Total Acres						164.5

11. Place of use in counties: BLAINE

12. Do you own the property listed above as place of use? No

13. Other Water Rights Used:

14. Remarks:

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the department for measuring the flow from both artesian wells and any water being injected into Willow Creek and at all points of re-diversion from Willow Creek.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

This right is for an enlargement of 14.5 acres within the place of use described above. This right is an enlargement of right 37-2614 pursuant to Section 42-1426, Idaho Code.

The total instantaneous diversion of water from all points of diversion under Rights 37-2614 and 37-14289 shall not exceed 2.00 cfs, nor total combined annual volume of 500.8 af.

Rights 37-2614, 37-14289 and 37-1153B when combined shall not exceed a total diversion rate of 3.40 cfs and the irrigation of 164.5 acres.

Rights 37-2614, 37-14289 and 37-1153B are all diverted or re-diverted through the point(s) of diversion on Willow Creek described above.

The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

The diversion and use of water described in this right may be subject to additional conditions and limitations as described in the SRBA court order dated 1/28/2002 which approved the stipulated agreement between parties for the use of the artesian well located within the NENE S13, T01S, R18E. Said order may be enforceable by a court of law.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

Approval of this transfer does not preclude the opportunity for review of the validity of this water right in the ongoing Snake River Basin Adjudication.

15. Basis of Claim: Beneficial Use

2. MODIFICATION. For value received, Mortgagor and Lender agree to modify the Security Instrument as provided for in this Modification.

The Security Instrument is modified as follows:

A. Secured Debt. The secured debt provision of the Security Instrument is modified to read:

(1) Secured Debts. The term "Secured Debts" includes and this Security Instrument will secure each of the following:

(a) Specific Debts. The following debts and all extensions, renewals, refinancings, modifications and replacements. A renewal note or other agreement, No. 2551100106/50, dated October 2, 2006, from Mortgagor to Lender, with a maximum credit limit of \$75,000.00, with an initial interest rate of 9.0 percent per year (this is a variable interest rate and may change as the renewal note prescribes) and maturing on September 20, 2007. One or more of the debts secured by this Security Instrument contains a future advance provision.

(b) All Debts. All present and future debts from Mortgagor to Lender, even if this Security Instrument is not specifically referenced, or if the future debt is unrelated to or of a different type than this debt. If more than one person signs this Security Instrument, each agrees that it will secure debts incurred either individually or with others who may not sign this Security Instrument. Nothing in this Security

Dear Party Holding Security Interest:

The Department of Water Resources acknowledges receipt of the Notice of Security Interest in a Water Right you recently submitted on the above water rights. The Department has modified its records to reflect the security interest and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owners of a water right to the Department. Notice of the change must be provided to the Department within 120 days of the change. Change reporting forms are available from any office of the Department or on the Department's website.

Please feel free to contact this office with any questions you may have.

Sincerely,

PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 37-14289

NAME AND ADDRESS: ROBERT P DREYER
PO BOX 4917
KETCHUM ID 83340

SOURCE: GROUND WATER

TRIBUTARY:

The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

QUANTITY: 0.290 CFS
50.800 AFY

Right Nos. 37-2614 and 37-14289 are limited to a total combined diversion rate of 2.00 cfs and to a total combined annual diversion volume of 500.8 AF.

The rights listed below are limited to a total combined diversion rate of 3.40 cfs. Combined Right Nos.: 37-1153B, 37-2614, and 37-14289.

PRIORITY DATE: 04/15/1978

This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.

164.5 ACRES TOTAL

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

The rights listed below are limited to the irrigation of a combined total of 164.5 acres in a single irrigation season. Combined Right Nos.: 37-1153B, 37-2614, and 37-14289.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

This right is based upon an enlargement of Right No. 37-2614 pursuant to Section 42-1426, Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.

The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

This right is for an enlargement of 14.5 acres within the place of use described above.

The diversion and use of water described in this right may be subject to additional conditions and limitations as described in the SRBA court order dated 1/28/2002 which approved the stipulated agreement between parties for the use of the artesian well located within the NENE S13, T01S, R18E. Said order may be enforceable by a court of law.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

Rights 37-2614, 37-14289 and 37-1153B are all diverted or re-diverted through the point(s) of diversion on Willow Creek described above.

Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the department for measuring the flow from both artesian wells and any water being injected into Willow Creek and at all points of re-diversion from Willow Creek.

RE: Evidence of Priority for Water Right No. 37-14289

Dear Mr. Jones:

Mr. Robert Dreyer, the holder of the above numbered water right, has forwarded to us your letter of April 15, 2005, and has asked us to respond.

A couple of years ago we were involved in an effort regarding some of Mr. Dreyer's water rights, including the above numbered water right. During that period of time, we provided information regarding the evidence of priority for the very right listed. We are enclosing with this letter two of our letters, one date January 2, 2003, and the other dated June 9, 2003, with the attached affidavits and other information referenced therein. Unfortunately, we no longer have copies of the 1992 FSA map or the color aerial photo that we enclosed with the January 2, 2003, letter. We suppose copies of those maps and photos may be in the transfer file if they would be helpful to you and perhaps you will have quicker access to them than we would.

Please let us know if there is anything further that we may do to provide helpful information.

Yours very truly,

Kent W. Foster

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

The property is located in BLAINE County at 17859 U.S. HIGHWAY 75, UNINCORPORATED BLAINE COUNTY, Idaho 83320.

Together with all rights, easements, appurtenances, royalties, mineral rights, oil and gas rights, crops, timber, all diversion payments or third party payments made to crop producers and all existing and future improvements, structures, fixtures, and replacements that may now, or at any time in the future, be part of the real estate described (all referred to as Property). This Security Instrument will remain in effect until the Secured Debts and all underlying agreements have been terminated in writing by Lender.

2. MAXIMUM OBLIGATION LIMIT. The total principal amount secured by this Security Instrument at any one time will not exceed \$75,000.00. This limitation of amount does not include interest and other fees and charges validly made pursuant to this Security Instrument. Also, this limitation does not apply to advances made under the terms of this Security Instrument to protect Lender's security and to perform any of the covenants contained in this Security Instrument.

