COMES NOW, JOHN MCGONIGAL, and provides the following comments and evidence in this matter:

1. I was born on the Spring of Gladness Ranch, Blaine County ID, on October 18th, 1933. The Spring of Gladness Ranch is located in Township 01S, Range 18E, Sec.11 and Sec.12.
2. The Spring of Gladness Ranch has always been an irrigated farm. I assisted my father in changing irrigation water in a pasture west of the house, out of a spring in the SE ¼, Sec.11, T.01S R.18E. To the best of my recollection, I began helping my father irrigate the afore mentioned pasture when I was 6 years old. My father diverted irrigation water out of the spring using canvass diversion dams for flood irrigation of the pasture.
3. The 40 acre parcel of the Spring of Gladness Ranch located in SW ¼, NE ¼, Sec.12, T.01S R.18E has been irrigated since 1881 when my grandfather homesteaded the Spring of Gladness Ranch. Water delivered through the bypass canal intersects a east-west running canal, and flows west into a pumping station located in the NW ¼, SW ¼, Sec.11, T.01S R.18E . Water is then pumped to the east through a mainline for ½ a mile, turns north in the middle of Sec. 12, and is able to irrigate the 40 acre parcel in the SW ¼, NE ¼, Sec.11, T.01S R.18E of the Spring of Gladness Ranch.

RE: Amended Claims for John McGonigal (Spring of Gladness)

Dear Doug:

Enclosed are two amended claims for John D. and Rosemary McGonigal and four amended claims for McGonigal's Spring of Gladness Ranch.

The amended claims for John & Rosemary McGonigal are being submitted to clarify the use of the water from Spring Creek and Willow Creek since the sale of part of the water right to Spring Creek Ranch (Davis) (see attached deed). When these rights were originally claimed they did not include the 88.8 irrigated acres appurtenant to these two amended claims. However, the original water rights (37-654 & 37-655) state that these areas were included within the rights. The water from Spring Creek and Willow Creek has been pumped (rediverted) to the high topographic areas within the area via two portable diesel pumps (see Figure 1). Since the 88.8 acres have never had an existing claim in the adjudication, \$89.00 has been included for this amendment.

The four claims for the Spring of Gladness Ranch are being submitted to correct the place of use originally claimed in 1987. When these rights were originally claimed they did not include the forty (40) acres in the SW $\frac{1}{4}$, NE $\frac{1}{4}$ of Section 12, Township 01S, Range 18E. However, according to John McGonigal these acres were being irrigated in 1987, and were originally included in the rights prior to the adjudication (see Figure 2). Since the 40 acres have never had an existing claim in the adjudication, \$40.00 has been included for this amendment.

I am also enclosing a limited power of attorney regarding these water rights, a check for \$129.00 for the amendment fees, and the deed appurtenant to 37-655A and 37-21477. An amended claim for 37-655 was submitted to IDWR in 2004; however, the fee for this amendment was never paid and thus never processed. Therefore, this amendment of claim is again being submitted with

I met with John McGonigil and Chuck Brockway [John's request] to review and discuss these water right files and the property for them . On the 1987 color photo the yellow POD upper North is as marked the point where the By-pass is diverted out of the river, the next ,center, yellow POD is where the extention by-pass starts, the third yellow dot down by yellow line is where 57F diversion is located as per previous GPS . As per chuck , Sprng 1 is right #11390, # 2 & 3 is 11387 and the two Art. Wells # 3 also gets water from 57F. As per John the yellow area on South-West is OK from GPS 1, the larger yellow areas is 2 & 3 as per photo. And Chuck and John both agreed that all files appear OK .
