Notes

T3N R22E Sections 18 & 19

- Found 13 acres of irrigation
- Evidence of Priority: Claimed priority date is May 1, 1959. The current watermaster has been in this position since 1964 and he confirms the diversion rate and date. Use from 1959 to 1964 is only indirectly documented by the watermaster having lived in the area his entire life and his father preceding him as watermaster. Decided submitted evidence of priority is acceptable.
- 11/06 unable to conduct field exam to measure diversion rate because of too much snow. Based on 1987 aerial photo that indicates irrigation of POU, the evidence of priority submitted, and a ditch distribution system observed on during a 2005 field exam, I decided to recommend 0.02 cfs/acre.
- 12/4/06 – Met with Mike Stevens of Lava Lake Land & Livestock. Part of POU is on land owned by Muldoon Grazing Co. Lava Lake Land & Livestock is a majority owner in Muldoon Grazing Co. and they are unsure if this water right should be in the name of Guy Peterson or Muldoon Grazing Co.
- Recommendation:
 - 0.26 cfs for Irrigation of 13 acres
 - Priority Date: 5/1/1959

I went up to Guy's ranch this morning and met with him and his wife to review his three water files and while reviewing file 12393, he made a memo regarding his priority date which is in file , and he said the blue area is a good representation of his property but the POD is in the wrong place , it is in the creek shown on the red and green photo and this POD is in Buck creek. The area arrow by POD is owned by Grazing Co..

File 12390- Guy said this POD is in wrong location it is down red photo as shown and new GPS, he said the area mark in yellow is good and the arrow marked canal is -no- it is a creek and the POD on this red and gray photo has washed out and gone. The light area is rock out cropings which are irrig. When they have plenty of water.

File 1143-Guy said this blue area also looks good for his property and the POD is on Muldoon Cr. GPS by Corey Skinner Twin IDWR copy attached the area on color photo gray , he said they water this land when they have flood water and the same on the area in question Muldoon Grazing is only watered when flooding is available . The three areas claime3d by Mining is at this date mining but Guy has been paying taxes on this land for some years and they are going into the County and inquire about them owning or aquiring this land.

Re: Evidence of Priority for Water Right # 37-12392

Dear Mr. Jones,

Enclosed is the Water Resource copy pertaining to Water Right #37-12392. The priority date is correct. This water was in use on my grandparents homestead when they settled here in 1904 and has been in use yearly ever since. Since there was no need to file until later years, this priority date was agreed on. There has been a head gate and weir installed as the enclosed pictures show.

Also, James Peterson, Watermaster for District 37, has signed below, verifying the priority date is correct.

Sincerely,

Guy Peterson

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

RE: Notice of Claim to a Water Right
No. A37-01143 - Blaine County

Dear Mr. Peterson:

We have accepted your Notice of Claim to a Water Right based on water right 37-01143. However, our records show that the original decree was issued for 2.8 cubic feet per second (cfs). Attached is a copy of the claim as accepted for you to keep in your files.

In order to protect the additional amount of water you are now claiming, you have one of two choices. You may file an additional claim to cover the 6.0 cfs based on beneficial use.

Your other option is to file an Application for Permit on this additional water and have it acted upon by the Department and may eventually be licensed. In this case, since the proof of beneficial use would be after the commencement date, November 17, 1987, you would not be required to file a Notice of Claim. Of course, you may do both if you wish.

I have enclosed both sets of forms to use as you wish. If you need assistance completing any of the forms, please do not hesitate to contact any of the offices listed in the instructions.

There are two additional items which need to be addressed. First, on the last page of the claim forms, you indicated that you wish to receive the docket sheet. The docket sheet is a document that lists all the legal documents in the preceeding month which have been filed with the Twin Falls District Court in the Snake River Basin Adjudication. It is prepared and published on a monthly basis. The fee for a calendar year subscription is \$7.50. In order to be added to the subscription list, you will need to send in the \$7.50 fee to Adjudication Bureau, Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720.

If you wish to attach six items to each claim, please send in one set and we will be happy to attach a set to the following claims:

A37-12390
A37-12391
A37-12392

A37-12393

If we do not receive any material, we will assume that you did not intend to have any attachments to these claims. If we can be of any assistance, please do not hesitate to contact the Department.
