STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages. IDWR notes the recommendation of water right 37-11418 remains unchanged.

Let's just do SF5s. It's easier for SM Bilyeu than withdrawing objections. Since we've got the correct version of the recommendation in wenet, Vicki can just print them.

Do we have combined use remarks that we need to worry about with the one that didn't settle yesterday, or can we go directly to SF5?

- Found 60 acres
- The waste water is claimed as primarily tributary to Copper Creek
- 11/06 unable to conduct field exam to measure diversion rate because of too much snow. Based on 1987 aerial photo that indicates irrigation of POU, the evidence of priority submitted, and a ditch distribution system observed on during a 2005 field exam, I decided to recommend 0.02 cfs/acre.

RE: Snake River Basin Adjudication claims 37-2751 & 37-11418

Dear Muldoon Grazing Association, Inc.,

I have completed reviewing water right claim 37-2751 that you submitted for the Snake River Basin Adjudication. This right was originally licensed for a diversion rate of 5.33 cfs and diversion limit of 915 af for irrigation of 305 acres. A recent field exam, aerial photography (taken in 1987, 1992, & 2004), and the USGS 1:24,000 topographic map collectively indicate that a large portion of this land either cannot or is not being irrigated from Muldoon creek using your current technique of flood irrigation from distribution ditches. I have identified 82 acres that are being irrigated. This right was originally licensed for a diversion rate of 0.017 cfs/acre and diversion limit 3.0 af/acre. The Idaho Department of Water Resources is currently using slightly higher rates for this area. The standard diversion rate is 0.02 cfs/acre and the standard diversion limit is 3.5 af/acre. Based on 82 acres of irrigated land, I plan to recommend a diversion rate of 1.64 cfs and a diversion limit of 280 af for 37-2751.

I have also completed reviewing water right claim 37-11418 that you submitted for the Snake River Basin Adjudication. A recent field exam, aerial photography (taken in 1987, 1992, & 2004), and the USGS 1:24,000 topographic map collectively indicate that 54 acres that are being irrigated using flood irrigation from distribution ditches. Idaho Department of Water Resources is currently using a standard diversion rate is 0.02 cfs/acre and the standard diversion limit is 3.5 af/acre for this area. Based on 54 acres of irrigated land, I plan to recommend a diversion rate of 1.08 cfs and a diversion limit of 189 af for 37-11418.

Feel free to contact me at (208) 287-4937 if you have any questions or would like to discuss my recommendations.

