Mr. Gregory,

Two Things:

1. I did find a partially completed claim record in our database for the property at **242 Old Schneider Road** at Priest Lake? It is odd because it is in the database, but it is missing elements of the claim, and I can't find a copy of the original claim record with your signature. Sometimes if we get a claim that isn't complete, we have to send it back and maybe that is what happened. None-the-less, I have prepared a new claim for you to sign and I will mail it out to you. No fees will need to be submitted. I will explain more on that once we figure out what is going on with Item 2 below.
2. I actually found 2 licenses that appear to be for your property on 38 SHADY LN, Priest River. I have attached copies of both of the old licenses. Are these both for the same property at 38 SHADY LN (PIN RP028620020020A)? Are they for the same well? You already filed the claim for 97-7445, but I didn't know if your intent was to claim 97-7172 also or if that is for a different property.

Thanks,
Craig

Mr. Gregory,

I started looking into this and I need to consult with our regional office. In short, I can see that you paid for 3 claims in September of 2021. But I can only see one portions of the data.

Let me find out what is going on and I will get back to you.

We will get it straightened out.

Sorry about this. I will be in touch.

Thanks

Do you have another one for me at 242 Old Schneider Road at Priest Lake?

Mr. Gregory,

I was able to look for water rights based on the address you gave me, and it appears you already filed your claim back in September of 2021.

As you said, you had received a license for your water use in 2008. Your Adjudication claim, claims the elements of your original license.

In short, I think you are good. You have already filed your claim.

I have attached a copy of the original license and claim. Look them over and if it looks good, then no further action is needed on your part.

I hope this helps.

Thanks,

Craig

Mr. Gregory,

I am sorry for the frustration. If you would prefer to file online, you can give me a call and I can try to help you through it. My contact information will be below.

With that said, I have included links to several forms below, but what form you use can depend on the source of the water, what the water is used for, and when it was first used.

If you can answer a couple of quick questions, I can make sure to point you to the right form:

- Is your use from Ground water (well), or surface water? GROUND WATER, I HAVE 206 FT. DEEP WELL
- Is your just for your house hold Domestic use (internal, external, not to exceed ½ acre of irrigation or diversion of 13,000 gallons per day? Or is it for something else? HOUSEHOLD USE AND I HAVE A BIG GARDEN
- When did the use first start? YEAR 2000

Thanks,

What to file Flowchart:
