Scott,

I visited the POU last week to follow up on what has been irrigated this season. The operator had been irrigating the entire PPU (more than 15 acres we think). After notifying Dave Blew with IPCO, he followed up with this map. Please add this to the water right file.

Is it standard practice for the POU shape associated with a PPU to show the entire PPU or only identify the acres on the 206 map?

RW

Rob,

We spoke with the Idaho Power renter yesterday to rectify the situation on the parcel irrigated by water right 2-10136. The transfer for that right was approved in late July and I have attached a map of the acres to be irrigated as required by the transfer.

Please let me know if you have any questions.

David Blew
