**Re: Barker Living Trust/37-12873;
Our File No. 384/950610**

Dear Doug:

I represent the Barker Living Trust. Enclosed you will find a letter from my client's caretaker, Deano Miller, and photographs which he took of the reservoir, dam and overflow headgate. You will see that the date "1962" is inscribed in the cement portion of the overflow headgate as opposed to the dam as noted on the claim itself (which was prepared and filed by a previous owner). I believe the only earlier topographic map for the Bellevue area is circa 1957 and it is of no help. The current topo is 1986.

My client's house burned to the ground a few years ago and with it most of his records related to the property. He does not have any aerial photographs which might substantiate the 1962 date or at least some date prior to May 20, 1971. We are hoping you will find the photographs and letter from the photographer adequate evidence to support the claimed priority date.

Please contact me right away if you believe you need additional information. Thank you.

Sincerely yours,

Re: Evidence of Priority

RESPONSE DEADLINE
JUNE 17, 2005

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

37-12873 Claim Review

S. Keen 12/27/2006

- ① No evidence of commercial fish propagation. Strike that use in favor of recreation.
- ② Stock watering is instream. Describe beginning and ending points and allow 0.02 cfs.
- ③ All other uses are on-stream storage. Rate cannot be allowed; volume only.
- ④ Pond is about 1.25 acres. If depth is 7 to 8 feet as reported, estimate of 6.0 AF is about right.

Monday I called Deano Miller, Richard's [used to be] caretaker and made an appt. to go over the property and show where property is and etc. Tuesday we met at location and reviewed the file, and where we were sitting. We could see a flag where the pond discharged and the irrigation submersible pump was located, I showed him the red-blue-gray photo and he marked the approx. boundaries of Richard's place. On green photo the area brown is and has been hay ground, in 2004 they plowed up the fields and have seeded them back to hay and is presently irrigating the new crop. The area North of the house is and has been pasture, and the green around the house & carrel-arenas are irrig. With well as per this right, on pond area, see photo 4 & 5 within this file show the pond spillway and the location of the sub. Pump for irrigation as shown on the green photo. The area on East side is natural trees-brush & etc. the pond is as we could assume is a saucer appearance and I would estimate the deepest is approx. 7 to 8 feet deep.

* SPRINGS- talking to Mr. Miller he informed me that the springs, to his knowledge, is within the pond, last year when he tried to drain the pond to clean the pump screens the pond never got to a point that he didn't have to wear hip boots and wade. He also informed me that at fall time and winter when the water was shut off at the slough diversion and the delivery ditch was dry this pond never dried up even after pumping out of it for 2 days. The slough diversion is No 39A on GPS list provided to Kelly. See GPS of spill and pump

Identify the place of use boundary especially the areas that appear dry and the areas around the buildings. Confirm the irrigation north and east of the pond. It does not appear to be irrigated. If it is irrigated then detail the delivery system. For irrigation, you would need to document the historical flood irrigation system.

sprinkled = no flood

Storage for the pond was not specifically included as a use in claim 37-12873. It might be best for the claimant to amend the claim to include recreation, aesthetic, etc storage as a use on the right.

