RE: Awalt claims

Dear Dr. Brockway:

You will find enclosed copies of the computer records for the stock water claims filed by Awalt. Also enclosed are a receipt #S027139 for the fees submitted, the original amended claims for 37-7938 and 37-4191, and a printout of the new claim for 37-2018.

The amended claims could not be processed without an ownership change from Waller to Awalt, as we discussed by phone last week, and therefore are being returned to you. Please note that the amendments and claim 37-2018 identify an incorrect legal description for the point of diversion. The claims also identify 112 acres where original filings only identified (and paid fees for) 109 acres.

New claim 37-2018 was accepted as claimed; however the following are brought to your attention for consideration. In addition to the incorrect diversion point description and variable fee shortfall, it appears that an unusually recent priority date was claimed. I have included a printout of the water right database record for the license for your reference. I would also point out that license 37-2018 is nowhere appurtenant to the claimed land. Should Mr. Awalt wish to continue with claim 37-2018, and in light of the commencing claim review in the area, I am requesting explanation of his possessory interest in the license.

Sincerely,

Douglas Jones, P. E.
