MEMORANDUM

DATE: December 7, 2006

TO: SRBA Claim File 37-20803

FROM: Shelley W. Keen *SWK*

RE: Notice of Error

Right 37-20803 is diverted from the Broadford Slough. IDWR is recommending that the Broadford Slough be considered a channel of the Big Wood River, and the source for all Broadford Slough diversions is being listed as the Big Wood River, which is tributary to the Malad River. The claimants submitted a Notice of Error requesting that their right show the tributary as Broadford Slough, so it would be Big Wood River tributary to Broadford Slough. I called this morning and left them a message explaining that IDWR is recommending all the Broadford Slough rights as Big Wood River tributary to the Malad River.

MEMO

TO: FILE DATE: 5-17-01
FROM: JIM STANTON

RE: Temporary Transfer For Max Thompson, Rt. 37-687

Today I got a call from Mr. Thompson. He said that he had 100 inches of water that was not deliverable from the Rockwell 40 Canal, and that he would like to transfer it into the District Canal this year as a carrier for the other rights there. Since Allen is not here today, the responsibility has fallen to me to follow up on this matter.

Since the normal thing is to transfer water from one farm to another, I called Norm to see if this would work. Thompson said that he could move it to a specific farm if needed. Norm said that we might be able to move it just to the District Canal, and suggested that I call Lee Peterson before proceeding.

I then called Lee, who said that this right has not been used by Mr. Thompson since at least 1986. The delivery ditch is too high, or has moved, or something like that so that it is no longer usable. A little water was put in the ditch in 1995, but Lee thought that someone else used it that year. So the 687 right has been left in the river since at least 1986. Lee said that he would have no problem turning this right into the District Canal if we approve a temporary transfer. This right was cut off once already due to low river flows. The river came up, so the right was available for a few days. But the river is dropping again, so the right is probably not available right now anyway.

I relayed this info to Norm, who said that we would not be able to approve a temporary transfer due to forfeiture. But we would process an application if one is filed. If we officially deny it, Thompson could appeal the ruling.

I then called Thompson back to relay Norm's message. Thompson asked me to fax an application to him, which I did. I also faced a printout of the SRBA claim. I will put a copy of this memo in the claim file for their info whether a transfer is filed or not; no point in wasting good info.

Substance of Communication he called with a couple of questions on a claim I had recently sent him which was created as a result of Transfer #4426. He indicated Jim Speck didn't represent him - I removed his name; he questioned the loss of .04 cfs during transfer process. - I explained that .02 cfs per acre was all that was allowed for sprinkled acres (13.2 ac. x .02 = .26 cfs instead of .3 like he proposed) so the .04 was essentially forfeited. We also discussed the surface water right (A37-00687) which was also appurtenant to that same land. I told him I wasn't sure whether he should have a portion of that right or not, and suggested he contact either the watermaster or previous owners to see if that right should also be split among the subdivision owners...

RE: Snake River Basin Adjudication SRBA
Claim #A37-00687 - Blaine County

Dear Mr. Speck:

As you requested, I am forwarding to you a copy of the above referenced claim which has been processed by the Department.

As we discussed in regard to the claim filed by Mr. Crist in the name of Bradford Polo Subdivision, that claim was returned to Mr. Crist for corrections and proper fee. If that claim is resubmitted, since the extended deadline of March 6, 1989, was not met, a late fee will apply unless an extension of time request is approved. I have enclosed an extension of time request form for your possible use in this matter.

As you will recall from our conversation, there are several problems with the claim which is based on License #37-02639. Specifically, the correct fee is \$50 (irrigated lands paid under Claim #A37-00687); and, a power of attorney needs to be attached.

In regard to the fire protection listed on that claim, if the purpose is actually emergency fire fighting/suppression, it does not constitute an expansion and would not, therefore, require a separate claim; however, please describe that use in Item 9.

Please forward it to my attention. The claim will be returned and a refund of the fees paid under Receipt #C007056, will be started after 30 days unless the additional fees are paid.

Mr. Speck called to find out the status of the above referenced claims. He stated that he was representing a client who was purchasing the property. After tracking down the claims, I gave him the following info:

A37-00687 had been processed. (I had to do the data entry; it has been returned with add'l fee and just hadn't been data entered.

A37-02639 - this claim was returned to R.

Christ 2-7-89. However the cover letter returning the claim was in error. Mr. Speck specifically stated that Mr. Christ had gotten the claim back, didn't understand the letter, so he just put it aside and did not deal with it. Although the cover letter didn't explain the problems appropriately, there were problems (inc. fees) which did require corrections.

Claim #A37-00687 - Blaine County

Dear Claimants:

We are returning your Notice of Claim #A37-00687 to a Water Right filed for a property in Blaine County and your receipt #C005950 in the amount of \$25.00. We have noted some problems with your claim which we would like you to correct.

At Item #8, you have failed to indicate the amount of consumptive use for your property. For your legal description the Department recommends 125 acre feet per annum. You are claiming 50 acres of irrigated land, therefore your consumptive use would be 125 acre feet per annum. If this does not agree with your actual usage, please explain at Item #14, "Remarks".

According to Item #12, if you do not own the lands described, you should have indicated your authority to claim water rights for the property in Item #14.

Finally, irrigation claims are assessed a flat fee of \$50.00 per claim plus a \$1.00 per acre variable fee. Therefore you should have submitted a \$100.00 fee with your claim. As you have submitted a check for \$25.00 you must send an additional \$75.00.
