Dear Mr. and Mrs. Schoessler,

Enclosed are the two **NEW Claims** you wished to file. If they appear correct, please sign in front of a notary and return to my attention with a check for \$100.00 (\$50.00 per claim).

One thing I did notice was that we already had a claim in our TEMP file for A37-07612. It was dated 10/19/1988, but for some reason the fees were never paid and so the claim was never officially filed. This will take care of that and the only reason I mentioned this is because it listed **the legal description for the Point of Diversion (Item #4), as the NWNWNW of Section 7**. The License, however, listed the **Point of Diversion as the NWNE of Section 7**. I have enclosed a map for you to review and if the claim I have prepared needs to be changed, just make any changes and initial by the those changes. I will make the corrections to our records when I receive them with your check.

I have also enclosed the **Change of Address** form listing your other rights, which needs to be **signed and dated** and returned to our office.

If you have any questions, feel free to give me a call at the office.

Sincerely,

Jeanie Robertson

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in line 1, then skip this line and go to line 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (you may copy this page, if necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

COMMITMENT FOR TITLE INSURANCE

Issued by

FIRST AMERICAN TITLE INSURANCE COMPANY

Agreement to Issue Policy

We agree to issue a policy to you according to the terms of this Commitment.

When we show the policy amount and your name as the proposed insured in Schedule A, this Commitment becomes effective as of the Commitment Date shown in Schedule A.

If the Requirements shown in this Commitment have not been met within six months after the Commitment Date, our obligation under this Commitment will end. Also, our obligation under this Commitment will end when the Policy is issued and then our obligation to you will be under the Policy.

Our obligation under this Commitment is limited by the following:

- The Provisions in Schedule A.
- The Requirements in Schedule B-I.
- The Exceptions in Schedule B-II.
- The Conditions.

This Commitment is not valid without Schedule A and Section 1 and 2 of Schedule B.

ALTA Plain Language Commitment Form

INFORMATION

The Title Insurance Commitment is a legal contract between you and the Company. It is issued to show the basis on which we will issue a Title Insurance Policy to you. The Policy will insure you against certain risks to the land title, subject to the limitations shown in the Policy.

The Company will give you a sample of the Policy form, if you ask.

The Policy contains an arbitration clause. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or you as the exclusive remedy of the parties. You may review a copy of the arbitration rules at <http://www.alta.org/>.

The Commitment is based on the land title as of the Commitment Date. Any changes in the land title or the transaction may affect the Commitment and the Policy.

The Commitment is subject to its Requirements, Exceptions and Conditions.

THIS INFORMATION IS NOT PART OF THE TITLE INSURANCE COMMITMENT. YOU SHOULD READ THE COMMITMENT VERY CAREFULLY.

SCHEDULE B-SECTION I
REQUIREMENTS

The following requirements must be met:

- (a) Pay the agreed amounts for the interest in the land and/or the mortgage to be insured.
- (b) Pay us the premiums, fees and charges for the policy.
- (c) Documents satisfactory to us creating the interest in the land and/or the mortgage to be insured must be signed, delivered and recorded.
- (d) You must tell us in writing the name of anyone not referred to in this Commitment who will get an interest in the land or who will make a loan on the land. We may then make additional requirements or exceptions.
- (e) Release(s) or Reconveyance(s) of items(s) **as meets lender's / buyer's requirements..**
- (f) If any document in the completion of this transaction is to be executed by an attorney-in-fact, the Power of Attorney must be submitted for review prior to closing.
- (g) Idaho Code §31 3504 permits the state or counties that provide indigent medical assistance to a lien upon real property of the person provided assistance. We require the attached affidavit to be completed prior to recording to eliminate an exception to such lien.
- (h) Pursuant to chapter 10, title 55, Idaho code, we will require that both incoming owner spouses execute any forthcoming mortgage, or we must be furnished satisfactory proof that; (1) the subject property is not their principal residence, (2) the land is not claimed as homestead and the address of their principal residence, or (3) proof that the incoming owner is not married.
- (i) In order to release exceptions Nos: 9 and 10 this office will require reconveyances of said documents.

**SCHEDULE B - SECTION II
EXCEPTIONS**

Any policy we issue will have the following exceptions unless they are taken care of to our satisfaction.