3. SECURED DEBTS. The term "Secured Debts" includes and this Security Instrument will secure each of the following:

A. Specific Debts. The following debts and all extensions, renewals, refinancings, modifications and replacements. A promissory note or other agreement, No. 2551100106/50, dated August 16, 2005, from Mortgagor to Lender, with a maximum credit limit of \$75,000.00, with an interest rate based on the then current index value as the promissory note prescribes and maturing on September 1, 2006. One or more of the debts secured by this Security Instrument contains a future advance provision.

B. All Debts. All present and future debts from Mortgagor to Lender, even if this Security Instrument is not specifically referenced, or if the future debt is unrelated to or of a different type than this debt. If more than one person signs this Security Instrument, each agrees that it will secure debts incurred either individually or with others who may not sign this Security Instrument. Nothing in this Security Instrument constitutes a commitment to make additional or future loans or advances. Any such commitment must be in writing. In the event that Lender fails to provide any required notice of the right of rescission, Lender waives any subsequent security interest in the Mortgagor's principal dwelling that is created by this Security Instrument. This Security Instrument will not secure any debt for which a non-possessory, non-purchase money security interest is created in "household goods" in connection with a "consumer loan," as those terms are defined by federal law governing unfair and deceptive credit practices. This Security Instrument will not secure any debt for which a security interest is created in "margin stock" and Lender does not obtain a "statement of purpose," as defined and required by federal law governing securities.

C. Sums Advanced. All sums advanced and expenses incurred by Lender under the terms of this Security Instrument when the evidence of indebtedness specifically states that it is secured by this Security Instrument.

4. PAYMENTS. Mortgagor agrees that all payments under the Secured Debts will be paid when due and in accordance with the terms of the Secured Debts and this Security Instrument. Mortgagor acknowledges that the interest rate, payment terms, or balance due on the loan may be indexed, adjusted, renewed or renegotiated.

5. WARRANTY OF TITLE. Mortgagor warrants that Mortgagor is or will be lawfully seized of the estate conveyed by this Security Instrument and has the right to grant, bargain, convey, sell and mortgage the Property. Mortgagor also warrants that the Property is unencumbered, except for encumbrances of record.

6. PRIOR SECURITY INTERESTS. With regard to any other mortgage, deed of trust, security agreement or other lien document that created a prior security interest or encumbrance on the Property, Mortgagor agrees:

A. To make all payments when due and to perform or comply with all covenants.

B. To promptly deliver to Lender any notices that Mortgagor receives from the holder.

C. Not to allow any modification or extension of, nor to request any future advances under any note or agreement secured by the lien document without Lender's prior written consent.

7. CLAIMS AGAINST TITLE. Mortgagor will pay all taxes, assessments, liens, encumbrances, lease payments, ground rents, utilities, and other charges relating to the Property when due. Lender may require Mortgagor to provide to Lender copies of all notices that such amounts are due and the receipts evidencing Mortgagor's payment. Mortgagor will defend title to the Property against any claims that would impair the lien of this Security Instrument. Mortgagor agrees to assign to Lender, as requested by Lender, any rights, claims or defenses Mortgagor may have against parties who supply labor or materials to maintain or improve the Property.

8. DUE ON SALE OR ENCUMBRANCE. Lender may, at its option, declare the entire balance of the Secured Debt to be immediately due and payable upon the creation of, or contract for the creation of, any lien, encumbrance, transfer or sale of all or any part of the Property. This right is subject to the restrictions imposed by federal law (12 C.F.R. 591), as applicable.

9. WARRANTIES AND REPRESENTATIONS. Mortgagor has the right and authority to enter into this Security Instrument. The execution and delivery of this Security Instrument will not violate any agreement governing Mortgagor or to which Mortgagor is a party.

10. PROPERTY CONDITION, ALTERATIONS AND INSPECTION. Mortgagor will keep the Property in good condition and make all repairs that are reasonably necessary. Mortgagor will not commit or allow any waste, impairment, or deterioration of the Property. Mortgagor will keep the Property free of noxious weeds and grasses. Mortgagor agrees that the nature of the occupancy and use will not substantially change without Lender's prior written consent. Mortgagor will not permit any change in any license, restrictive covenant or easement without Lender's prior written consent. Mortgagor will notify Lender of all demands, proceedings, claims, and actions against Mortgagor, and of any loss or damage to the Property.

No portion of the Property will be removed, demolished or materially altered without Lender's prior written consent except that Mortgagor has the right to remove items of personal property comprising a part of the Property that become worn or obsolete, provided that such personal property is replaced with other personal property at least equal in value to the replaced personal property, free from any title retention device, security agreement or other encumbrance. Such replacement of personal property will be deemed subject to the security interest created by this Security Instrument. Mortgagor will not partition or subdivide the Property without Lender's prior written consent.

Lender or Lender's agents may, at Lender's option, enter the Property at any reasonable time for the purpose of inspecting the Property. Lender will give Mortgagor notice at the time of or before an inspection specifying a reasonable purpose for the inspection. Any inspection of the Property will be entirely for Lender's benefit and Mortgagor will in no way rely on Lender's inspection.

11. AUTHORITY TO PERFORM. If Mortgagor fails to perform any duty or any of the covenants contained in this Security Instrument, Lender may, without notice, perform or cause them to be performed. Mortgagor appoints Lender as attorney in fact to sign Mortgagor's name or pay any amount necessary for performance. Lender's right to perform for Mortgagor will not create an obligation to perform, and Lender's failure to perform will not preclude Lender from exercising any of Lender's other rights under the law or this Security Instrument. If any construction

K. Property Transfer. Mortgagor transfers all or a substantial part of Mortgagor's money or property. This condition of default, as it relates to the transfer of the Property, is subject to the restrictions contained in the DUE ON SALE section.

