RE: SNAKE RIVER BASIN ADJUDICATION CLAIMS CHANGE OF
OWNERSHIP FROM JON MELLON

Dear Mr Rey

Enclosed are copies of 13 adjudication claims which I have changed the ownership from Mr Mellon to you, as identified through two change of ownership forms. Please review these claims to insure that they represent the water use as it exists on the property.

I have also enclosed a change of address form, as the quit claim deed submitted for A37-02139A showed the above address where as the change of ownership form has the address as shown on the claims. The department is required to have a written request before we can change the address on claims filed in the Snake River Basin Adjudication.

If you have any questions please contact this office.

Sincerely

Kelly K Christensen

E. REASONS SUPPORTING OBJECTION(S):

Stock watering occurs from and along the source streams in various parcels (places of Use), and the recommended diversion rate of .02 cfs evidently assumes only a single "diversion point" will be used at a given time. Claimed diversion rate, points of diversion and places of use are accurate, and should be approved.

- Claimed 0.33 cfs for Stockwater

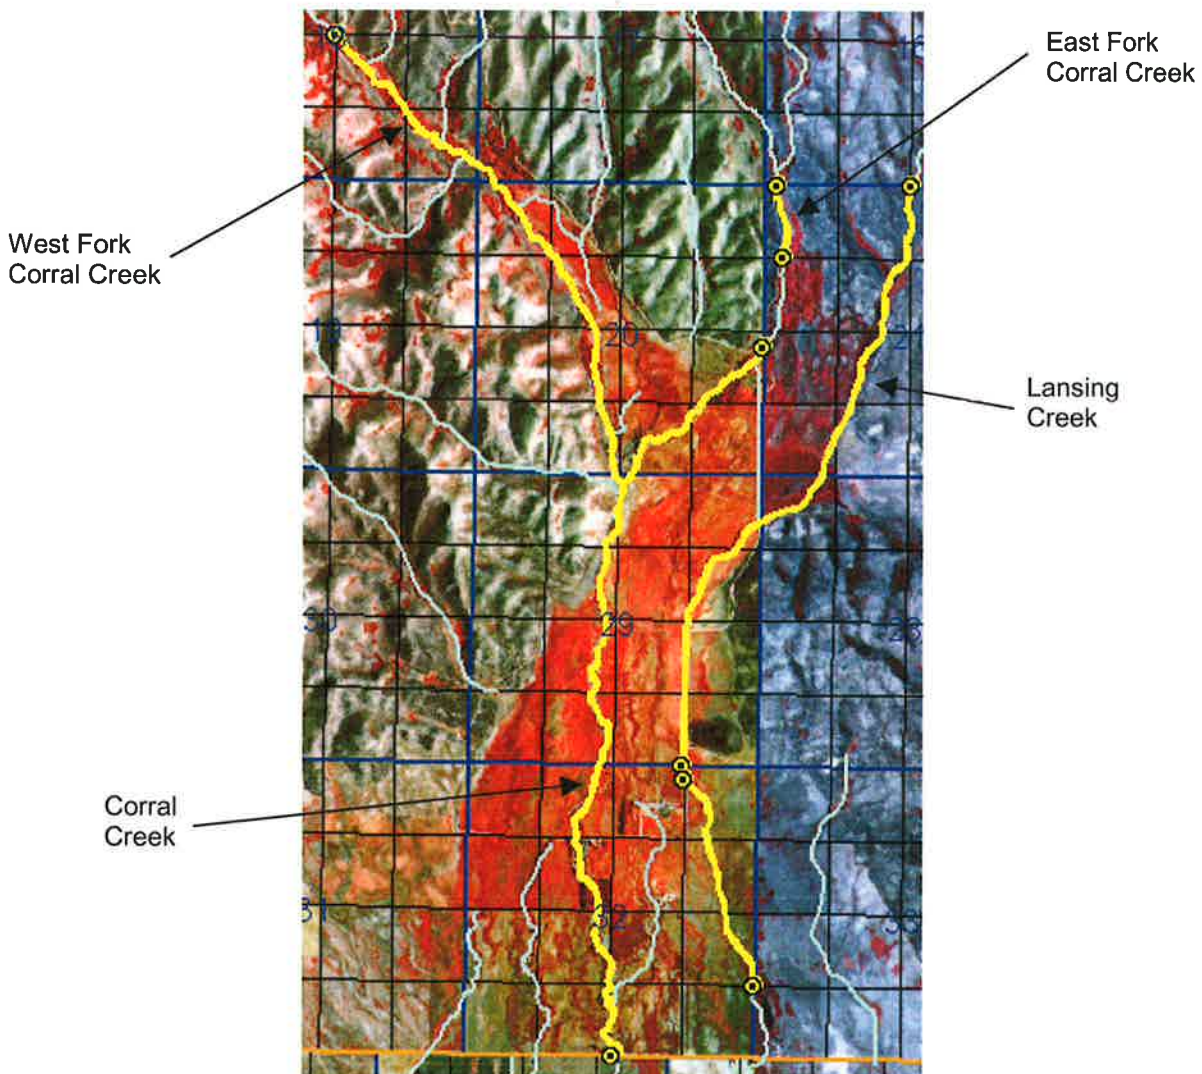

Place Of Use Data

Yellow line is the draft Place of Use created by IDWR based on historical data and records.

