Re: Cow Creek Irrigation Company, Inc. Water Right #37-02016

Dear Sir or Madam:

Enclosed please find a Notice of Change in Water Right Ownership. Lou Anderson indicates that he talked to "Wyoming Cowboy" and was advised that due to the nature of this change there would be no fee.

Cow Creek Irrigation Company, Inc., is no longer a valid Idaho corporation. The land to which this water is appurtenant is owned by Zane and Ruth Harrison. There is also land to which this water is appurtenant that is owned by Boyd Harrison. The purpose of this notice is to correctly identify the landowners with the Water Right.

If I have been incorrectly advised please let me know and we will take whatever steps are necessary to complete this transaction.

This portion of Water Right #37-02016 should be appurtenant to 120 acres located in Township 1 South, Range 12 EBM, Section 17. Specifically 40 acres in the NENE, 40 acres in the SWNE, and 40 acres in the SENE.

Thank you for your cooperation and assistance in resolving this matter.

Sincerely,

Craig D. Hobdey

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Notes

T1S R11E Sections 12 & 13; T1S R12E Section 17

- The legal description on 37-2016 appears to have an error, the Range should be 12E.
- 37-2016 licensed 6.4 cfs from Cow Creek Reservoir. Although the license mentions Cow Creek Reservoir, the license is only for the live flow into and through the reservoir, not the storage water. To claim the 400 AF of storage water in Cow Creek Reservoir, the claimants need to file Beneficial Use claims. A review of the license documents indicates that the dam was constructed in 1905-1906 and water use from Cow Creek Reservoir began in 1907. Assuming the reservoir started filling sometime before the start of the irrigation season on 4/15, I am assigning a priority date of 1/1/1907.
- Duty of water:
 - Live flow – Licensed for 6.4 cfs on 320 acres: 0.02 cfs/acre
 - Live flow – Claimed 6.4 cfs on 220 acres: 0.029 cfs/acre
 - Storage – claimed 400 AF on 220 acres: 1.82 AF / acre
 - Storage – recommended 400 AF on 195 acres: 2.05 AF / acres
 - Summary: The proportional split used on these rights was inaccurate because 37-21390 claimed 40 acres, but only irrigates 15 acres. The extra 0.72 cfs of water in 37-21390 could be allocated to the other three claims, but those claims did not claim enough for the extra water and they are already at greater than 0.02 cfs/acre. The claimed live flow of 0.72 not recommended to 37-21390 will remain unallocated. The storage component is recalculated fully allocated at 2.05 AF/acre to the new claims being filed.
- Recommendations:
 - Zane Harrison
 - 37-21387
 - 3.5 cfs from Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 120 acres

Re: Snake River Basin Adjudication claim 37-21387 and 37-21951

Mr. & Mrs. Harrison,

You filed water right claim 37-21387 (attached) in the Snake River Basin Adjudication for water from Cow Creek and Cow Creek Reservoir based on water right 37-2016 (attached). Three other claims were also filed against 37-2016 for water from Cow Creek and Cow Creek Reservoir. Here is a summary of all the claims:

37-21387 (Zane Harrison) claimed:

- 3.5 cfs for Irrigation of 120 acres
- 218.2 Acre Feet (AF) for Irrigation Storage
- 218.2 AF for Irrigation from Storage

37-21388 (Boyd Harrison) claimed:

- 1.16 cfs for Irrigation of 40 acres
- 72.7 AF for Irrigation Storage
- 72.7 AF for Irrigation from Storage

37-21389 (Aldecoa Family) claimed:

- 0.58 cfs for Irrigation of 20 acres
- 36.4 AF for Irrigation Storage
- 36.4 AF for Irrigation from Storage

37-21390 (Jack Andersen) claimed:

- 1.16 cfs for Irrigation of 40 acres
- 72.7 AF for Irrigation Storage
- 72.7 AF for Irrigation from Storage

Your claim is based on water right 37-2016, which is licensed for 6.4 cfs from Cow Creek Reservoir. Although that license lists the source as Cow Creek Reservoir, the license is actually for water flowing in Cow Creek, not the storage water in the reservoir. To claim your portion of the 400 AF of storage water in Cow Creek Reservoir, you need to file an additional water right claim. Attached is a draft water right claim for your portion of the storage water in Cow Creek Reservoir. The priority date of 1/11/1907 on the claim is based historical documents that indicate that the dam was constructed in 1905-1906 and water use from Cow Creek Reservoir began in 1907. I have allocated the storage water in Cow Creek Reservoir to each claimant based on the number of acres each claimant irrigates. Below is a summary of my proposed allocations for Cow Creek and Cow Creek Reservoir:

