E. REASONS SUPPORTING OBJECTION(S):

The recommendation describes PODs & POU's on private and federal lands with a priority date of 06-01-1883 and a year-round season of use. The Claimant is not authorized to graze federal land. Use of stockwater on federal land within the Indian Allotment is limited to Spring & Fall, and just the Spring in the Mink allotment. There does not appear to be a basis for an 1883 priority on either private or federal land. Even if the Claimant were authorized, the recommendation does not describe the land to which the use on federal land is appurtenant as required by I.C. 42-1402.

- Source is Springs tributary to Sinks
- Claimed for 0.24 cfs for Stockwater

Place Of Use Data

Yellow line is the draft Place of Use created by IDWR based on historical data and records.

Green line is decreed/licensed POU (this may only represent the Quarter-Quarter sections of the decree/license)

2004 Aerial Photo

Notes

T2S R12E Sections 19, 20, 29, & 30

- PODs digitized based on 2004 aerial photo and USGS 24K map, if there was no indication of a spring, the claimed POD was disallowed.
- Claimed POU included land owned by Casa del Norte, State of Idaho, and Janss Farms.
- 12/1/05 talked to Jim Chambers (208-322-5600) of Barber/Caven Ranches on the telephone. Mr. Chambers said that they want to claim these springs and they are actively using them. They run about 20,000 acres as part of their several ranches, so he does not remember each spring location. He said they have land in the Bennett Hills near the Camas Elmore county line. I gave him the section numbers of the claims and he confirmed they have land in each. I told him that according to the county tax records some of the land is owned by others and the BLM. He seemed to think that this is caused by POD/POU located incorrectly (possibly due to the remote nature of the area) causing the claimed legal to be incorrect. He expected some objections by the BLM.
- Appears that Casa del Norte is associated with Barber-Caven.
- Portion of POUs in Section 17 on land owned by Janss Farms. POUs in Sections 19 & 20 on land owned by Casa Del Norte LP. POUs in Sections 29 & 30 on BLM land.
- The portions of the claimed POU are on BLM land were recommended because the owner knowingly made the claim and expects objections by the BLM.
- Claim is for developed and undeveloped springs. To recommend a higher diversion rate for the developed springs, I requested that the claimant submit information to identify the developed springs. No information was submitted, so all the springs were recommended as undeveloped with a diversion rate of 0.02 cfs.
- Data used for review: 1987, 1992, & 2004 aerial photos, Camas Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

Re: SRBA claims 37-13234 and 37-13235

Mr. Chambers,

Barber/Caven Ranches submitted water right claims 37-13234 and 37-13235 for the Snake River Basin Adjudication (SRBA). Both claims are for stockwater from sources described in the claims as "springs developed or undeveloped." Since in each case the claimed diversion rate exceeds 0.02 cfs, we need to split each claim into two parts, one for the undeveloped springs and one for the developed springs. Please designate each spring on the attached maps as being undeveloped or developed and return the maps to me so we can split the claims and continue with the review process.

Both claims appear to involve land owned by Casa Del Norte, other private parties, and the State/Federal government. I plan to include in my recommendation the portion of your claims on Casa Del Norte and State/Federal land. You said in our conversation in December that you are aware that some of your claims are on State/Federal land and you expect the corresponding agency to file an objection in the SRBA. I plan to exclude from my recommendation the portion of your water right claims that appear to be on land owned by other private parties, unless you provide documentation that shows Barber/Caven Ranches has ownership interest in that property.

Feel free to contact me at (208) 287-4937 if you have any questions.

Sincerely,

Matt Anders

To whom it may concern,

This is to acknowledge that our office has received a Notice of Change of Water Right ownership from Rocky Mountain Land & Cattle. The ownership change was received by this office on February 22, 1999. The ownership change involves the following Snake River Basin Adjudication claims:

A37-19839 A37-19840 A37-02245 A37-04017 A37-07945 A37-02006E
A37-04018 A37-04019 A37-07522 A37-07546 A37-13234 A37-13235

Apparently, the previous owner of these claims was Barber/Caven Ranches. Due to the backlog of ownership changes, this particular ownership change has not yet been processed. If there are any questions, or if we can be of any further assistance, feel free to contact this office at your convenience.

Sincerely,

Corey Skinner, P.E.
Water Resource Engineer
