To whom it may concern

Concerning water from the springs located on parcel number 48N 05W 120400: water from these two springs has been in continuous use at the residence now owned by the Felmleys since approximately 1958. At that time two hand dug wells/springs already existed. We, the Charles Shriner family, cleaned out the wells and re-cribed them. Ed Meredith was hired to dig a trench with a backhoe from the wells to the Shriner residence and a pipe to bring water from the wells to the house was installed.

The water was used for livestock and for a large garden. This use has continued uninterrupted to the present date.

When the current building site now owned by the Felmleys was sold to Harris Snevey access to the wells and the water in them was part of the sale and has attached to the property with each subsequent sale.
