RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

Re: SRBA claims 37-13370, 37-13371

Dear Mr. McHan:

The above claims, filed in the name of the Southern Idaho Dist. Assemblies of God, are not backed by water rights established through statutory process or beneficial use commenced prior to March 25, 1963.

Since 1963, the only method by which a valid right to appropriate groundwater may be established, is to follow the statutory process of obtaining a permit and perfecting it to license.

Since the claims indicate that beneficial use started in 1975, the claims cannot be recommended as valid in the Snake River Basin Adjudication.

I can only recommend at this point that applications for permit be filed with this office as soon as possible.

The Big Wood River Groundwater Management Area designation does not mean that applications will be automatically denied, but creates a strong presumption that diversion of groundwater will affect surface flows already appropriated under senior water rights.

If there are further questions regarding this matter, please contact us.

Sincerely,

Loren O. Holmes, P. E.
Southern Region Manager