L. Property Value. Lender determines in good faith that the value of the Property has declined or is impaired.

M. Insecurity. Lender determines in good faith that a material adverse change has occurred in Mortgagor's financial condition from the conditions set forth in Mortgagor's most recent financial statement before the date of this Security Instrument or that the prospect for payment or performance of the Secured Debts is impaired for any reason.

14. REMEDIES. On or after default, Lender may use any and all remedies Lender has under state or federal law or in any document relating to the Secured Debts. Any amounts advanced on Mortgagor's behalf will be immediately due and may be added to the balance owing under the Secured Debts. Lender may make a claim for any and all insurance benefits or refunds that may be available on Mortgagor's default.

Subject to any right to cure, required time schedules or any other notice rights Mortgagor may have under federal and state law, Lender may make all or any part of the amount owing by the terms of the Secured Debts immediately due and foreclose this Security Instrument in a manner provided by law upon the occurrence of a default or anytime thereafter.

All remedies are distinct, cumulative and not exclusive, and the Lender is entitled to all remedies provided at law or equity, whether or not expressly set forth. The acceptance by Lender of any sum in payment or partial payment on the Secured Debts after the balance is due or is accelerated or after foreclosure proceedings are filed will not constitute a waiver of Lender's right to require full and complete cure of any existing default. By not exercising any remedy, Lender does not waive Lender's right to later consider the event a default if it continues or happens again.

15. REDEMPTION. The period of redemption after sale on foreclosure will be one year if the real property sold consisted of a tract of land of more than twenty (20) acres, and within six (6) months after the sale if the real property sold consisted of a tract of land of twenty (20) acres or less. Any agreement to extend the redemption period must be in writing.

16. COLLECTION EXPENSES AND ATTORNEYS' FEES. On or after Default, to the extent permitted by law, Mortgagor agrees to pay all expenses of collection, enforcement or protection of Lender's rights and remedies under this Security Instrument or any other document relating to the Secured Debts. Mortgagor agrees to pay expenses for Lender to inspect and preserve the Property and for any recordation costs of releasing the Property from this Security Instrument. Expenses include, but are not limited to, attorneys' fees, court costs and other legal expenses. These expenses are due and payable immediately. If not paid immediately, these expenses will bear interest from the date of payment until paid in full at the highest interest rate in effect as provided for in the terms of the Secured Debts. In addition, to the extent permitted by the United States Bankruptcy Code, Mortgagor agrees to pay the reasonable attorneys' fees incurred by Lender to protect Lender's rights and interests in connection with any bankruptcy proceedings initiated by or against Mortgagor.

17. ENVIRONMENTAL LAWS AND HAZARDOUS SUBSTANCES. As used in this section, (1) Environmental Law means, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, 42 U.S.C. 9601 et seq.), all other federal, state and local laws, regulations, ordinances, court orders, attorney general opinions or interpretive letters concerning the public health, safety, welfare, environment or a hazardous substance; and (2) Hazardous Substance means any toxic, radioactive or hazardous material, waste, pollutant or contaminant which has characteristics which render the substance dangerous or potentially dangerous to the public health, safety, welfare or environment. The term includes, without limitation, any substances defined as "hazardous material," "toxic substance," "hazardous waste," "hazardous substance," or "regulated substance" under any Environmental Law.

Mortgagor represents, warrants and agrees that:

A. Except as previously disclosed and acknowledged in writing to Lender, no Hazardous Substance has been, is, or will be located, transported, manufactured, treated, refined, or handled by any person on, under or about the Property, except in the ordinary course of business and in strict compliance with all applicable Environmental Law.

B. Except as previously disclosed and acknowledged in writing to Lender, Mortgagor has not and will not cause, contribute to, or permit the release of any Hazardous Substance on the Property.

C. Mortgagor will immediately notify Lender if (1) a release or threatened release of Hazardous Substance occurs on, under or about the Property or migrates or threatens to migrate from nearby property; or (2) there is a violation of any Environmental Law concerning the Property. In such an event, Mortgagor will take all necessary remedial action in accordance with Environmental Law.

D. Except as previously disclosed and acknowledged in writing to Lender, Mortgagor has no knowledge of or reason to believe there is any pending or threatened investigation, claim, or proceeding of any kind relating to (1) any Hazardous Substance located on, under or about the Property; or (2) any violation by Mortgagor or any tenant of any Environmental Law. Mortgagor will immediately notify Lender in writing as soon as Mortgagor has reason to believe there is any such pending or threatened investigation, claim, or proceeding. In such an event, Lender has the right, but not the obligation, to participate in any such proceeding including the right to receive copies of any documents relating to such proceedings.

E. Except as previously disclosed and acknowledged in writing to Lender, Mortgagor and every tenant have been, are and will remain in full compliance with any applicable Environmental Law.

F. Except as previously disclosed and acknowledged in writing to Lender, there are no underground storage tanks, private dumps or open wells located on or under the Property and no such tank, dump or well will be added unless Lender first consents in writing.

on the Property is discontinued or not carried on in a reasonable manner, Lender may take all steps necessary to protect Lender's security interest in the Property, including completion of the construction.

12. ASSIGNMENT OF LEASES AND RENTS. Mortgagor absolutely, unconditionally, irrevocably and immediately assigns, grants, bargains, conveys and mortgages to Lender all the right, title and interest in the following (Property).

A. Existing or future leases, subleases, licenses, guaranties and any other written or verbal agreements for the use and occupancy of the Property, including but not limited to any extensions, renewals, modifications or replacements (Leases).

B. Rents, issues and profits, including but not limited to security deposits, minimum rents, percentage rents, additional rents, common area maintenance charges, parking charges, real estate taxes, other applicable taxes, insurance premium contributions, liquidated damages following default, cancellation premiums, "loss of rents" insurance, guest receipts, revenues, royalties, proceeds, bonuses, accounts, contract rights, general intangibles, and all rights and claims which Mortgagor may have that in any way pertain to or are on account of the use or occupancy of the whole or any part of the Property (Rents).