Kelly might prefer better regarding storage

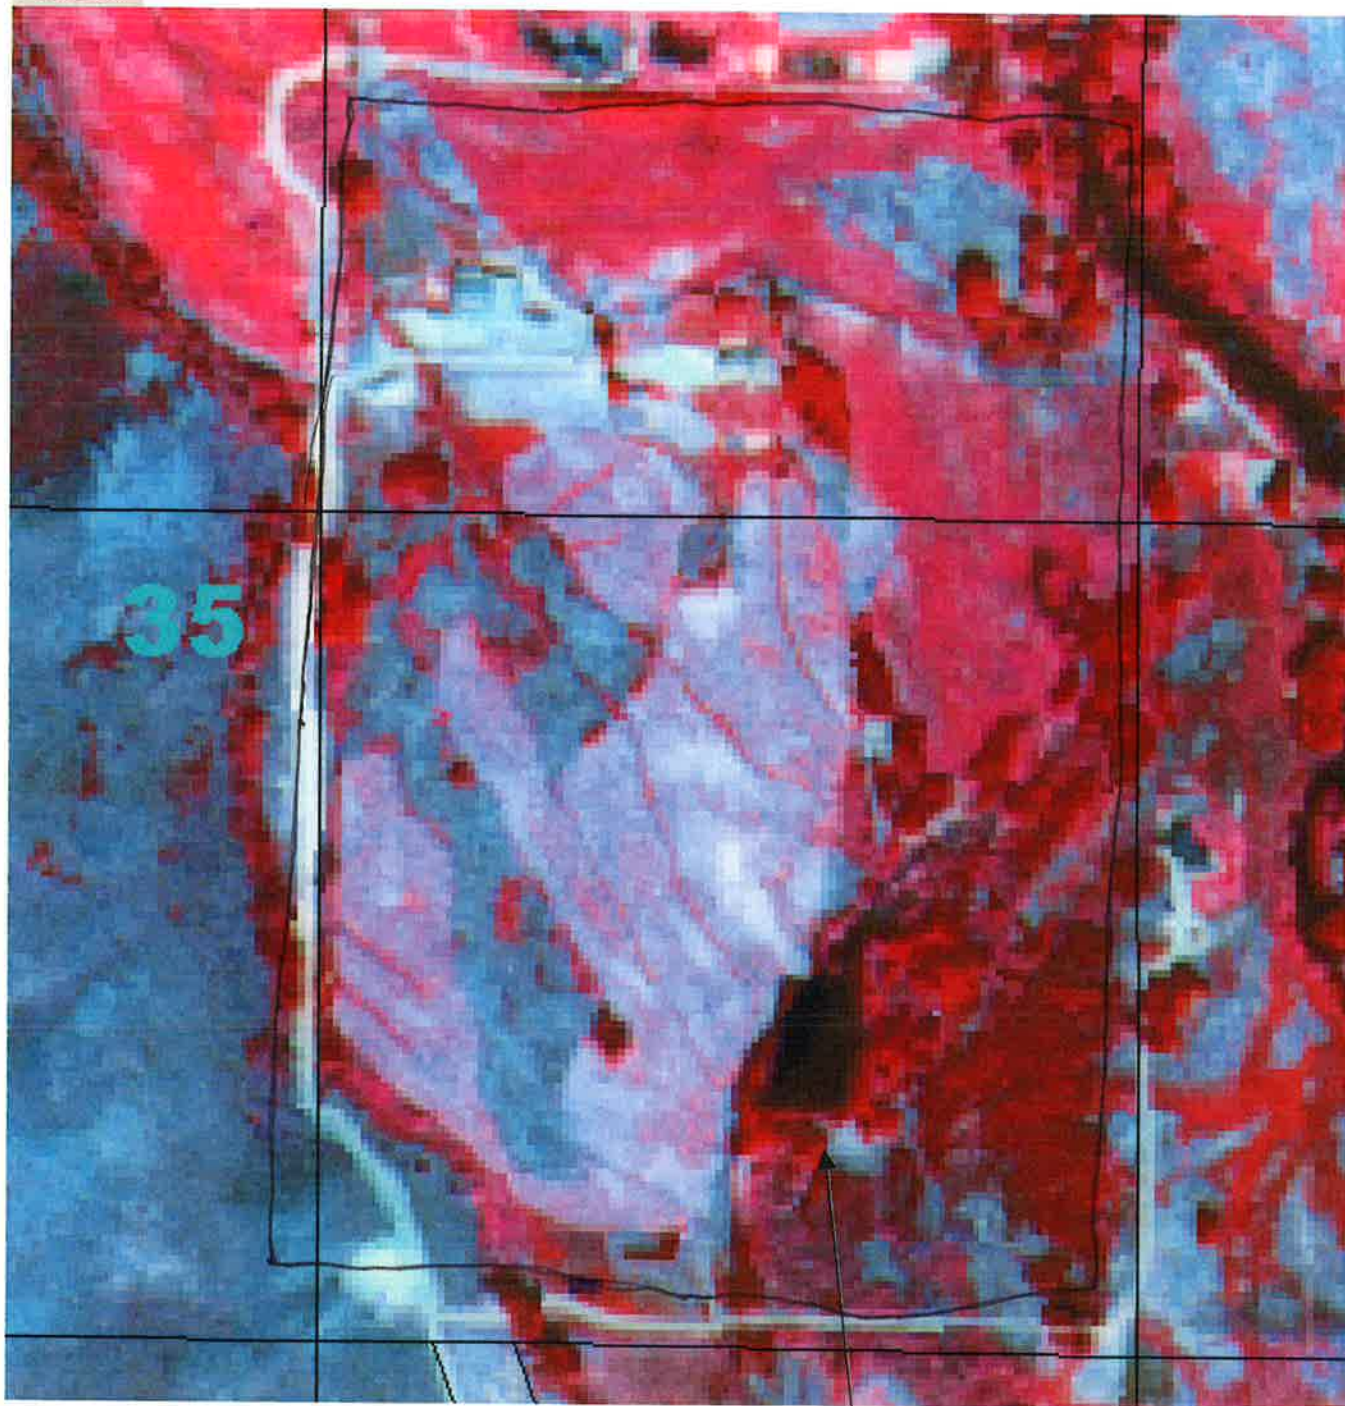

Both decreed rights 37-578 and 37-688 have been claimed in full. No over claim issues were noted.