Sincerely,

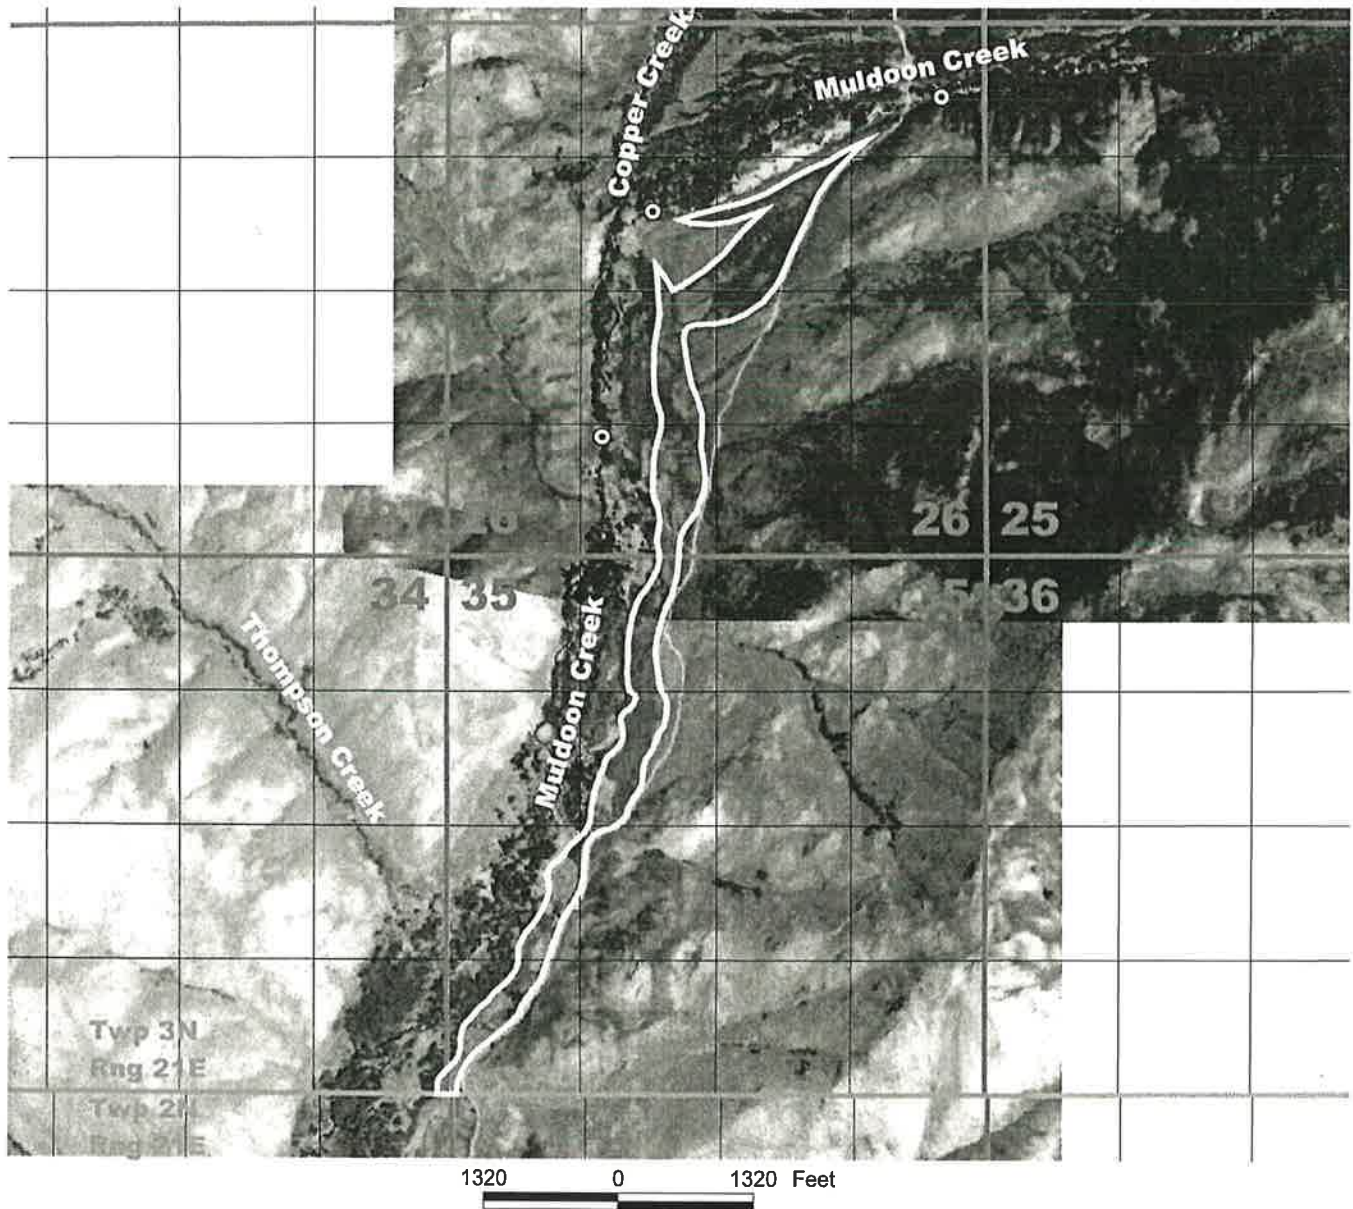

Matt Anders

Notes

T3N R21E Section 23 & 26

- This draft POU differs significantly from the claimed POU and map provided in the claim. The SE quarter of Sec 23 is owned by Muldoon Grazing Co and it appears to be irrigated with waste water from east (37-1143). Need to have the owner confirm the POU.
- The waste water is claimed as tributary to Muldoon Creek, if the POU is expanded it is also tributary to Copper Creek
- 1 claimed POD located to QQQ. However, the claimed land in the NENE Section 26 appears to be above this POD.
- If the POU is expanded beyond what is currently claimed, an additional POD(s) needs to be identified.

I met with Mick Stevens in Hailey this morning to review these two files for water for the grazing assn. File no. 2751 Mick said the blue area looks ok for irrigation and the yellow for owned and the lines for ditches is approx. they do vary quite often when they have spring flooding the ditches and creeks have a way of changing locations like the POD for the middle diversion No. 2 which was washed out this spring and is going to be re-located as per new GPS. See color photo for notes
File 11418 this land is mostly irrigated by flood- seepage and natural springs from land above and up stream , the grayish areas are hill sides and high lands. Mick said he would get a letter for the priority date. This areas are in real need of additional waters due to the gravel and rocky soils thru the whole creek system. The GPS location were made by Corey Skinner 2004

First being sworn and deposed, the undersigned states as follows:

1. I am of the age of majority and I have sound recollection. Also, I can state that I have reviewed the above water claim or right as presently filed.
2. I have lived in the Carey for the greater part of my lifetime and the above referenced water right or claimed was filed on behalf of my family or an entity owned by family members.
3. This right was originally from Muldoon Creek. I personally dug all of the ditches with a backhoe to irrigate pasture on both sides of the existing road. The work done in 1966 is the same as seen today on the property.
4. I know it was 1966 when the ditch work was completed because it was the year after I purchased the land which was in 1965.
5. I swear the foregoing to be accurate and correct to the best of my knowledge, recollection and belief.

IN WITNESS WHEREOF, the party hereto has hereunto set his hand and seal the day and year first above written.

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
