NOTES:

- This record of survey supersedes and corrects the drawing of January 16, 1981, by deleting the line identified therein as the "approximate present Indian Creek drainage easement", which line was included at the request of the then property owner. Since January 16, 1981, it has been determined that the alleged Indian Creek drainage easement is not a matter of record and that the proposed location did not coincide with the ancient drainage course of Indian Creek.
- An ancient drainage channel for Indian Creek crosses this property on an undetermined location.

SUBJECT: STATUS OF PAT WEAVER'S WATER USE FROM A37-00577CK
phone call (X) walk-in (.)

He indicated that he was the individual that helped to draft the quit claim deed that transferred 5" of water to Pat from Wood River Valley associates from their Riley right water. He also indicated that the association filed an adj claim for the original 100 inches. We discussed how the corrections to the records could be made. I requested an affidavit from him giving the 'story' of the historical use and transfer of a portion of the right occurred.

He then wanted to discuss partial forfeiture in general and in specific as it relates to his use from Sherman Springs in Haggerman. I indicated that I could not discuss any specifics concerning Sherman Springs as I did not do the field work and was not familiar with his claim. I did describe instances where I felt partial forfeiture applied, primarily for small mountain stream uses.

Possible related adj claims may be A37-12869 and/or A37-00577BX.
