Priority Date Explanation:

Use of water under this right shall be non-consumptive.

Use of water under this right shall recognize and allow the continued beneficial diversion of water under any prior existing water right established by diversion and application to beneficial use or by an application, permit, or license on file issued by the Director under provisions of Chapter 2, Title 42, Idaho Code, with a priority of the water right dated earlier than 11/09/90, the priority date of this right.

Upon the future finding and order of the Director that gauging stations are required to maintain the approved minimum flows on East River, North Fork and its tributaries, such measuring devices shall be permanently installed as specified by the Department.

The Director retains jurisdiction to review and amend any and all parameters of this right. The Board, upon receiving a request, or upon its own initiative, may petition the Director for an amendment to the right. The petition must set forth any significant change in circumstances and evidence of public interest supporting the proposed amendment. The Director will notify the general public and specific persons or known interested parties of the proposed change, and conduct a hearing for the purpose of determining whether the right should be amended in the public interest. The burden of proof at the hearing shall be upon the person or parties seeking the amendment to establish that the amendment of the right would be in the public interest.

This minimum stream flow is for the entire length of the North Fork of East River from its headwaters in the SESE, S10, T59N, R3W, downstream approximately 9.25 miles to its confluence with the Middle Fork of East River in the NENW, S23, T58N, R4W.

The purpose of this instream flow is for the protection of fish and wildlife habitat.