PART I:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of said land or by making inquiry of persons in possession thereof.
3. Easements, claims of easement or encumbrances which are not shown by the public records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the title including discrepancies, conflicts in boundary lines, shortage in area, or any other facts that would be disclosed by an accurate and complete land survey of the land, and that are not shown in the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the public records.
6. Any liens, or rights to a lien, for services, labor or material theretofore or hereafter furnished, imposed by law and not shown by the public records.
7. 2009 taxes are an accruing lien, not yet due and payable until the fourth Monday in November of the current year. The first one-half is not delinquent until after December 20 of the current year, the second one-half is not delinquent until after June 20 of the following year. Taxes which may be assessed and entered on the property roll for 2009 with respect to new improvements and first occupancy, which may be included on the regular property, which are an accruing lien, not yet due and payable.

CONDITIONS

1. DEFINITIONS

- (a)"Mortgage" means mortgage, deed of trust or other security instrument.
(b)"Public Records" means title records that give constructive notice of matters affecting your title according to the state statutes where the land is located.

2. LATER DEFECTS

The Exceptions in Schedule B - Section II may be amended to show any defects, liens or encumbrances that appear for the first time in the public records or are created or attach between the Commitment Date and the date on which all of the Requirements (a) and (c) of Schedule B - Section I are met. We shall have no liability to you because of this amendment.

3. EXISTING DEFECTS

If any defects, liens or encumbrances existing at Commitment Date are not shown in Schedule B, we may amend Schedule B to show them. If we do amend Schedule B to show these defects, liens or encumbrances, we shall be liable to you according to Paragraph 4 below unless you knew of this information and did not tell us about it in writing.

4. LIMITATION OF OUR LIABILITY

Our only obligation is to issue to you the Policy referred to in this Commitment, when you have met its Requirements. If we have any liability to you for any loss you incur because of an error in this Commitment, our liability will be limited to your actual loss caused by your relying on this Commitment when you acted in good faith to:

Comply with the Requirements shown in Schedule B - Section I
or

Eliminate with our written consent any Exceptions shown in Schedule B - Section II.

We shall not be liable for more than the Policy Amount shown in Schedule A of this Commitment and our liability is subject to the terms of the Policy form to be issued to you.

5. CLAIMS MUST BE BASED ON THIS COMMITMENT

Any claim, whether or not based on negligence, which you may have against us concerning the title to the land must be based on this commitment and is subject to its terms.

RE: Change in Water Right Ownership, 120 Baseline Road, Bellevue, ID 83313;
Household Finance Corporation to Helen H. Bond
KKCL File No. 9938

Dear Mr. Walker:

Enclosed please find the Notice of Change in Water Right Ownership application with supporting documentation together with filing fee in the amount of \$250.00 for your information.

The property and water rights were previously owned by Robert B. Hoffman and Sally J. Hoffman which property was foreclosed by Household Finance Corporation and then sold by Household Finance Corporation to Helen H. Bond.

I appreciated your assistance in providing the water right information concerning the subject property. As you may be aware there are three water rights (37-11747, 37-02556 and 37-07817) that may be appurtenant in part to the subject property. These water rights were included as part of the water rights ownership change application.

Please change the water rights ownership accordingly.

Your assistance and cooperation in this matter is most appreciated. Thank you.

Very truly yours,

KNEELAND, KORB, COLLIER & LEGG, PLLC

MEMORANDUM

TO: SRBA Files 37-11749, 37-11750, 37-11751, 37-11752, 37-20618, 37-20619, 37-20620, and 37-20621

FROM: Corey Skinner *CS*

DATE: November 25, 2002

SUBJECT: Transfers involving related rights.

This day, the Department officially received and receipted two transfer applications, #70245 and #70246, involving parts of rights 37-20618 and 37-20620. Kenneth and Kathy Schoessler currently own these two rights. Note that claims 37-11749, 37-11750, 37-11751, 37-11752, 37-20619, and 37-20621, all in the name of Robert and Sally Hoffman, were at one time appurtenant to property owned by the Schoesslers (see ownership changes in claim files). In reviewing the transfers it was discovered that the place of use of surface water claims 37-11749, 37-11750, 37-11751, and 37-11752 overlap the place of use of the Schoessler's rights 37-20618 and 37-20620. However, examination of the claim files reveals that historically Schoessler had only used the surface rights (claims 37-11749, 37-11750, 37-11751, 37-11752) on the property that was sold to the Hoffmans. However, the Hoffman's surface claims still list the Schoessler property as part of their place of use, since the Schoesslers and/or the Hoffmans never amended the surface claims to actually reflect the historical place of use. The two Schoessler transfers are being processed based on the groundwater rights being primary rights, since the surface water is/was used for only the Hoffman property. If the two transfers are approved accordingly, then the **Hoffman surface water claims 37-11749, 37-11750, 37-11751, and 37-11752 need to be recommended only on the Hoffman property.**

Vikie Hancock's 12/14/01 memo in the claim files, and previous conversation memos in the claim files, shed more light on the use of the water on the Schoessler property and subsequent split of part of the property and water rights to the Hoffmans.