Zane Harrison

- 37-21387
 - 3.5 cfs from Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 120 acres
- 37-21951
 - 246 AF from Cow Creek Reservoir for Irrigation Storage
 - 246 AF from Cow Creek Reservoir for Irrigation from Storage

Boyd Harrison

- 37-21388
 - 1.16 cfs from Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 40 acres
- 37-21953
 - 82 AF from Cow Creek Reservoir for Irrigation Storage
 - 82 AF from Cow Creek Reservoir for Irrigation from Storage

Aldecoa Family

- 37-21389
 - 0.58 cfs from Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 20 acres
- 37-37-21954
 - 41 AF from Cow Creek Reservoir for Irrigation Storage
 - 41 AF from Cow Creek Reservoir for Irrigation from Storage

Jack Andersen

- 37-21390
 - 0.44 cfs from Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 15 acres
- 37-21955
 - 31 AF from Cow Creek Reservoir for Irrigation Storage
 - 31 AF from Cow Creek Reservoir for Irrigation from Storage
- Unallocated
 - 0.72 cfs Cow Creek, East Fork Cow Creek, and Chicken Creek for Irrigation of 25 acres

Please review the attached is claim (37-21951). If you feel it represents your water right, sign the claim, have it notarized, and return it to me with a check for \$100 (filing fee for a new claim). You must return the attached water right claim with a check for \$100, for the claim to be valid.

Feel free to contact me at (208) 287-4937 if you have any questions.