In the event any item listed as Leases or Rents is determined to be personal property, this Assignment will also be regarded as a security agreement. Mortgagor will promptly provide Lender with copies of the Leases and will certify these Leases are true and correct copies. The existing Leases will be provided on execution of the Assignment, and all future Leases and any other information with respect to these Leases will be provided immediately after they are executed. Lender grants Mortgagor a revocable license to collect, receive, enjoy and use the Rents so long as Mortgagor is not in default. Mortgagor's default automatically and immediately revokes this license. Mortgagor will not collect in advance any Rents due in future lease periods, unless Mortgagor first obtains Lender's written consent. Amounts collected will be applied at Lender's discretion to the Secured Debts, the costs of managing, protecting and preserving the Property, and other necessary expenses. Upon default, Mortgagor will receive any Rents in trust for Lender and Mortgagor will not commingle the Rents with any other funds. When Lender so directs, Mortgagor will endorse and deliver any payments of Rents from the Property to Lender. Mortgagor agrees that Lender will not be considered to be a mortgagee-in-possession by executing this Security Instrument or by collecting or receiving payments on the Secured Debts, but only may become a mortgagee-in-possession after Mortgagor's license to collect, receive, enjoy and use the Rents is revoked by Lender or automatically revoked on Mortgagor's default, and Lender takes actual possession of the Property. Consequently, until Lender takes actual possession of the Property, Lender is not obligated to perform or discharge any obligation of Mortgagor under the Leases, appear in or defend any action or proceeding relating to the Rents, the Leases or the Property, or be liable in any way for any injury or damage to any person or property sustained in or about the Property. Mortgagor agrees that this Security Instrument is immediately effective between Mortgagor and Lender and effective as to third parties on the recording of this Assignment. As long as this Assignment is in effect, Mortgagor warrants and represents that no default exists under the Leases, and the parties subject to the Leases have not violated any applicable law on leases, licenses and landlords and tenants. Mortgagor, at its sole cost and expense, will keep, observe and perform, and require all other parties to the Leases to comply with the Leases and any applicable law. If Mortgagor or any party to the Lease defaults or fails to observe any applicable law, Mortgagor will promptly notify Lender. If Mortgagor neglects or refuses to enforce compliance with the terms of the Leases, then Lender may, at Lender's option, enforce compliance. Mortgagor will not sublet, modify, extend, cancel, or otherwise alter the Leases, or accept the surrender of the Property covered by the Leases (unless the Leases so require) without Lender's consent. Mortgagor will not assign, compromise, subordinate or encumber the Leases and Rents without Lender's prior written consent. Lender does not assume or become liable for the Property's maintenance, depreciation, or other losses or damages when Lender acts to manage, protect or preserve the Property, except for losses and damages due to Lender's gross negligence or intentional torts. Otherwise, Mortgagor will indemnify Lender and hold Lender harmless for all liability, loss or damage that Lender may incur when Lender opts to exercise any of its remedies against any party obligated under the Leases.

13. DEFAULT. Mortgagor will be in default if any of the following occur:

A. Payments. Mortgagor fails to make a payment in full when due.

B. Insolvency or Bankruptcy. The death, dissolution or insolvency of, appointment of a receiver by or on behalf of, application of any debtor relief law, the assignment for the benefit of creditors by or on behalf of, the voluntary or involuntary termination of existence by, or the commencement of any proceeding under any present or future federal or state insolvency, bankruptcy, reorganization, composition or debtor relief law by or against Mortgagor, Borrower, or any co-signer, endorser, surety or guarantor of this Security Instrument or any other obligations Borrower has with Lender.

C. Death or Incompetency. Mortgagor dies or is declared legally incompetent.

D. Failure to Perform. Mortgagor fails to perform any condition or to keep any promise or covenant of this Security Instrument.

E. Other Documents. A default occurs under the terms of any other document relating to the Secured Debts.

F. Other Agreements. Mortgagor is in default on any other debt or agreement Mortgagor has with Lender.

G. Misrepresentation. Mortgagor makes any verbal or written statement or provides any financial information that is untrue, inaccurate, or conceals a material fact at the time it is made or provided.

H. Judgment. Mortgagor fails to satisfy or appeal any judgment against Mortgagor.

I. Forfeiture. The Property is used in a manner or for a purpose that threatens confiscation by a legal authority.

J. Name Change. Mortgagor changes Mortgagor's name or assumes an additional name without notifying Lender before making such a change.

G. Mortgagor will regularly inspect the Property, monitor the activities and operations on the Property, and confirm that all permits, licenses or approvals required by any applicable Environmental Law are obtained and complied with.

H. Mortgagor will permit, or cause any tenant to permit, Lender or Lender's agent to enter and inspect the Property and review all records at any reasonable time to determine (1) the existence, location and nature of any Hazardous Substance on, under or about the Property; (2) the existence, location, nature, and magnitude of any Hazardous Substance that has been released on, under or about the Property; or (3) whether or not Mortgagor and any tenant are in compliance with applicable Environmental Law.

I. Upon Lender's request and at any time, Mortgagor agrees, at Mortgagor's expense, to engage a qualified environmental engineer to prepare an environmental audit of the Property and to submit the results of such audit to Lender. The selection of the environmental engineer who will perform such audit is subject to Lender's approval.

J. Lender has the right, but not the obligation, to perform any of Mortgagor's obligations under this section at Mortgagor's expense.

K. As a consequence of any breach of any representation, warranty or promise made in this section, (1) Mortgagor will indemnify and hold Lender and Lender's successors or assigns harmless from and against all losses, claims, demands, liabilities, damages, cleanup, response and remediation costs, penalties and expenses, including without limitation, costs of litigation and attorneys' fees, which Lender and Lender's successors or assigns may sustain; and (2) at Lender's discretion, Lender may release this Security Instrument and in return Mortgagor will provide Lender with collateral of at least equal value to the Property without prejudice to any of Lender's rights under this Security Instrument.

