File nos. 37-21340, 37-21341, 37-21342, 37-21343, 37-21344, 37-21345, 37-21346, 37-21347

On 8/11/2004 I received an owner change request from Curtis Darrell (Mick) Barker indicating a 5/17ths split of rights 37-481A, 37-482F, 37-483F and 37-11961. Proof of ownership was a "Correction Deed of Distribution" dated 12/16/1998, which deeded him Lot 2, Barker Subdivision, containing 5.04 acres. I split the rights as requested and sent confirmation copies to the parties involved.

On 10/4/2004, Patrick Barker (personal representative of the estate of Evalyn Barker) came into the office and told me I had not split the claims the way he wanted them split. He explained that his mother had owned the property and after she died, each of her three children got one lot and one lot was sold to Benson. He gave me a Water Right Sale Agreement he had with the Bensons dated 4/3/04. He said he intended to form a ditch company and his brother (Curtis Darrell Barker) had opted out. Patrick's intent was to divide the remaining rights, after the sale to Benson, into 3 equal parts, a third going to each sibling. He wanted me to recalculate the splits based on the amount of water left after the sale to Benson. His biggest concern was 37-483A. He kept mentioning .41 cfs. I believe that's how much he wanted Curtis Darrell to have although there was no documentation in support of that.

After he left, I reviewed all the documents and recalculated the splits as requested. There was very little difference in the amounts I originally calculated and the way he wanted it done. With the deed of distribution predating the Benson agreement, I did not feel I could make any adjustments to my original calculations.

Patrick Barker 788-2755

All claims are for 17ac. Owner change from Curtis Darrell asked for 5/17 which I gave.

Is there a written agreement about how much water should go to each lot and/or sibling.