Change of Ownership Notification

Dear Mr. and Mrs. Schoessler:

With the receipt of proper documentation showing that you sold a portion of the lands associated with the above referenced Snake River Basin Adjudication claims, our records have been updated. Please note that the original water rights have been renumbered as a result of the split. The enclosed copies are for your records, please review these documents for accuracy in all respects. If you have any questions or concerns, please contact me at this office.

I apologize for the length of time it took to process the change in these claims. There was some delay in receiving the latest deed from you to the new owners that clarified the percentage of the surface water rights that you conveyed with the property sold. I have now changed ownership of the four surface water irrigation claims entirely into Mr. and Mrs. Hoffman's name. Stock water right 37-11747 was not split as you directed in the deed, however, as it was never claimed or decreed to be used on the northern 15 acres, and as a result, Hoffman's will have to administratively transfer a portion of that right onto their property if they wish to use it there.

The SRBA is an ongoing process; in the future, you may be notified with more information concerning your water right claims. You also may be asked to provide more information to assist us in correctly recommending your water right to the SRBA Court. It is, therefore, important that IDWR in kept informed of changes in ownership and address. We thank you for your continued cooperation in the Adjudication.

Ownership change Schoessler to Hoffman

The original claims filed by Schoessler indicated that the surface water rights listed above were used on the entire 117 acres. In the process of selling the north 15 acres of his property to Robert Hoffman, Schoessler informed the Department that the surface water had historically only been used on the portion purchased by Hoffman. After talking to the Department, Schoessler quit claimed the above claims to Hoffman in their entirety. See IDWR conversation documents in file. Ownership change - Schoessler to Hoffman
Claim Nos.: 37-2556B & 37-7817 Irrigation from Ground Water
37-11758 Domestic from Ground Water (Decreed) *← Decreed in Hoffman's name*
37-11747 Stock water from Ground Water *← Decreed in Schoessler's name*
37-11749, 37-11750, 37-11751, 37-11752 Irrigation from Surface Water

Dear Mr. Hoffman:

I am sorry that it took me a few days to get back to you after your inquiry as to the status of the above ownership change. After doing a bit more research, I found that you had indeed sent in the proper change of ownership forms for these rights. However, as you suspected, there is still some concern about the conveyance of the surface water rights.

It appears that the only deed we have in our files (see enclosed) conveys 12.8% of both the surface and the ground water rights to you. There is correspondence that indicates Gary Slette (now of Robertson, Hepworth, Slette, Worst and Stover) was intending to send additional documents in the form of an affidavit outlining the historical use of surface water on the property you purchased, as well as a deed conveying all the surface water rights to you in their entirety. There is no indication that we received those documents for processing here at Southern region.

If you determine that there were additional documents prepared, and arrange for them to be sent us, we can proceed with the splitting of the water rights appurtenant to the Schoessler property in the manner specified in the most current deed. For your review, I am enclosing computer printouts of all the water rights that were filed as claims on the property you purchased. By plotting the meets and bounds found in your deed, IDWR determined that your property consists of 13 acres in the SWNE and 2 acres in the NWSE of Section 6.

There is an additional impediment to changing ownership of a portion of 37-11747, decreed in the SRBA for stock water and domestic use. If you will notice, this water right was never claimed to be appurtenant to the property you purchased. In order for a portion of this water right to be used on your property for stock water, you would need to file an application to transfer the place of use of a portion of this water right to your property. Depending on the

number of stock you wish to have, domestic right 37-11758 may suffice, as domestic water rights include the watering of stock associated with your home.

I understand that Jim Stanton referred you to our web site for acquiring forms for the transfer of water rights, and also explained that changing a water right from a surface water source to a ground water source may be a difficult sell to the Department. *Unless a superceding deed from Schoessler retains both ground water rights 37-2556B and 37-7817 for use on his property*, you may wish to review the diversion amounts that are available to you for irrigation from groundwater under your portion of these rights before you pursue a transfer of source for rights 37-11749, 37-11750, 37-11751 and 37-11752. The standard diversion amount allowed for irrigation in Idaho is one inch (0.02 cfs) per acre.