L. Notwithstanding any of the language contained in this Security Instrument to the contrary, the terms of this section will survive any foreclosure or satisfaction of this Security Instrument regardless of any passage of title to Lender or any disposition by Lender of any or all of the Property. Any claims and defenses to the contrary are hereby waived.

18. CONDEMNATION. Mortgagor will give Lender prompt notice of any pending or threatened action by private or public entities to purchase or take any or all of the Property through condemnation, eminent domain, or any other means. Mortgagor authorizes Lender to intervene in Mortgagor's name in any of the above described actions or claims. Mortgagor assigns to Lender the proceeds of any award or claim for damages connected with a condemnation or other taking of all or any part of the Property. Such proceeds will be considered payments and will be applied as provided in this Security Instrument. This assignment of proceeds is subject to the terms of any prior mortgage, deed of trust, security agreement or other lien document.

19. INSURANCE. Mortgagor agrees to keep the Property insured against the risks reasonably associated with the Property. Mortgagor will maintain this insurance in the amounts Lender requires. This insurance will last until the Property is released from this Security Instrument. What Lender requires pursuant to the preceding two sentences can change during the term of the Secured Debts. Mortgagor may choose the insurance company, subject to Lender's approval, which will not be unreasonably withheld.

All insurance policies and renewals will include a standard "mortgage clause" and, where applicable, "loss payee clause." If required by Lender, Mortgagor agrees to maintain comprehensive general liability insurance and rental loss or business interruption insurance in amounts and under policies acceptable to Lender. The comprehensive general liability insurance must name Lender as an additional insured. The rental loss or business interruption insurance must be in an amount equal to at least coverage of one year's debt service, and required escrow account deposits (if agreed to separately in writing).

Mortgagor will give Lender and the insurance company immediate notice of any loss. All insurance proceeds will be applied to restoration or repair of the Property or to the Secured Debts, at Lender's option. If Lender acquires the Property in damaged condition, Mortgagor's rights to any insurance policies and proceeds will pass to Lender to the extent of the Secured Debts.

Mortgagor will immediately notify Lender of cancellation or termination of insurance. If Mortgagor fails to keep the Property insured, Lender may obtain insurance to protect Lender's interest in the Property and Mortgagor will pay for the insurance on Lender's demand. Lender may demand that Mortgagor pay for the insurance all at once, or Lender may add the insurance premiums to the balance of the Secured Debts and charge interest on it at the rate that applies to the Secured Debts. This insurance may include coverages not originally required of Mortgagor, may be written by a company other than one Mortgagor would choose, and may be written at a higher rate than Mortgagor could obtain if Mortgagor purchased the insurance. Mortgagor acknowledges and agrees that Lender or one of Lender's affiliates may receive commissions on the purchase of this insurance.

20. ESCROW FOR TAXES AND INSURANCE. Mortgagor will not be required to pay to Lender funds for taxes and insurance in escrow.

21. CO-SIGNERS. If Mortgagor signs this Security Instrument but is not otherwise obligated to pay the Secured Debts, Mortgagor does so only to mortgage Mortgagor's interest in the Property to secure payment of the Secured Debts and Mortgagor does not agree by signing this Security Instrument to be personally liable on the Secured Debts. If this Security Instrument secures a guaranty between Lender and Mortgagor, Mortgagor agrees to waive any rights that may prevent Lender from bringing any action or claim against Mortgagor or any party indebted under the obligation. These rights may include, but are not limited to, any anti-deficiency or one-action laws.

22. WAIVERS. Except to the extent prohibited by law, Mortgagor waives all appraisal and homestead exemption rights relating to the Property.

23. OTHER TERMS. The following are applicable to this Security Instrument:

A. Line of Credit. The Secured Debts include a revolving line of credit provision. Although the Secured Debts may be reduced to a zero balance, this Security Instrument will remain in effect until the Secured Debts and all underlying agreements have been terminated in writing by Lender.

24. APPLICABLE LAW. This Security Instrument is governed by the laws of Idaho, except to the extent otherwise required by the laws of the jurisdiction where the Property is located, and the United States of America.

25. JOINT AND INDIVIDUAL LIABILITY AND SUCCESSORS. Each Mortgagor's obligations under this Security Instrument are independent of the obligations of any other Mortgagor. Lender may sue each Mortgagor individually or together with any other Mortgagor. Lender may release any part of the Property and Mortgagor will still be obligated under this Security Instrument for the remaining Property. The duties and benefits of this Security Instrument will bind and benefit the successors and assigns of Lender and Mortgagor.

26. AMENDMENT, INTEGRATION AND SEVERABILITY. This Security Instrument may not be amended or modified by oral agreement. No amendment or modification of this Security Instrument is effective unless made in writing and executed by Mortgagor and Lender. This Security Instrument and any other documents relating to the Secured Debts are the complete and final expression of the agreement. If any provision of this Security Instrument is unenforceable, then the unenforceable provision will be severed and the remaining provisions will still be enforceable.

27. INTERPRETATION. Whenever used, the singular includes the plural and the plural includes the singular. The section headings are for convenience only and are not to be used to interpret or define the terms of this Security Instrument.

28. NOTICE, FINANCIAL REPORTS, ADDITIONAL DOCUMENTS AND RECORDING TAXES. Unless otherwise required by law, any notice will be given by delivering it or mailing it by first class mail to the appropriate party's address listed in the DATE AND PARTIES section, or to any other address designated in writing. Notice to one Mortgagor will be deemed to be notice to all Mortgagors. Mortgagor will inform Lender in writing of any change in Mortgagor's name, address or other application information. Mortgagor will provide Lender any financial statements or information Lender requests. All financial statements and information Mortgagor gives Lender will be correct and complete. Mortgagor agrees to pay all expenses, charges and taxes in connection with the preparation and recording of this Security Instrument. Mortgagor agrees to sign, deliver, and file any additional documents or certifications that Lender may consider necessary to perfect, continue, and preserve Mortgagor's obligations under this Security Instrument and to confirm Lender's lien status on any Property, and Mortgagor agrees to pay all expenses, charges and taxes in connection with the preparation and recording thereof. Time is of the essence.

