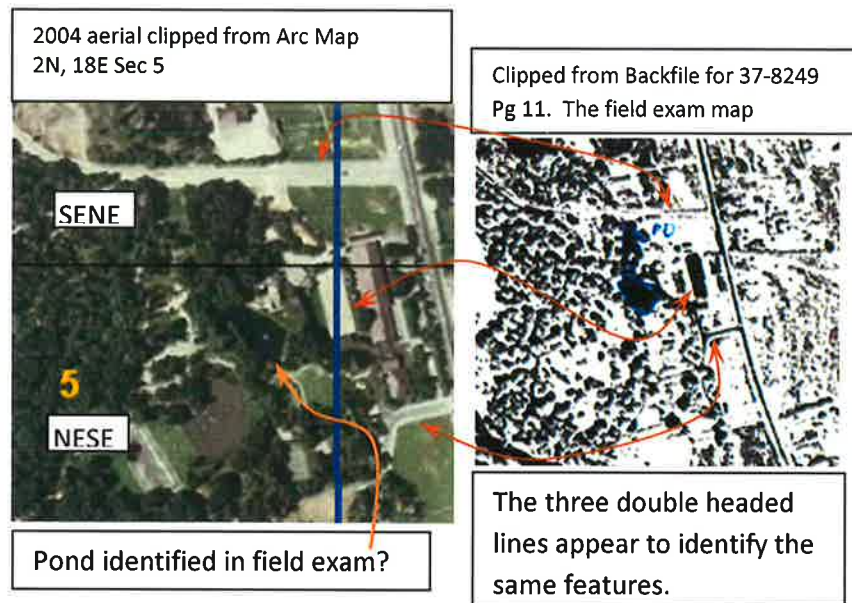

But being a good guy I have provided you with option A and B. << File: 37-8249 Peter Thomas SF-5 strikeout.docx >> << File: 37-8249 Peter Thomas as ADR.docx >>

37-8249 POD AND POU LEGAL DESCRIPTION ISSUES

In reviewing the available information it appears that this right was licensed with the wrong legal descriptions. The license was issued March 24, 1990. When comparing the licensing field exam map against the 2004 aerial photo it appears that both the POD and POU should be in Sec 5, 2N, 18E.

As the license was issued post adjudication commencement it appears that this should be corrected through the allocations section. This pond appears to be the pond claimed through 37-4420 and is described in that claim as being in Sec 5 NESE.

Existing spring-fed pond withoutlets to Big Wood River. Ponds have been bentonited to prevent seepage loss from pond bottoms. Well at upper end of pond system was installed to provide extra water if needed to maintain ponds. Well open discharges thru 10" buried pipe at pond level. Well has not been needed so far to maintain ponds. Well would be needed mainly in summer when surface water is reduced. There are some fish in the pond. The main use of the pond is for aesthetics.

Main pond is about 75' x 150' x 12' deep = 3.1 AF volume according to contractor Gary Mastay

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Due to pond space between well & measuring device, no accurate measurement could be made.

The main water supply occurs at 32' below LSD according to well driller Gene Walker. Based on pump chart, a TDH of 32' would produce a flow of 430 gpm. Recommend license be issued for this amount (0.96 cfs).

Impossible to determine correct legal description-section corners are in different locations on different aerial photos. Apparently no independent survey of this property exists. Therefore, I recommend that the P/D & P/U be licensed as shown on permit.

RE: Peter Trust LP Water Right Transfer
for Irrigation Right 37-22255

Dear Mr. Cooper:

Pursuant to our conversation this morning, I am authorizing E. Parry Thomas (my father) and/or Peter Sturdivant (my brother-in-law) to act of behalf of and as agent for the Peter Trust Limited Partnership in any and all matters concerning the requested water right transfer 37-22255 affecting our property in Hailey commonly referred to as the River Grove Farm.

As I explained this morning, the Peter Trust Limited Partnership is the successor in interest to the Peter Trust. The Peter Trust was an Age-21 Trust which transferred all property interests to its beneficiaries over 20 years ago. These beneficiaries maintained common ownership of the property interests under the Peter Trust Limited Partnership, a Nevada Limited Partnership, with the Thomas Management, LLC serving as the General Partner. I am the managing partner of both the Peter Trust Limited Partnership and Thomas Management, LLC. I believe the documents evidencing my status as manager of these entities have been provided by Brockway Engineering. Should you need any other information, please contact me directly at 702-920-2851.

RE: Peter Trust, Jerome D. Mack, Trustee
ABA River Grove Farm

Dear Chuck:

During the staff review of the above referenced claims, several problems were encountered which may require additional action on your part in order to claim all the water rights which you were attempting to claim for your client.

There are three claims which are acceptable as submitted. You will find copies of these attached. They are:

A37-12353 with a fee of	\$25.00
A37-12354 with a fee of	\$25.00
A37-04420 with a fee of	\$50.47

There are three additional claims which will be dealt with individually. First, Claim A37-08200 is based on a permit which has not yet had Proof of Beneficial Use submitted to the Department. According to the Rules and Regulations, if Proof of Beneficial Use was not filed by November 19, 1987, you are not required to file a claim, however, you may file this claim if you want. You are given this opportunity to withdraw the claim. Therefore, I am returning this claim with no action taken.

If you wish to submit a claim for #37-08200, please return it with a copy of this letter and we will apply funds from the outstanding balance. If this claim is re-submitted please be aware that the priority date on the permit is 11/07/1984. Also, a signature is needed on page 4.

Claim No. A37-00862 is based on a decreed right which does not include recreation use. If you wish to claim a water right for recreation use, you must file a separate claim. This claim has been partially accepted for the decreed amount of water for irrigation with a fee of \$210. A copy of the acceptable claim is attached.

Claim No. A37-08249 is based on a permit for Fish Propagation. The claim you submitted added irrigation and domestic uses. We have partially accepted the permitted amount of water for fish propagation and rejected the other uses and applied a fee of \$59.80. A copy is attached. You may claim the expanded uses under the "presumption" statute §42-1416, Idaho Code, on a separate claim, however, you should be aware that these additional uses are in violation of the mandatory permit requirements. The possibility does exist that the expansion claim you file may be protested or disallowed. You might file an application for permit which would begin the permit process for your client to acquire a valid water right which is not in violation of the mandatory permit requirements.

Please also find a receipt in the amount of \$1060.80 which was submitted with the claims. The balance of 690.53 is being held pending your action. You may request a refund of this balance at any time or you may apply it to fees for additional claims which you may submit.

Feel free to contact this office if you have any questions or need assistance.

Sincerely,

Donald V. Shaff
Adjudication Section Supervisor