Sincerely,

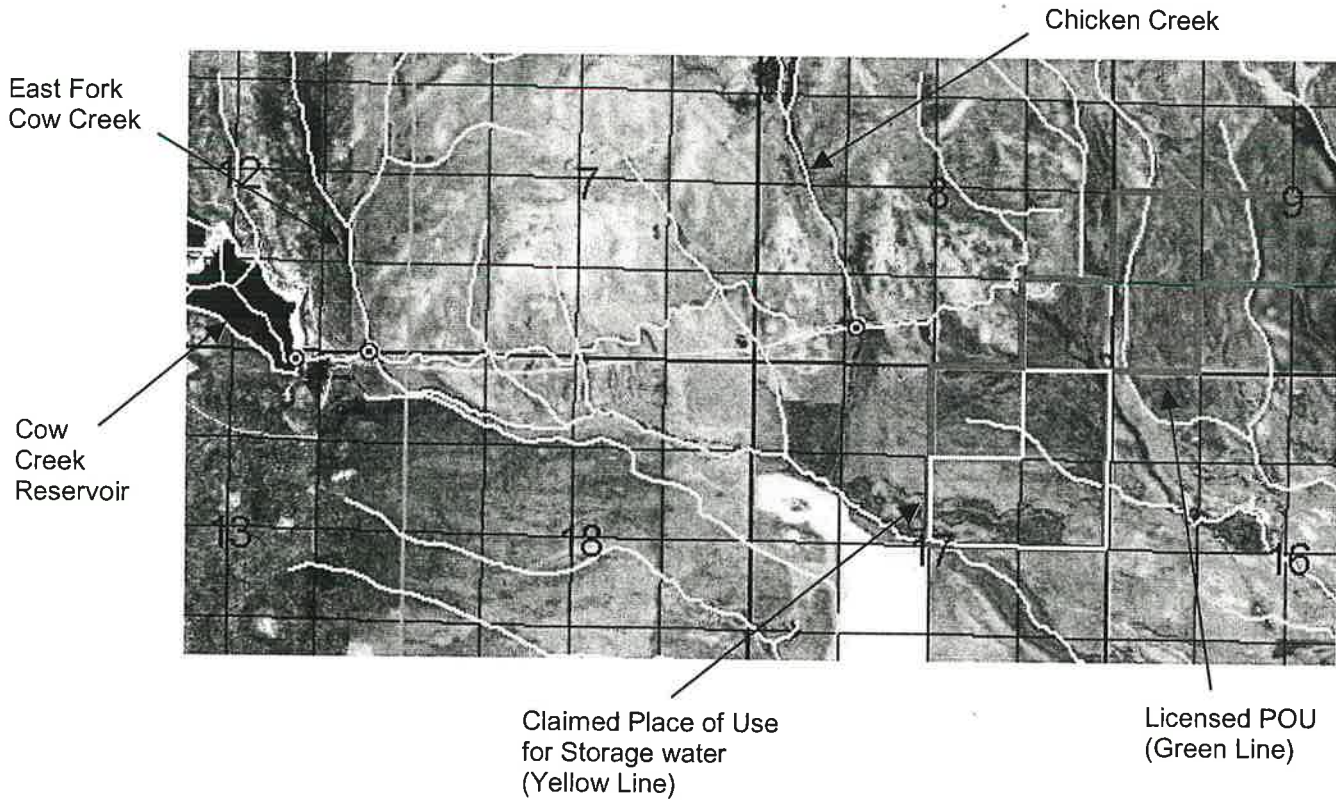

Matt Anders

Mr. S. T. Baer,
Reclamation Office,
Boise, Idaho.

My dear Mr. Baer:-

You may know that I made quite an effort to find you both in Boise and in Portland while I was out west for the Shrine convention, but to find any one in Portland was almost a hopeless task. I got in to Boise late Saturday afternoon, the day the specials from Dallas and Shreveport were there and did my best to drink up all the green punch at the temple. I had a mighty pleasant stay in Boise, including a real swim at the nat. on Sunday afternoon. So much for that.

I am mighty sorry I did not get to see you as there were a number of matters I would like to have talked to you about regarding our property near Hill City, including the desert entry of Frances P. Foster and the project of the Cow Creek Irrigation Company, all of which you are familiar with. We have certainly had no end of trouble and red tape with the project out there. Our books show that we made a total expenditure on the reservoir project of over \$86,000. You may recall, too, that one Chas J. Perkins had certain rights to water in the reservoir under our contract with him when originally executed, though I do not believe the rights are of any value now in as much as for fifteen years he has made no demand on us for the water nor had he any land on which to use the water; that, however, is immaterial for while west I bought up the Perkins rights from the then owners and left the papers and quit claim deeds with Mrs. Brown in your office to be recorded.

There is one matter which I really believe is an injustice to us, though it may be a matter of law which permits of only one rule. Beneficial use has been made of water from our project on the desert entry of Frances P. Foster since about 1907, but not until this last spring did I know that proof of beneficial use must be made for the Reclamation office. The Cow Creek Irrigation Co. under their permit #1364 under which proof of completion was made gives the company a priority of May 1, 1905 and I naturally assumed that all the water which the Company sold under their authority to sell water rights from the State Board of Land Commissioners, would carry the same priority. Instead of having a priority of May 1, 1905 for the desert entry as it seems to me we should have, the best priority the State would allow

136

218 EAST SEVENTH STREET
MT. CARMEL, ILLINOIS

when we made proof of beneficial use this last spring in Boise, was 1911, though as noted above water was used beneficially since about 1907, which claim could be set up by affidavits if necessary.

If there is anything lacking which either Frances P. Foster or the Cow Creek Irrigation Company have not performed that should be done, I assure you I shall very much appreciate hearing from you as to the matter. The whole project there has been a great disappointment to us, and as you have probably assumed, one in which we will sustain a large money loss. We are planning on disposing of the property, but of course cannot not be done until "the house is in order", so anything that you can do which will hasten our getting a clean bill of health I shall surely appreciate.

We are having very hot weather back here, and I would like to have a little of the air off the ice and snow I found in Glacier Park last Saturday and Sunday.

Very respectfully yours,

J. Kife Foster

July 7, 1920.

To: Permit 1364.✓

Mr. J. Kyle Foster,
408 Cherry St.,
Mt. Carmel, Illinois.

My dear Mr. Foster:

This will acknowledge yours under date of July 3d, and I am indeed sorry that I missed you, both at the time of your visit herein Boise and at Portland.

With respect to the above numbered permit held by the Cow Creek Irrigation Company, the following is noted from Section 5579 of the Idaho Compiled Statutes, which provision outlines the method to be followed by this Department in matters of subsequent proof being offered under permits.

