Well supplying 10 homes incorporating 3 pressure tanks. See license backfile. We are updating the legal description. The association believes the original well was located within the NESW near the southeast area that the association supplies water to (Hatfield's property). Then water quality issues required a new well to be completed. The newer well is located where claimed in the SENW Gov Lot 3. To our best knowledge, the well driller report in the backfile is for the newer well that replaced the old well.