Notes

T1N R13E Sections 18, 20, 21, 28, 29, & 32

- POU based on claim map – differs slightly from QQ of claimed POU and limited to land owned by Carl Rey. Claimed land in NE Section 17 excluded because it is included in 37-13289.
- PODs digitized based on claim map
- Source should be:
 - West Fork Corral Creek tributary to Corral Creek
 - East Fork Corral Creek tributary to Corral Creek
 - Corral Creek tributary to Camas Creek
 - Lansing Creek tributary to Camas Creek
- Recommend as instream diminimus (that is the fee they paid): 0.02 cfs
- 3/14/06 Met with Chuck Brockway Sr. Mr. Brockway decided to only claim the Corral Creek in-stream stockwater with this claim. He plans to file a new claim for in-stream stockwater for Lansing Creek.
- Data used for review: 2004 aerial photos, Camas Co Tax Records, Idaho Ownership (idown.shp), & USGS 1:24,000 Topo

**Notes for the Van Horn SRBA Claims
(3/20/06)**

37-13288 – Split into:

- 37-21715 – Developed springs
- 37-21716 – Undeveloped springs

37-13292 – Claimant plans to only claim the East Fork Corral Creek, West Fork Corral Creek, and Corral Creek in-stream stockwater use for 37-13292. A new claim will be filed for in-stream stockwater use from Lansing Creek.

37-13301 – Claim filed as diminimus (\$25 fee) for 0.33 cfs for Stockwater. The maximum diversion rate for a diminimus stockwater claim is 0.23 cfs and a volume limit of 13,000 gal/day. If a larger diversion rate or volume is desired, the claimant needs file for a permit since the claimed priority date is 8/1/1986 (Chuck, you should check with allocations to confirm that the permit would not be subject to the moratorium and would be processed).

37-13314 – Needs change of ownership to Van Horn. The pond in NENW Section 27 cannot be part of the in-stream stockwater use claimed in SRBA claim 37-13314 because in-stream use is an undeveloped diversion and the pond is man-made and considered a developed diversion. The pond was not mentioned on the original claim filed 11/14/89, but permit 37-8648 was filed for Stockwater Storage and Wildlife Storage in the pond in 1990. Based on the information I have, it appears that the pond was created in 1990 (after the 1971 mandatory statute date) and requires a permit (Chuck, you should check with allocations to confirm that the permit would not be subject to the moratorium and would be processed).

37-21280 - Ready for final recommendation.

37-21282 – Needs change of ownership to Van Horn. Ready for final recommendation.

37-21283 – Needs change of ownership to Van Horn. Ready for final recommendation.

37-21284 – Ready for final recommendation.

37-13289 – Split into:

