SECOND AMENDMENT TO PARTITION AGREEMENT

WHEREAS, Bill R. Owens, Cynthia M. Vincent (Owens), Jeanne I. Vanderpool (Vanderpool) and Gracie H. Barron (Barron) entered into a Partition Agreement dated August 12, 2020 to divide an original parcel located in Idaho County, Idaho described on Exhibit 1 to that Partition Agreement into three (3) sub parcels as shown on Exhibit 2 of the Partition Agreement.

WHEREAS, Section 1.4 of the Partition Agreement contemplated that two (2) water rights appurtenant to the property, Water Rights No. 78-4027 and 78-10093 (the Permitted Water Rights), would be divided one-third each among the three parties; Owens, Vanderpool and Barron.

WHEREAS, the Parties requested that the Idaho Department of Water Resources divide the two water rights equally between the three parties on the three sub-parcels in accordance with the Partition Agreement. However, the Idaho Department of Water Resources indicated in a letter dated February 25, 2021, that the Department would not permit splitting the domestic uses on the water rights, Nos. 78-4027 and 78-10093;

WHEREAS, in further communications with the Idaho Department of Water Resources, the Department raised two issues: (1) whether the statutory claim 78-4027 had been subsumed into the decreed right 78-10093, and (2) the location of the Vanderpool property should be described in NWNE of Section 29, T23N R01E.

WHEREAS, the Parties wish to carry out the original intent of the Partition Agreement to the fullest extent possible, given the guidelines of the Idaho Department of Water Resources as indicated in its letter February 25, 2021.

NOW THEREFORE, the Parties hereto agree to further amend the Partition Agreement, specifically Article 1.4, by eliminating the amended Article 1.4 and replacing it with the following second amendment to Article 1.4:

1.4 Division of Permitted Water Rights:

The Parties agree that Idaho Water Rights No. 78-4027 and 78-10093 contain the following terms and conditions. Water Right 78-4027 is a domestic water right authorizing diversion of 0.01 cfs for domestic use. Water Right 78-4027 is a statutory claim that has not been decreed. The Idaho Department of Water Resources is uncertain of Water Right 78-4027 still valid after Water Right 78-10093 was decreed. The Parties wish to maintain Water Right 78-4027 to the extent it is valid. Water Right 78-10093 authorized both domestic and stock water uses with a diversion rate of 0.06 cfs; 0.04 cfs for domestic use and 0.02 cfs for stock water use. Both Water Rights were appurtenant to the entire original parcel. In order to comply with the directions of the Idaho Department of Water Resources, the Parties hereby agree that Water Right No. 78-4027 shall be transferred to the ownership of Barron; that the domestic portion of Water Right No. 78-10093 shall be transferred to the ownership of Barron, and the stock water portion of

Water Right No. 78-10093 shall be transferred to the ownership of Vanderpool and Owens. Each of these water rights shall be appurtenant to the respective sub-parcels owned by the Parties. Accordingly, Owens and Vanderpool quit claim, assign and convey to Barron, as her sole and separate property, Water Right No. 78-4027 to be appurtenant to the Barron property. Barron and Owens hereby quit claim, assign and convey to Barron as her sole and separate property, the domestic portion of Water Right No. 78-10093. Barron hereby quit claims, assigns and conveys to Bill R. Owens, a married man, as his sole and separate property, and Vanderpool, jointly the stock water portion of Water Right No. 78-10093. The Parties hereto further recognize that the Department of Water Resources has requested that the Parties file a change of Place of Use of the Water Right No. 78-10093, because a portion of the actual place of use of the original parcel is outside the Place of Use of record. After this transfer the stock water right shall be appurtenant to the sub-parcels of property held by Owens and Vanderpool in the NWNE, Section 29, T23N R1E, and the SWNE, Section 29, T23N R1E.

Nothing in this Amendment to the Partition Agreement changes any provision of the Partition Agreement, specifically including the well sharing provisions in Article 3, or changes the Parties' rights to use Hat Creek Water supplied by Hat Creek Water Users pursuant to the Idaho Water Right No. 78-260A, or the right to use the irrigation easement described on Section 2.4 of the Partition agreement. The Hat Creek water rights shall continue to be shared by the Parties.

The Parties recognize that the well drilled under Drilling Permit No. 78-89-2-01, approved February 2, 1989, represents a well for domestic uses under Idaho Code § 42-111, exempt from permitting under Idaho Code § 42-227. Should Idaho law change or should the Parties mutually agree, the Parties may in the future seek a permit for this domestic well.

Re: Change in Water Right Ownership: 78-10093 (Split into 78-10093 and **78-12557**),

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 605-4633.

Sincerely,

Laura McSherry
Water Resource Agent
