This right is a split from former right 37-2636A.

SPLIT ANALYSIS FOR 37-2636A, 37-21439, AND 37-21441

The 6 cousins own a 6 acre parcel but only 4.9 acres are irrigated. There are 3 acres in the NWNE and 1.9 acres in the SWNE.

The claims should be split based upon the claimed acreage.

37-2636A NWNE 10 ac SWNE <u>35 ac</u> Total 45 ac		37-21439* 37-21441* NWNE 39 ac SWNE <u>30 ac</u> Total 69 ac	
Cousins portion NWNE 3 ac SWNE <u>1.9 ac</u> Total 4.9 ac	Gary's portion NWNE 7 ac SWNE <u>33.1 ac</u> Total 40.1 ac	Cousins portion NWNE 3 ac SWNE <u>1.9 ac</u> Total 4.9 ac	Gary's portion NWNE 36 ac SWNE <u>28.1 ac</u> Total 64.1 ac

* Claims for the two rights includes 60 acres in Sec 18 that are not associated with either claimant. They should be left on Gary's split portion.

The change of ownership identifies the rate split to be as follows:

37-2636A	0.70 cfs	37-21439	0.38 cfs	37-21441	0.57 cfs
Split		Split		Split	
Gary	0.65 cfs	Gary	0.35 cfs	Gary	0.53 cfs
Cousins	0.05 cfs	Cousins	0.03 cfs	Cousins	0.04 cfs

Analysis used to calculate the splits. Total irrigated POU = 64 acres irrigated ground per cousins property = 4.9 ac. Therefore the ratio is $4/64 = 0.076\%$

RESPONSE DEADLINE
JUNE 17, 2005

Re: Evidence of Priority

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, in the coming year, conduct reviews and/or field exams for the claims in your area. Since the priority date of a beneficial use water right cannot be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the Department. If you have received this correspondence from the previous owner of the property it is required that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Enclosed you will find a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: The Department will not recommend the court decree the notice **as claimed** if no evidence of a priority date is submitted – it may be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement does **not** need to be in the form of a notarized affidavit as described in the brochure, but must relate first hand knowledge of the water right in question and include dates, quantities of water and extent of water use.

Submit the required evidence supporting the priority date by the date shown above, referencing all documents with the corresponding Notice of Claim number (i.e. 37-_____). If you have questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

Department of Water Resources
Southern Region Office

Dear Mr. Castle;

With regard to your inquiry on groundwater rights in Sec. 18 & 19 T. 1S R. 20E in the name of Carlyle Castle or Lena Castle, License 37-02636 is the only right found. This license is for 100 inches of water on 110 acres. A computer printout of the license is enclosed for your information. There are no SRBA claims in the name of Castle relating to an existing expansion of this license.

If you wish to expand the acreage irrigated with groundwater, you (or the new land owner) will need to file an application for a water permit. Due to the backlog of applications yet to be approved under the Swan Falls rules, however, it will be at least 3 years before the application can be processed.

An alternative to filing an application is to buy or lease groundwater from other land and then to file an application for a transfer to move the well water to your land. The original land would have to be dried up, on an acre for acre basis, in order for the transfer to be approved. A transfer application is also needed in order to add another well to the existing licensed ground, while keeping within the licensed flow rate.

If you have further questions, please feel free to contact this office.

Sincerely,

James E. Stanton

**BASIS FOR RECOMMENDATION BASED UPON THE SEPTEMBER 18, 2008
SETTLEMENT CONFERENCE HELD IN HAILEY ID.
RIGHTS 37-2636A, 37-21439, and 37-21441**

The three rights listed above were split based upon a gift deed identifying 6 acres and 0.12 cfs going to 6 cousins. The splits and subsequent recommendations are based upon the following analysis.

The two Loving Creek rights were claimed for 129 acres of irrigation. The groundwater right was claimed for 45 acres based upon the original license and subsequent splits. The claimed POU for each of the three rights included part or all of the cousins' property.

When the recommendations were made for the rights, the 6 cousins' property was excluded and a permissible PPU of 64 acres was recognized for Gary Castle. Each of the three rights was actually appurtenant to both parcels.

Subsequent to the settlement conference held in Hailey on Sept 18, 2008, it was determined that the Loving Creek rights POU for Gary Castle would not change, rather 4.9 acres would be recognized for the 6 cousins.

The ground water right was limited to 45 acres based upon the historic license and subsequent splits. Transfer 3731 identified that place of use as 10 acres in the south portion of the NWNE of Sec 19 and 35 acres in the SWNE. Five acres were excluded in the southwest corner of that qq. Approximately 8 acres in the S1/2 of the SWNE was sold to Phyllis Baldwin (dry in relation to the ground water). This effectively created an unrecorded transfer moving the ground water formerly associated with the Baldwin property to ground in the NWNE.

