TO: ADJUDICATION CLAIM FILE 37-11801

FROM: DANIEL A. NELSON

DATE: 12/19/06

SUBJECT: CLAIM REVIEW

This claim was filed on a portion of the Riley Right, which was decreed under water right 37-577. The claim will be recommended as claimed except for the season use and the acre descriptions. In a telephone conversation with Kelly Christensen I discovered that the Riley right was being recommended with a 5/15 to 10/31 season of use. This claim will reflect that season of use.

I also discovered that the acre description was incorrect. There are a total of 13 acres in the place of use, but there are 2 acres in the NWNW and 11 Acres in the SWNW. This correction was made to better describe the place of use for the watermaster.

Always consider the possibility that river losses or conveyance losses for a ditch system may exist even if the claim matches the water master list.

Yellow highlighted rights indicates rate and name match.

Blue and/or green highlighted rights indicate Possible match but with problems

Bright blue = research after 6-23-2005 matches.

Red = likely guess of a match or some kind of significant problem.

The list is not necessarily comprehensive. Most water carried on the watermaster list as Big Wood River losses or Conveyance losses are not shown on this comparison. Further research by right needs to be done.

Note: some entries contain a comments box (small red triangle in upper left corner of a cell)

Conditions of Approval:

1. This right is split from decreed right 37-577
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree.  Comment: James Speck added as attorney per NOA.

2. dnelson 12/19/2006 Claim Review
 Comment: This claim was filed on a portion of the Riley Right, which was decreed under water right 37-577. The claim will be recommended as claimed except for the season use and the acre descriptions. In a telephone conversation with Kelly Christensen I discovered that the Riley right was being recommended with a 5/15 to 10/31 season of use. This claim will reflect that season of use.

I also discovered that the acre description was incorrect. There are a total of 13 acres in the place of use, but there are 2 acres in the NWNW and 11 Acres in the SWNW. This correction was made to better describe the place of use for the watermaster.