SIGNATURES. By signing, Mortgagor agrees to the terms and covenants contained in this Security Instrument. Mortgagor also acknowledges receipt of a copy of this Security Instrument.

CONDITIONS OF APPROVAL

1. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the department for measuring the flow from both artesian wells and any water being injected into Willow Creek and at all points of re-diversion from Willow Creek.
2. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
4. This right is limited to the irrigation of 150 acres within the place of use described above in a single irrigation season.

WATER RIGHT NO. 37-2614
As Modified by Transfer No. 69843

CONDITIONS OF APPROVAL

5. The total instantaneous diversion of water from all points of diversion under Rights 37-2614 and 37-14289 shall not exceed 2.00 cfs, nor total combined annual volume of 500.8 af.
6. Rights 37-2614, 37-14289 and 37-1153B when combined shall not exceed a total diversion rate of 3.40 cfs and the irrigation of 164.5 acres.
7. Rights 37-2614, 37-14289 and 37-1153B are all diverted or re-diverted through the point(s) of diversion on Willow Creek described above.
8. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
9. If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
10. After specific notification by the Department, the right holder shall measure the diversion or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
11. The diversion and use of water described in this right may be subject to additional conditions and limitations as described in the SRBA court order dated 1/28/2002 which approved the stipulated agreement between parties for the use of the artesian well located within the NENE S13, T01S, R18E. Said order may be enforceable by a court of law.
12. Right No. 37-14289 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
13. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
14. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. Approval of this transfer does not preclude the opportunity for review of the validity of this water right in the ongoing Snake River Basin Adjudication.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

37-14290 in the name of Stasz

SUBJECT: Field Visit - Measurement of well

In response to a request of the watermaster and complaints of Geoffrey Smith regarding illegal use of ground water by Stasz John Freitag and I visited the well. During the site visit we measured the flow of the well, the diversion to Dreyer and the diversion to Smith. During the site visit Ken Dreyer, Geoffrey Smith, Mark Stasz and Lee Peterson were present at one time and another.

Well: We measured the well using the Fugi meter. We found 1.80 cfs flowing from the well.

Dreyer Diversion: We measured the Dreyer Diversion from the well using the installed 1.5foot contracted rectangular weir installed below the pond on a ditch flowing west from the pond which eventually flows into Willow Creek and down to the Dreyer property. We found 1.11 cfs at this diversion.

Slide gate in pond.

Weir below pond.

Smith Diversion: We measured the Smith diversion from the well using a portable ramped flume which was placed in the ditch flowing west from the pond to the Smith property. We found 0.65 cfs flowing in this ditch.

Diversion from pond toward the south.

Small pond south below large pond with flow going west under road.

Portable flume in ditch flowing west.

The dispute arises over the splitting of the water from the well. Mr. Smith contends that Stasz has no right to the use of the well and all use is covered under the Dreyer vs. Smith court case 92-00017 which Stasz was not nor his predecessor party to. Smith indicates he tried to irrigate the Stasz land in the past but was not able to because of the difficulty of gravity distribution of water on the property. He indicated that if the Stasz land has ever been irrigated from ground water it would have had to come from the Pearson well located southwest of this well. He attributes the confusion over the water with past owners of the property and the way the property has been split up.

Stasz has apparently earlier in season put a portable pump in the pond and watered around the pond. He is currently installing an irrigation system on the property which will utilize water in willow creek. (potentially water from the well).

Our office has been hesitant to instruct Stasz not to utilize the well or not to install the irrigation system since the SRBA claims have not yet been fully investigated.

DESCRIPTIVE SUMMARY

This is an order adopting the stipulation between the parties in the above-captioned subcase, resolving the issues raised in Plaintiff's Verified Complaint.

II.

PROCEDURAL BACKGROUND

1. On May 15, 1998, Robert Dreyer filed a verified complaint seeking a preliminary injunction against Geoffrey C. Smith.

ORDER APPROVING STIPULATION FOR REGULATION OF WATER RIGHT CLAIMS UNTIL
DIRECTOR'S REPORTS ARE FILED - 1

JAN 25 2002 4:55 PM FR

2. On May 19, 1998, an order to show cause as to why the preliminary injunction should not issue was issued and hearing set for May 28, 1998. As of May 28, 1998, the parties submitted to the Court a stipulated motion to vacate the hearing.
3. On July 10, 2001, a status conference was held. An additional status conference was held on October 11, 2001 and another Order to Show Cause was issued as of that same date. The show cause hearing was scheduled for January 14, 2002.
4. A *Stipulation for Regulation of Water Right Claims until Director's Reports are Filed* ("*Stipulation*") executed by the parties involved was submitted to the Court on January 10, 2002. IDWR also concurred with this stipulation as evidenced by the signature of Nicholas Spencer. The Order to Show Cause hearing was thus vacated by order issued January 11, 2002.

III.

ORDER RE: STIPULATION FOR REGULATION OF WATER RIGHT CLAIMS UNTIL
DIRECTOR'S REPORTS ARE FILED

In accordance with the *Stipulation* filed in this above captioned subcase, which is attached hereto and incorporated herein by reference, the Court accepts the written stipulation in its entirety and hereby orders:

1. Smith shall divert no more than .32 cfs, or 16 inches, into his ditch from the artesian well and collector pond located in the NE NE NE. Sec. 12, T. 1 S., R. 18 E., B.M., Blaine County, pursuant to SRBA Claim No. 37-04159 and an additional .48 cfs, or 24 inches, into the same diversion system pursuant to the unnumbered claim from the same source with a priority date of June 1, 1959.
2. Dreyer shall divert no more than 2.0 cfs, or 100 inches, into his ditch from said artesian well and collector pond, pursuant to SRBA Claim Nos. 37-02614 and 37-14289. Dreyer

shall be entitled to divert this quantity of water prior to Smith's diversion of any additional water under the unnumbered claim referred to in paragraph 1 above.

