CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 63 acres within the authorized place of use in a single irrigation season.
2. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 36A.

WATER RIGHT NO. 36-99
As Modified by Transfer No. 85829

CONDITIONS OF APPROVAL

3. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
4. Rights 36-99, 36-7172 and 36-7233 when combined shall not exceed a total diversion rate of 13.2 cfs.
5. Rights 36-98, 36-99, 36-10338 and 36-15467 when combined shall not exceed the irrigation of 184 acres.
6. Rights 36-98, 36-99, 36-10338 and 36-15467 are limited to the irrigation of a specific 184 acres within the 488 acre place of use authorized by these rights in a single irrigation season. The specific 184 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 184 acres to be irrigated within the 488 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
7. This right mitigates for the depletion of water resulting from the diversion and use of water under Right 36-17116. To prevent injury to other water right holders, the right holder shall cease diverting 0.04 cfs of this right from Billingsley Creek. If the mitigation portion of this right is used for any purpose other than conveyance loss, then water shall not be diverted under Right 36-17116. If the mitigation portion of this right is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under the uses of Right 36-17116 that are being mitigated shall be reduced by the same proportion as the reduction to this right.
8. 0.48 cfs of this right is limited to use for conveyance losses in delivery of this right, 36-7172 and 36-7233.
9. Water is delivered through Sands Ditch.
10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 736-3033.

Sincerely,

Corey Skinner
Southern Regional Manager

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: William Mills

Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes creating a 488 acre irrigation permissible place of use (PPU) limited to the irrigation of 184 acres within the PPU for three Billingsley Creek irrigation water rights and one Snake River irrigation water right (13.38 cfs combined). No changes are proposed for the points of diversion. Proposed PPU and existing POUs are located approximately 0.5 miles to 1.7 miles west and 0.2 miles south to 0.7 miles north of the intersection of Salmon St. and Hwy 30 in Hagerman.

PODs and POUs are located in Water District 36A, except one POD that diverts water from the Snake River which places it in Water District 02. Watermaster comments were solicited. No comments were received from Water District 02. The Watermaster for Water District 36A responded by recommending that he did not oppose approval of the application if it is conditioned as follows:

"An annual report will be submitted to the water district that documents irrigated land does not exceed 184 acres."

Since this application is seeking to create a 488 permissible place of use, and the four irrigation rights only authorize 184 acres of irrigation, the Department has placed condition 206 on the water rights. Condition 206 requires the applicant to identify the 184 acres to be irrigated and those acres are currently identified in the transfer layer in ArcMap. If the applicant desires to change or rearrange those acres, they are required to either provide the Department with an updated shapefile or land list. Condition 206 adequately addresses the Watermasters concerns.

- **Authority to File:**
IDWR records indicate the applicant currently owns the water rights in this transfer and the properties these water right are associated with.
- **Water Right Validity:**
All Water rights in this transfer were decreed in the SRBA on or prior to 4/28/2008. Recent aerial imagery indicates that grounds associated with these rights appear to be irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated. Application was subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Watermaster Comments Regarding Transfer Request 85829

The Water Master has a concern the total acreage that is irrigated with water rights on this transfer could result in possible expansion of irrigated acres. Land across the Place of Use as combined in this transfer has exposed volcanic flows and rock interspersed with cropland. These volcanic flow/rock areas are not farmed but lie within existing center pivot and pressurized irrigation systems. Therefore, they must be "irrigated" as part of the cropping system. Calculating only irrigated crop acres is not representative of actual irrigated acres. Because of this, the water master requests the water right transfer be conditioned as follows:

An annual report will be submitted to the water district that documents irrigated land does not exceed 184 acres.

This transfer request extends the geographic area of irrigated land to SESE 16, 7S 13E. This place of use lies within the Big Bend Irrigation and Mining Company. Hagerman Wings Farm is a shareholder of irrigated water rights withing the Big Bend Irrigation and Mining Co. Inclusion of this parcel represents an overlap or "stacking" of irrigated water rights. Therefore, before approving the transfer, the water master requests an accounting from Big Bend Irrigation and Mining Co. of irrigated acreage that lies within the Big Bend irrigation district and the irrigated acreage that will be allocated by Big Bend Irrigation and Mining Co. for use by Hagerman Wings Farm on SESE 16, 7S 13E.