"PROVIDED, That whenever proof of the beneficial application of water shall be offered subsequent to the date stated in the permit, or in any authorized extension thereof, when such beneficial application shall be made, such proof shall be taken, and if satisfactory to the department of reclamation, a license shall be issued by the department the same as though such proof had been made before such date fixed for such beneficial application, but the priority of the right established by such proof shall not date back to the date of the application for the permit to which such right would relate under the provisions of this chapter, but shall bear a date which shall be subsequent to the date of such application, a time equal to the difference between the date set in such permit, or extension thereof, for such beneficial application of such water and the date of such proof...."

You will see from the above that it is not within the jurisdiction of this Department to predate your priority to that of the original application. This office is purely an administrative one.

If Cow Creek has not been adjudicated, you may proceed under the provisions of Section 7032 of the Idaho Compiled Statutes, and the Courts, through your affidavits and testimony, would establish for you, the date of priority that the water was first applied beneficially, which

J. K. F. 7-7-20. #2.

as you state would be 1907 and not 1905 which is the date of the permit. If the stream has been decreed, you could proceed under the provisions of Section 7036 and obtain a supplementary adjudication which would also fix your date of priority as of 1907. I regret that this Department is unable to give you the original date of priority of 1905.

If in any manner I can be of any assistance to you, do not hesitate to call upon me.

Very truly yours,

STB:KB

Assistant Commissioner of
Reclamation.

OFFICE OF STATE ENGINEER

J. Kyle Foster, ~~being first duly sworn~~, deposes and says; That he is the manager of the Cow Creek Irrigation Company, a corporation, the present owner of the works, described in Permit No. 1364, dated July 8th, 1905.

Affiant further says that the works of diversion were fully completed, on or before the 8th. day of July 1910 and water was used for irrigation purposes, through the system of canals constructed under the provisions of said permit in that year.

That on the said 8th day of July 1910 said irrigation works were owned by one, Robert Parkinson, who lived at Mt. Carmel, in the State of Illinois; that said Parkinson died on the ...th. day of *January 1913*.

That the dam was begun in the fall of the year 1905 and a great deal more work was done in the year 1906. The main canal and lateral were also constructed and completed in 1906 and water delivered to a number of users and the works of diversion, under said permit were fully completed, on or before the 8th. day of July 1910 and were sufficient to divert all of the water appropriated under the terms of said permit and the said main canal and lateral were of sufficient capacity to convey all of the water appropriated as aforesaid.

That your affiant, is the son-in-law of the said Robert Parkinson, and the widow of said Parkinson, and his daughter, the wife of this affiant, and this affiant, are the owners of all of the Capital Stock of the corporation aforesaid.

That affiant is unable to state positively why proof was not submitted in accordance with the terms of said permit, he verily believes it was on account of the fact that the said Robert Parkinson was in failing health and for some unaccountable reason, overlooked the necessity of making the proof as aforesaid.

Affiant further says that said Robert Parkinson, during his lifetime and his heirs and the said corporation since his death have proceeded in the utmost good faith in endeavoring to perfect their right to the said water and have expended upwards of \$50,000⁰⁰

WHEREFORE affiant respectfully prays that this proof of completion of works be accepted by the State Engineer in accordance with the suggestion made by the late Frank P. King, State Engineer, in his letter of September 21st, 1914 addressed to this affiant.

J. Kyle Foster

Subscribed and sworn to before me this 11th day of October 1914.

RE: SRBA CLAIMS A37-00831 & A37-02016
COW CREEK-HARRISON DEC. 30, 1993

DEAR SIR:

I AM WRITING IN REGARDS TO AN OWNERSHIP CHANGE THAT WAS SENT BY DOUGLAS DONOHUE IN 1993. IN HIS LETTER, HE REFERENCED YOU AS THE ONE TO CONTACT. I APOLOGIZE FOR THE DELAY IN REVIEWING THIS CHANGE.

MY ONLY QUESTION IS THAT THE OWNERSHIP CHANGE INDICATES THAT IS TO BE A SPLIT, BUT THE AMOUNT THAT IS REQUESTED TO BE SPLIT FROM THE CLAIM IS THE EXACT AMOUNT THAT IS FOR THE WHOLE CLAIM. I JUST NEED TO CONFIRM WHETHER THIS IS SPLIT OR NOT.

I AM SENDING ALL THE INFORMATION I HAVE TO HELP. I AGAIN APOLOGIZE FOR THE INCONVENIENCE. THANK YOU FOR YOUR TIME.

SINCERELY,