3. Neither party shall interfere with the other party's diversion and use of water under their respective water right claims, or necessary access to the artesian well and pond, or their respective diversion works and ditches.
4. The parties shall install headgates and rating flumes, or other regulating and measuring devices, at the inlet of their respective ditches, sufficient to regulate and verify the amount of water diverted during the irrigation season. Said regulating and measuring devices shall be set to provide for delivery of water consistent with paragraphs 1 and 2 above and according to the priority of these four rights as claimed, as between those four groundwater right claims. Said regulating and measuring devices shall be installed and verified by an independent engineer, under the supervision of the parties, on or before June 15, 2002. The regulating and measuring devices shall be approved by the Idaho Department of Water Resources and/or the Watermaster for Water District No. 37. Each party shall be responsible for their own costs in installing and maintaining their respective regulating and measuring devices.
5. Adjustments to the regulating and measuring devices shall be made by the Idaho Department of Water Resources, the Watermaster for Water District No. 37, or the Watermaster's agents.
6. Neither party will adjust or interfere with the other party's regulating or measuring devices without prior written approval from the other party and authorization from the Idaho Department of Water Resources, the Watermaster for Water District No. 37, or the Watermaster's agents.

7. The parties shall cooperate in filing documents and seeking judicial and administrative approval for interim regulation of the claims consistent with the *Stipulation* pending their investigation, recommendation, and determination in the SRBA.
8. Any water from the artesian well and collector pond in excess of that which is diverted by the parties pursuant to their respective water rights will be allowed to flow to Willow Creek. The parties shall pay the Idaho Department of Water Resources, the Watermaster For Water District No. 37, or the Watermaster's agents for administration according to the rates and charges made by the respective entity for administration within Water District No. 37.
9. Concurrence with the *Stipulation* by IDWR shall not be construed as recognition of the validity of any of the claims listed in paragraphs 1 and 2. The parties agree that the validity of these claims will be determined in the SRBA.
10. The *Stipulation* may be specifically enforced by the parties, as damages at law are not an adequate remedy, by filing for an order to show cause before the presiding judge of the Snake River Basin Adjudication. The parties agree to waive any right to contest the jurisdiction of this Court regarding enforcement of the *Stipulation*. The parties reserve all other rights and remedies. This paragraph shall not be construed as a limitation on such other rights and remedies.
11. The parties shall act consistently and in accordance with all terms and provisions of the *Stipulation*.

IT IS FURTHER HEREBY ORDERED that the action between these two parties identified as subcase 92-00017 is hereby dismissed without prejudice.

Case No. 39576

ROBERT DREYER,

vs.

GEOFFREY C. SMITH,

Defendant.

Subcase No. 92-00017

STIPULATION FOR REGULATION OF
WATER RIGHT CLAIMS UNTIL
DIRECTOR'S REPORTS ARE FILED

RECEIVED
JUL 23 2003
Department of Water Resources
Southern Region

DESCRIPTIVE SUMMARY

This is a stipulation between the parties in the above-captioned subcase,
resolving the issues raised in Plaintiff's Verified Complaint.

STIPULATION

COME NOW, the Plaintiff, Robert Dreyer, and the Defendant, Geoffrey C. Smith,
in the above-captioned matter, by and through their attorneys of record, and stipulate
and agree as follows:

1. Smith shall divert no more than .32 cfs, or 16 inches, into his ditch from the artesian well and collector pond located in the NE NE NE, Sec. 12, T. 1 S., R. 18 E., B.M., Blaine County, pursuant to SRBA Claim No. 37-04159 and an additional .48 cfs, or 24 inches, into the same diversion system pursuant to the unnumbered claim from the same source with a priority date of June 1, 1959.
2. Dreyer shall divert no more than 2.0 cfs, or 100 inches, into his ditch from said artesian well and collector pond, pursuant to SRBA Claim Nos. 37-02614 and 37-14289. Dreher shall be entitled to divert this quantity of water prior to Smith's diversion of any additional water under the unnumbered claim referred to in paragraph 1 above.
3. Neither party shall interfere with the other party's diversion and use of water under their respective water right claims, or necessary access to the artesian well and pond, or their respective diversion works and ditches.
4. The parties shall install headgates and rating flumes, or other regulating and measuring devices, at the inlet of their respective ditches, sufficient to regulate and verify the amount of water diverted during the irrigation season. Said regulating and measuring devices shall be installed and verified by an independent engineer, under the supervision of the parties, on or before June 15, 2002. The regulating and measuring devices shall be approved by the Idaho Department of Water Resources and/or the Watermaster for Water District No. 37. Each party shall be responsible for their own costs in installing and maintaining their respective regulating and measuring devices.

5. Said regulating and measuring devices shall be set to provide for delivery of water consistent with paragraphs 1 and 2 above and according to the priority of these four rights as claimed, as between those four groundwater right claims.
6. Each party agrees that adjustments to the regulating and measuring devices shall be made by the Idaho Department of Water Resources, the Watermaster for Water District No. 37, or the Watermaster's agents. Neither party will adjust or interfere with the other party's regulating or measuring devices without prior written approval from the other party and authorization from the Idaho Department of Water Resources, the Watermaster for Water District No. 37, or the Watermaster's agents.
7. The parties further agree that IDWR, the Watermaster for Water District No. 37, or the Watermaster's agents are voluntarily consenting to make said adjustments. The parties understand and agree that IDWR, the Watermaster for Water District No. 37, or the Watermaster's agents are under no legal obligation or compulsion to regulate said measuring devices until (1) these claims are recommended or partially decreed in the SRBA and the SRBA Court has entered an order for interim administration pursuant to Idaho Code § 42-1417 or (2) these claims have been decreed and incorporated into a water district organized pursuant to Chapter 6, Title 42, Idaho Code. Additionally, the parties agree that IDWR, the Watermaster for Water District No. 37, or the Watermaster's agents will not regulate delivery of water under these claims in such a manner as to cause injury to other water rights.