If the deed signed July 24, 2000 represents the final instructions for the splitting of these water rights, please let me know and I will process the change on all but 37-11747. I have also enclosed the address and phone number of Gary Slette's firm, as there have been recent changes in name and personnel.

Sincerely,

Vikie Hancock

Doug: As usual, these matters are a moving target as more information comes available. I understood Slette to say that the ground water right had been used exclusively for decades on the entire property. Merritt was concerned because even if true, the water district records showed the surface right had been diverted whenever available. Perhaps it only provided conveyance water for the canal, but he did not like to see it abandoned, and he had cautioned Slette that if the ground water right were found to be supplemental to the surface water, the use of the ground water right could be limited. My response was simply that this is a very common situation. Karl in looking at Branchflower's request to remove the supplemental condition on a number of his Basin 36 rights had evaluated whether at the time the ground water right was developed, the developer only used the ground water and made no provision for use of the surface water. If so, the ground water right was developed as a primary right.

Now it seems Slette wants to preserve the surface water right for use on part of the property. This complication needs more discussion. Give me a call; perhaps we need to involve Susan and/or Phil.

Yesterday Slette and Schoessler called. And Slette indicated that Schoessler had reviewed with him the history of use since the 80's. In essence the surface water has only been used on the northern parcel to flood irrigate approximately 7 acres. These acres are included in a parcel which have been sold to Hoffman. In the deed to Hoffman it specified a proportionate share of the groundwater and surface water to go with the property. They are going to provide an affidavit to support this history of use. We discussed the options of either relinquishing the surface water on Schoessler's remaining property or somehow getting the water associated with the parcel sold to Hoffman where it has been used. It was decided to have Schoessler quit claim all of the surface water (or at least the proportionate share retained by Schoessler) to Hoffman. I told them they needed to inform Hoffman and the watermaster. (Hoffman then may need to amend his AJ claims)

I do not think a transfer is needed as Doug suggests. It appears based on their historical rendition of use that the southern portion of the property retained by Schoessler has only been irrigated by groundwater.

A review of the priorities of the surface water are such that some of the surface water rights are only good for a flash watering in the spring with the remaining good priority water only good for a very small flow that logically supports the rendition of use they claim (use on only few acres adjacent to canal).

I believe a significant amount of the surface water will sink in the baseline regardless of who claims it.

Norm,

Allen referred a matter to me, since he will be gone for a couple of weeks, involving Ken Schoessler in Basin 37. I believe the matter has already been brought to your attention by Gary Slette.

The situation, as I understand it, is that Schoessler wants to unstack his surface and ground water rights so that the parcels he is dividing from the property only have ground water. There is apparently a series of years that the surface water has not been applied to the land, though the watermaster has stated that the water is turned out of the Big Wood.

According to Allen, Mr. Schoessler will be coming in to the office to file some sort of affidavit to the effect that he considers his ground water rights to be his primary source and quit claiming the surface rights to a person named Hoffman. Hoffman bought the first parcel that abuts the Baseline Canal.

I am writing to seek your perspective on how to best proceed. It seems to me that there should be a transfer application filed to move the surface rights from the Schoessler land to the Hoffman land. In the alternative, there may be some administrative precedent to advise that the surface rights need to be retained and diverted in order to "recharge" the aquifer - that quit claiming the surface rights away could jeopardize the validity of the ground water rights developed (at least the older 1954 right) to augment the surface source. Transfer #2391 (1980) supports this conclusion since the application states that the ground water rotated to the property once every two weeks. A two week rotation would adversely affect a crop without some other source of water., hence my conclusion that the right was developed as supplemental water.

Would IDWR recommend an outlandish number of inches per acre if the surface water is mounded on very much fewer acres? Is this an "accomplished transfer"? Is this an enlargement? All tough questions and perhaps not needing an answer at this point.

My reasoning would be that if you think a transfer is not required because of accomplished transfer, then Hoffman needs to amend his "parts" of the SRBA claims to surface water to claim the whole thing. My preference would be that

Schoessler retain the surface rig., pay assessment, and use conveyance losses to offset the shift in reliance from surface to ground source.

Thanks for your considerations on this and look forward to hearing from you.

Doug