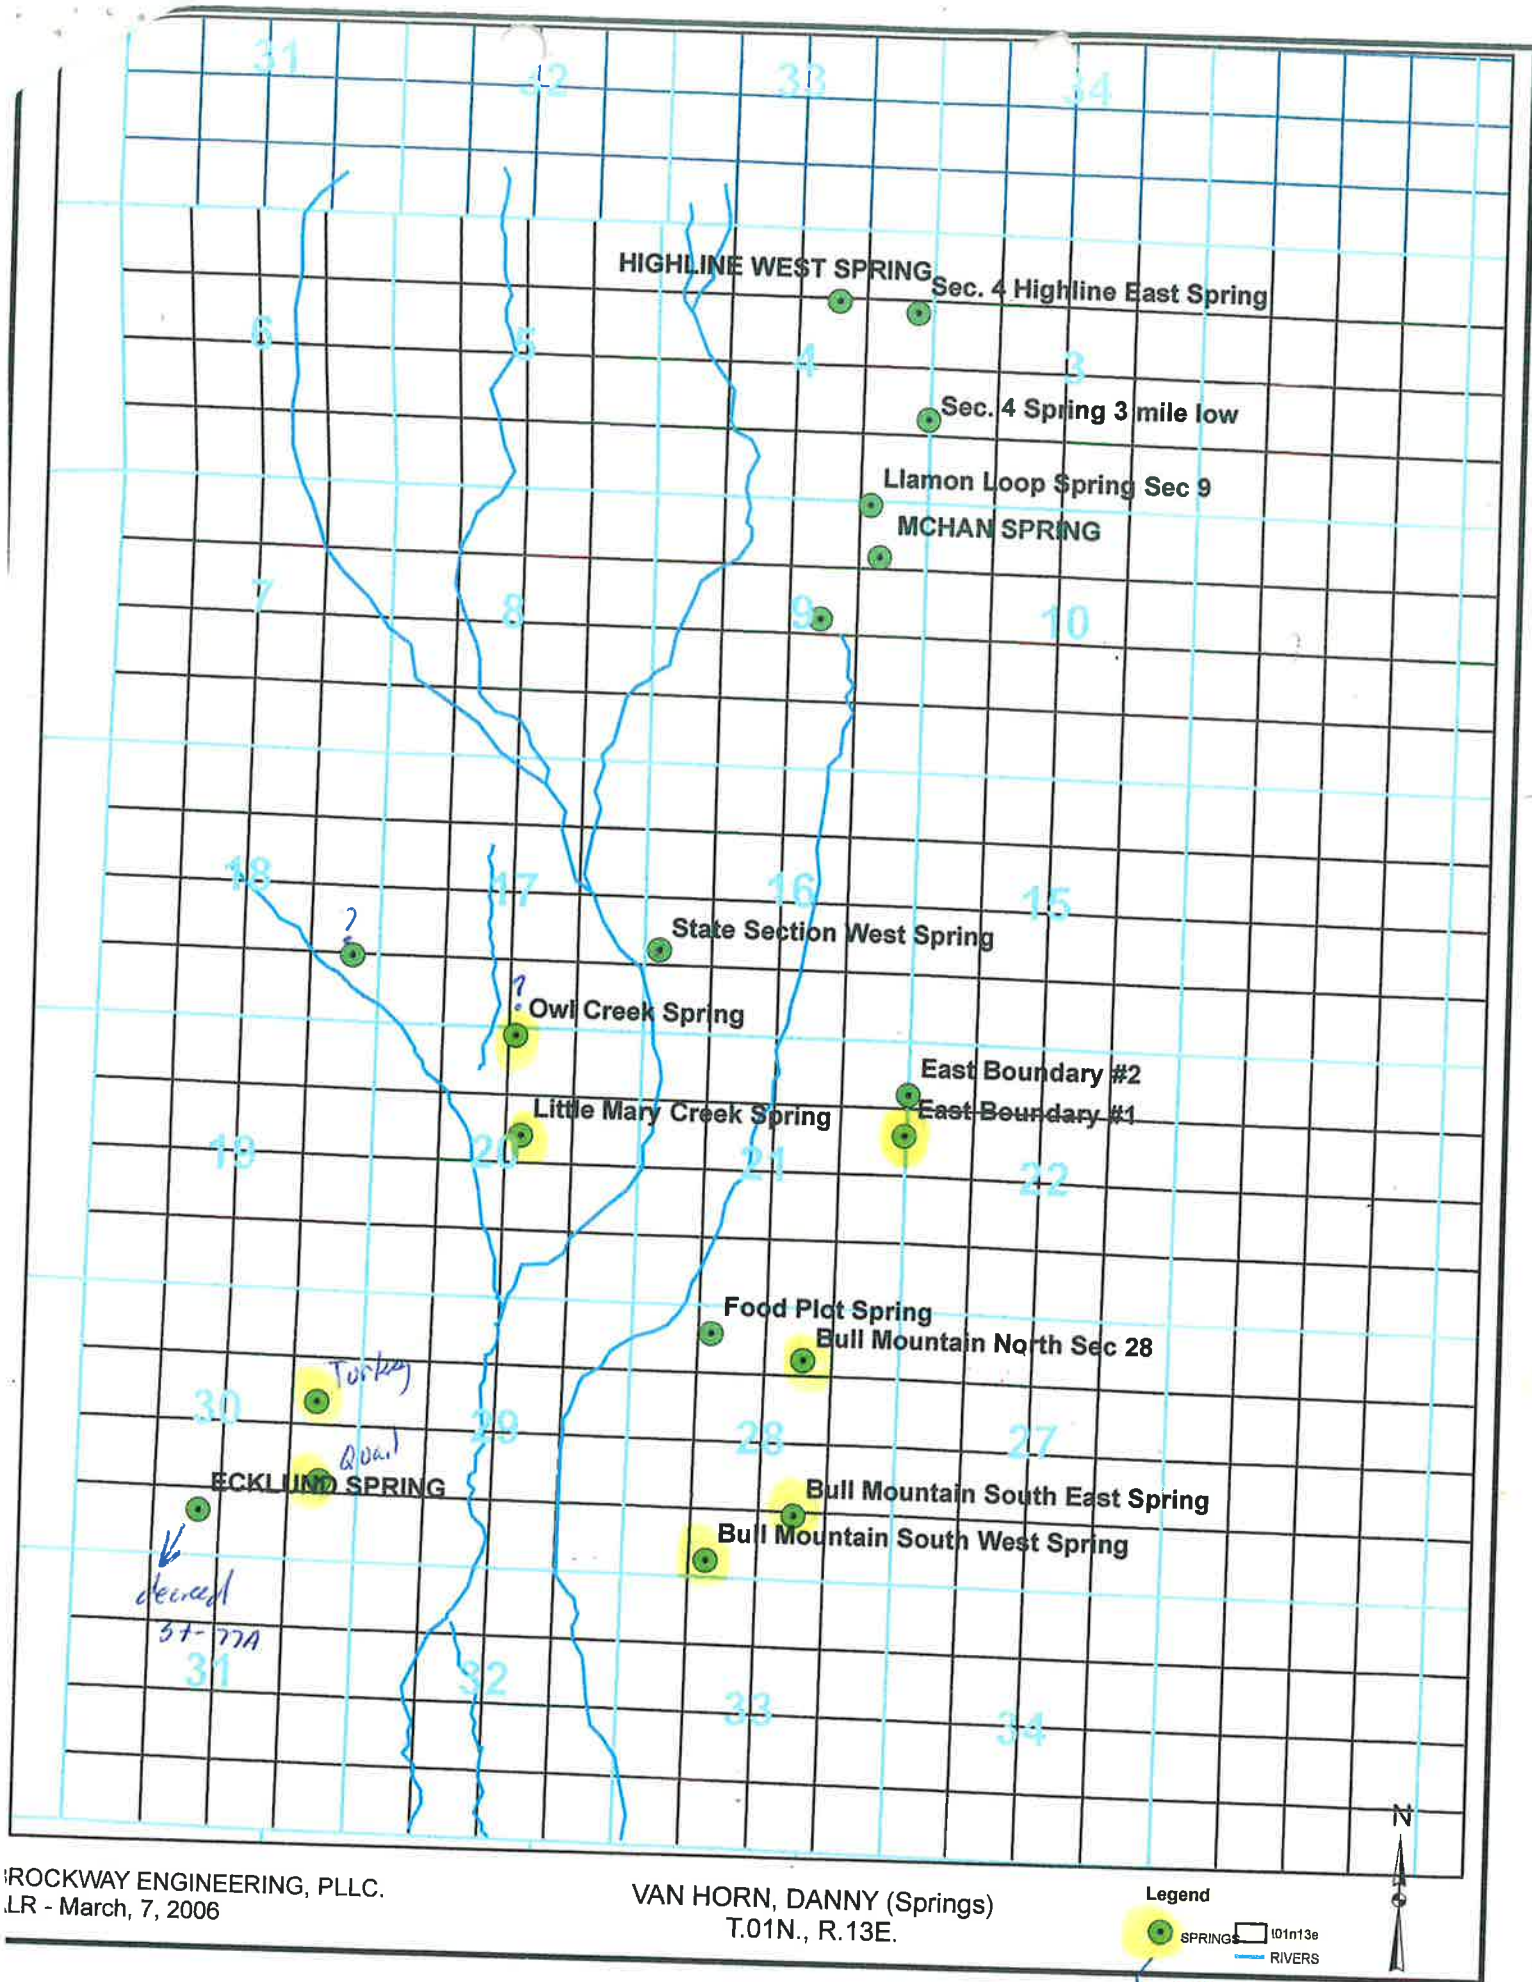

37-21653 – Ready for final recommendation.

37-21654 – Based on a conversation with Chuck Brockway Sr., 5 additional springs not on the original claim were developed some time after 1987. These 5 springs cannot be included in SRBA claim 37-21654 because they diversion developed after the 1971 mandatory statute date.

There appear to be two options to license these five springs:

- 1) After 37-21654 is decreed by SRBA court, a transfer can be filed to convert part of the in-stream use to developed springs. However, it appears that the diversion rates on the springs would be 0.02 cfs, the same as in-stream use (Chuck, if you are interested in this, you should check with allocations to confirm that the claimant could transfer the water after the SRBA).
- 2) File for a permit on the springs (Chuck, you should check with allocations to confirm that the permit would not be subject to the moratorium and would be processed).

Two unclaimed springs – Located in Section 18 (unnamed) and Section 20 (Owl Creek Spring). SUBJECT: CHANGE OF OWNERSHIP FOR MELLON TO REY
phone (X) walk-in()

I called her to get clarification on the actual place of use covered in warranty deed 69756.

She indicated that she is completing another change of ownership for REY that conveys the balance of Mellon's property to them. She felt that the deed would be recorded later today. I she indicated that she would fax the change of ownership to me after it is recorded.