In reviewing historic aerial photos I found that 4.9 acres of the 6 acre parcel owned by the cousins has been irrigated. Therefore I am recognizing 4.9 acres for the 6 cousins and 40.1 acres for Gary of the 45 remaining acres as identified in 37-2636A.

A gift deed identified 0.12 cfs (6 inches) going with the cousins' property. A breakdown by right was not identified. Based upon a proportional split I found 0.03 cfs and 0.04 cfs associated with the Loving Creek rights and 0.05 cfs associated with the ground water right.

$$\begin{array}{l} \boxed{37-22390} \\ \frac{4.9 \text{ ac}}{68.9 \text{ ac}} * \frac{X}{0.70 \text{ cfs}} \approx 0.05 \text{ cfs} \end{array}$$

$$\begin{array}{l} \boxed{37-22392} \\ \frac{4.9 \text{ ac}}{68.9 \text{ ac}} * \frac{X}{0.38 \text{ cfs}} \approx 0.03 \text{ cfs} \end{array}$$

$$\begin{array}{l} \boxed{37-22394} \\ \frac{4.9 \text{ ac}}{68.9 \text{ ac}} * \frac{X}{0.57 \text{ cfs}} \approx 0.04 \text{ cfs} \end{array}$$

1. skeen 10/11/2006 Overlapping Rights

Comment: I started the recommendation for Claim 37-2636A, but I did not finish. Claims 37-21439 through 37-21447 (odds) overlap this claim and must be reviewed before the combined use limits and conditions can be finalized.

2. csaxton 2/13/2007 PPU

Comment: Shape was for 64 acres but only recommended for 45 ac. Since this right overlaps with 37-21441 and 37-21439 with the same POU, I changed the recommended POU to 64 acres, limiting use of this right to 45 acres within that POU.

Permit review notes and narrative

File: 37-2636A Gary Castle et al

Prepared by Kelly K Christensen

There are 2 surface water rights 37-21439 and 37-21441 and one ground water right 37-2626A recommended to the Gary Castle property. When Michael Ciscell made the recommendations he recognized the entire flow rates for each right on the Castle property. The department is holding a change of ownership filed by the 6 cousins for a portion of each right and one of the 6 cousins has filed objections.

I visited with Gary Castle last fall and he indicated that he has no problem with a portion of the surface water rights going to the 6 cousins parcel, however he was less enthusiastic about parting with a portion of the ground water right. He did not think that they should get any of that water.

In reviewing the available documentation it appears to me that the groundwater right should be appurtenant to the irrigated ground within the 6 cousins parcel. The logic I used is that the original license for 37-2636 included 80 acres within the W½NE¼ of sec 19. A gift deed was completed in 1977 which included six inches of water. Ground water was not specified, neither was it excluded.

In 1991 transfer 3731 was approved shifting some acres from sec 19 north to sec 18 and then splitting the right. Post transfer section 19 was recorded as NWNE 10 ac and the SWNE 35 ac. Gary claimed the right as transferred although he only owns approximately 30 acres in the SWNE.

When Phyllis Baldwin obtained the southern 8 acres of SWNE groundwater was excluded.

A Gift deed dated Mar 1997 identifies a parcel of ≈ 6 ac and 6" of water. (No discussion of the associated rights).

Gift deed Frank & Lorene Arambarri to Jeffery Hall, Randy Hall, Lori Hall, Gary Arambarri, Ronald Arambarri & Tonya Arambarri $\frac{1}{6}$ interest ea.

Transfer 3731 ^{approved} Gited in APR 1991

splits 37-2636 & shifts some acres from Sec 18 to Sec 18.

Logic suggests that the $\frac{5}{6}$ ac parcel could not be involved in the transfer as it was owned by the Gp of 6.

Permit review notes and narrative

File: 37-2636A Gary Castle et al

Prepared by Kelly K Christensen

There are 2 surface water rights 37-21439 and 37-21441 and one ground water right 37-2626A recommended to the Gary Castle property. When Michael Ciscell made the recommendations he recognized the entire flow rates for each right on the Castle property. The department is holding a change of ownership filed by the 6 cousins for a portion of each right and one of the 6 cousins has filed objections.

I visited with Gary Castle last fall and he indicated that he has no problem with a portion of the surface water rights going to the 6 cousins parcel, however he was less enthusiastic about parting with a portion of the ground water right. He did not think that they should get any of that water.

In reviewing the available documentation it appears to me that the groundwater right should be appurtenant to the irrigated ground within the 6 cousins parcel. The logic I used is that the original license for 37-2636 included 80 acres within the W½NE¼ of sec 19. A gift deed was completed in 1977 which included six inches of water. Ground water was not specified, neither was it excluded.

In 1991 transfer 3731 was approved shifting some acres from sec 19 north to sec 18 and then splitting the right. Post transfer section 19 was recorded as NWNE 10 ac and the SWNE 35 ac. Gary claimed the right as transferred although he only owns approximately 30 acres in the SWNE.

When Phyllis Baldwin obtained the southern 8 acres of SWNE groundwater was excluded.
