11. Other Water Rights Used:

12. Remarks:

Priority Date Explanation:

This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.

Right 97-07318 is also diverted through the point of diversion described above.

The diversion and use of water for hydropower purposes under this license is subject to review by the Director on or after June 30, 2010. Upon appropriate findings relative to the interest of the

public, the Director may cancel all or any part of the use authorized herein and may revise, delete or add conditions under which the right may be exercised.

This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

Rights 97-07318 and 97-07385 when combined shall not exceed a total diversion rate of 0.06 cfs.

The water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Use of water under this right shall be non-consumptive.

After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