8. Each party agrees that, while the water addressed by this Stipulation has its source as groundwater and is not presently regulated by the Watermaster for Water District No. 37, the water is commingled in a pond and, to some undefined extent, its use may impact surface flows in Willow Creek, a stream historically regulated by the Watermaster. Therefore, the parties shall cooperate in filing documents and seeking judicial and administrative approval for interim regulation of the claims consistent with this Stipulation pending their investigation, recommendation, and determination in the SRBA. It is understood and agreed that any water from the artesian well and collector pond in excess of that which is diverted by the parties pursuant to their respective water rights will be allowed to flow to Willow Creek. The parties each agree to pay the Idaho Department of Water Resources, the Watermaster For Water District No. 37, or the Watermaster's agents for administration according to the rates and charges made by the respective entity for administration within Water District No. 37.
9. Each party reserves the right to object to or contest, in the Snake River Basin Adjudication or elsewhere, the other's claims that are identified in paragraphs 1 and 2 above after Director's Reports are filed.
10. Concurrence with the Stipulation by IDWR shall not be construed as recognition of the validity of any of the four claims listed in paragraphs 1 and 2. The parties agree that the validity of these claims will be determined in the SRBA.
11. This Agreement may be specifically enforced by the parties, as damages at law are not an adequate remedy, by filing for an order to show cause before the presiding judge of the Snake River Basin Adjudication. The parties agree to

waive any right to contest the jurisdiction of this Court regarding enforcement of this Agreement. The parties reserve all other rights and remedies. This paragraph shall not be construed as a limitation on such other rights and remedies.

12. If the commencement of any further judicial, administrative, or other legal action is required to enforce the terms of this Stipulation, the offending party shall pay the costs and attorney fees incurred by the other party in pursuing said action.
13. Each party shall pay their own costs and attorney fees incurred to date in the above-captioned subcase.
14. The parties jointly move the SRBA District Court for an order consistent with this Stipulation, including any order for interim regulation of these rights according to this Stipulation.
15. This Stipulation may not be modified, except as agreed to in writing by the parties.
16. Upon entry of an order by the Court consistent with this Stipulation, the parties agree to dismissal of the current action, without prejudice.

Bob --

Here is what was filed with the SRBA Court around 5:00 today. I'll get you a copy of the fully signed document when I receive it. Unless the Judge has major problems with it (which I don't anticipate), there should be no hearing on Monday.

Sometime relatively soon, we should all sit down with Lee Peterson and discuss implementation of this agreement for the upcoming irrigation season. We'll probably try to get a meeting set up there in Lee's office in the next few months.

Call or e-mail any questions. Thanks.

Bob --

These measuring device designs from Brockway look good to me, but let me know what you think. Thanks.

 > & Norm, Here are two pdf files with preliminary drawings of the
 >measuring devices. I evaluated all feasible options, but ended up
 >selecting standard sharp-crested weirs. These are simple, easy to
 >construct, and should work for the long term. The Smith weir will be a
 >V-notch weir, which allows accurate measurements of lower flows (0 to 1
 >cfs). The Dreyer weir will be a standard rectangular weir. I assume the
 >maximum flow of the well is 3.0 cfs (150 inches). The Dreyer weir is
 >designed to carry this entire flow. On 5/31/02, the discharge from the
 >well was 1.16 cfs. Prior to finalizing the drawings, I need to get some
 >elevation shots at the site in order to set the elevations of the two
 >structures. I believe Sliman& Butler can construct these with no problem
 >– we have worked with them on similar projects in the past. The
 >slide gates can be ordered from Waterman, but to reduce the cost I would
 >recommend having the gates fabricated locally. We use a metal fabricator
 >in Kimberly that does a very good job. On the well, I believe the best
 >approach for flow measurement is an in-pipe propeller-type meter such as a
 >McCrometer. This will read flow in cfs and total volume in acre-feet. The
 >only drawback to this type of meter is its longevity – it will
 >typically need to be replaced about every 5 years. The discharge pipe must
 >be full for the meter to operate properly, but at lower flows the pipe does
 >not flow full. Therefore, a gate valve is needed on the end of the pipe to
 >apply slight back-pressure to induce full flow. This will not reduce the
 >discharge from the well as long as the valve is not closed more than
 >needed. Charles G. Brockway, pH.D., P.E. Brockway Engineering, PLLC

1. DESIGN DISCHARGE RANGE = 0.04 TO 0.80 CFS (2 TO 40 INCHES).
2. DEWATER THE WORK AREA BY SHUTTING OFF THE ARTESIAN WELL AND/OR DIVERTING WATER TO THE OTHER POOL OUTLET AND CONSTRUCTING A COFFER DAM.
3. CONCRETE SHALL HAVE A 28-DAY COMPRESSIVE STRENGTH NOT LESS THAN 3000 PSI.
4. PLACE NO. 4 STEEL REBAR IN CONCRETE AT 12" O.C. EACH WAY.
5. BEDDING FOR STRUCTURE SHALL BE NATIVE GRAVEL AND SAND MATERIAL. NO PEAT, MUCK, OR CLAY IS ALLOWED.
6. ATTACH STEEL WEIR PLATE TO CONCRETE WITH 3/8" STAINLESS STEEL ANCHOR BOLTS.
7. CONCRETE STRUCTURE MUST BE LEVEL WITHIN $\pm 1/8"$.
8. WEIR CREST MUST BE LEVEL TO WITHIN $\pm 1/16"$.
9. STAFF GAUGE ZERO ELEVATION MUST EQUAL WEIR CREST ELEVATION TO WITHIN $\pm 1/16"$.
10. WEIR CREST MUST BE FILED TO A CLEAN EDGE ON THE UPSTREAM AND DOWNSTREAM SIDES.
11. SLIDE GATE SHALL BE EITHER FABRICATED TO ENGINEER'S SPECIFICATIONS, OR SHALL BE A WATERMAN QSR-5FY 30X30 STEEL SLIDE GATE.
