

WATER RESOURCES DEPARTMENT OF
WESTERN REGION WATER RESOURCES

Check all that apply:

1. **APPLICANT(S)** City of Meridian Phone 208-489-0343
2. **MAILING ADDRESS** 33 E Broadway Avenue City Meridian
- State ID Zip 83642 Email kradek@meridiancity.org

- If the ownership change resulted in the water right(s) being split, how did the division occur? Mark one:

- ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

- ☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. **LIST WATER RIGHT NUMBER(S)** See attached water rights list. To minimize size of submittal, copies of the water right records are not attached and can be provided upon request.

- ☐ Attach a copy of the water right(s) as recorded, available at idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.

4. **TOTAL AMOUNT OF WATER** transferred is *79.0 cfs cubic feet per second and/or n/a acre-feet per annum.
(diversion rate) (storage volume)

5. **POINT OF DIVERSION** – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at idwr.idaho.gov, *Water Rights, Water Right Transfers, Modeling Resources*.

[illegible]

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

All wells divert into an integrated municipal water distribution system and are equipped with totalizing flow meters, designated water level monitoring tubes and water level recording instruments.

- b. Who owns the property at the point(s) of diversion? City of Meridian

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a [Lessor Designation](#) form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an [IRS Form W-9](#).
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** – ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. You may create a map at idwr.idaho.gov, *Water Rights, Water Right Transfers, File a Transfer Application, Step 2C*.

8. **SIGNATURE** – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Transfer Narrative

The City has 28 municipal water rights. Upon approval of pending Transfer No. 84699, each right will list 34 PODs as authorized points of diversion to reflect an integrated municipal ground water system. The purpose of this transfer is to add an additional POD (aka Well #34) to the City's municipal system for a total of 35 PODs. Additional flow rate is not being proposed. The transfer filing fee is based on Well 34's anticipated design capacity of 2500 gpm, which will allow it to be used for fire protection if necessary. The POD for Well #34 will be on Lot 17, Block 1, Tricia's Subdivision No. 4 Lot 1 located in T3N, R1W, Section 4.

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.
6. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
7. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
8. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
9. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 3 located in T03N, R01W, S12, SESE.
10. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
11. 004 This right does not grant any right-of-way or easement across the land of another.
12. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
13. Transfer 79778 authorizes the following additional wells: No. 16B located in T03N R01E S8 SWNE No. 16C located in T03N R01E S8 SWNE No. 16D located in T03N R01E S8 SWNE No. 21 located in T03N R01E S18 NENW

Place Of Use:

MUNICIPAL within ADA, CANYON Counties
Large POU not displayed

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.
6. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
7. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
8. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
9. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 6 located in T03N, R01W, S12, NENW.
10. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
11. 004 This right does not grant any right-of-way or easement across the land of another.
12. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
13. Transfer 79778 authorizes the following additional wells: No. 16B located in T03N R01E S8 SWNE No. 16C located in T03N R01E S8 SWNE No. 16D

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
8. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 12 located in T03N, R01W, S02, SWSW.
9. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
10. 004 This right does not grant any right-of-way or easement across the land of another.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. Transfer 79778 authorizes the following additional wells: No. 16B located in T03N R01E S8 SWNE No. 16C located in T03N R01E S8 SWNE No. 16D located in T03N R01E S8 SWNE No. 21 located in T03N R01E S18 NENW No. 14 located in T03N R01E S19 NENW No. 17 located in T03N R01E S20 NWSW No. 23 located in T03N R01E S21 NWNW No. 25 located in T03N R01E S29 NWNE No. 28 located in T03N R01E S32 SWNE No. 24 located in

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. 075 Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
6. The daily diversion volume for domestic uses under this municipal right shall not exceed 13,000 gallons per dwelling in accordance with Section 42-111, Idaho Code.
7. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
8. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
9. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
10. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 16 located in T03N, R01E, S08, NWNE.
11. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
12. 004 This right does not grant any right-of-way or easement across the land of another.
13. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
8. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 18 located in T04N, R01E, S32, SWSW.
9. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
10. 004 The issuance of this right does not grant any right-of-way or easement across the land of another.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
8. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 20A located in T04N, R01W, S36, SESE.
9. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
10. 004 This right does not grant any right-of-way or easement across the land of another.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

2 csaxton 4/5/2010 Water Bearing Zone
The permitted water bearing zone for permit 63-12416 is 650 to 730. The water bearing zone appropriated during the development period of December of 1997 to December of 2003 was 496 to 610. On August 6, 2002, the Department received the permit holders petition through their representative to change the water bearing zone on the permit to 496 to 996. Per the May 3, 1995 Amended Moratorium order for the Boise River Drainage, new applications for consumptive uses of ground water in the area where ground water shallower than 200 feet below ground surface is tributary to the Boise River, the depth interval shall be included in the conditions of approval for each ground water permit, regardless of whether the proposed depth is more or less than 200 feet below ground surface. The requested change in water bearing zone requires analysis for possible injury. A well log search for anything within a one mile radius of the City of Meridian well returned two wells not owned by the City of Meridian that are completed within the requested water bearing zone. One well was drilled in 1977 and was completed to 700 feet. 700 feet is within the original permitted water bearing zone for permit 63-12416 yet the well owner did not protest the permit at the time of advertizing. The second well found was drilled in 2002 and is completed to 550 feet. Since this well was drilled after the City of Meridian well, any issues of injury or the City of Meridian violating the water bearing zone on their permit should have been addressed at that time. Since the well was drilled in 1997, no complaints have been filed. Therefore there does not appear that changing the water bearing zone on permit 63-12416 would cause injury to existing users or be in violation of the May 3, 1995 Amended Moratorium Order.

6. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
8. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 22 located in T03N, R01W, S24, SWNE.
9. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
10. 004 This right does not grant any right-of-way or easement across the land of another.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation

2 shemenway 1/15/2014 Field Report Narrative and Licensing Review
The 12/22/2011 beneficial use field examination was conducted by Ed Quires (208)342-8369. The common name for this well is well #24. It is located within a pumphouse located off of N. Linder Rd, at W. Tumblecreek Dr. and N. Blue Springs Avenue. Well #24 (ID Tag # D0019265) has an 18 inch casing, is 560 ft deep, 0 static (artesian well), with an 8 inch screen at around 408 ft deep, and cased to 431 ft. It has a 150 Hp US Electrical Motor model AA63 turbine pump with a 10 inch discharge through a 10 inch McCrometer Flowmeter serial # 04-06591-10. It then discharges through 10 inch ductile iron pipe out to the integrated distribution and storage reservoir that makes up the service area of the City of Meridian. At the time of the field exam, the system ran at 75 psi (records show the average over 1 year is 69 - 76 psi ranging from winter to summer). Well #24 is the primary lead well in this distribution system pressure zone. At the time of the field exam, the system was running at 850 gpm (1.89 cfs, at 75 psi, and then was manually increased to simulate higher demand (summer) conditions for 1/2 hour with a discharge of 1800 gpm (4.01 cfs) at 76 psi. A performance curve for well #24 showed that the pump would produce 1930 gpm (4.3 cfs) at an operating pressure of 69 psi after correcting for the additional drawdown that would occur at that pumping rate. Operator flow records manually recorded for the month of June 2004 indicated an average of 1500 gpm (3.35 cfs) for the 30 days, with peak demand on June 24th and 25th being 2000 gpm (4.46 cfs) each. RECOMMEND: Municipal 4.46 cfs (to meet historical peak demand)

There is a spatial point located slightly northwest of the POD PLS location found during the 12/22/2011 field examination. That spatial point shows it was located by IDEQ with the ID Tag # E0008449. In speaking with Nick Miller, he stated to update the shape using the PLS found by Ed Squires during the field examination, and use the ID Tag # D0019265 that was actually found welded on the well shaft (see pictures in the 12/22/2011 field examination).

The permit for this water right was approved prior to the 10/19/2009 Administrative Memo Licensing No. 1, which states that a license may be issued limiting the diversion rate in combination with other rights in the municipal system to the existing capacity of the municipal system. For this reason, the diversion rate for well #24 will be licensed at the peak demand rate that was shown for June 2004 (2000 gpm; 4.46 cfs), and no combined limits will be added to the license.

MUNICIPAL within ADA, CANYON Counties
Large POU not displayed

Conditions of Approval:

- | | | |
|-----|-----|---|
| 1. | 124 | Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law. |
| 2. | 180 | A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes. |
| 3. | T07 | The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval. |
| 4. | T08 | Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer. |
| 5. | 102 | The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping. |
| 6. | T17 | Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion. |
| 7. | 01Q | After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department. |
| 8. | | To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 25 located in T03N, R01E, S29, NWNE and from Meridian Well No. 28 located in T03N, R01E, S32, SWNE. |
| 9. | 020 | The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder. |
| 10. | 004 | This right does not grant any right-of-way or easement across the land of another. |
| 11. | 046 | Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department. |
| 12. | 103 | When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with |

3 shemenway 1/17/2014 CFS
Well #25 when manually increased to simulate peak demand (summer) it produced 2250 gpm (5.017; 5.02 cfs) Well #28 when manually increased to simulate peak demand (summer) it produced 2260 gpm (5.04 cfs) RECOMMEND for licensing 5.0 cfs (as permitted) with a combined limit for well #25 and #28 not to exceed 5.0 cfs. Licensing for this water right will not have any combined limits with other water rights on the City of Meridian water system, since the permit was approved prior to the signing of Administrative Memo, Licensing #1 (10/19/2009).

4 shemenway 1/17/2014 Field Report Narrative
A beneficial use field examination was conducted by Ed Squires (Hydro Logic Inc) on 1/30/2012. On the field examination report it states that well #26 has the same POD, but in the licensing review (see spreadsheet) it was confirmed that well #26 is at a different location than well #25 and #28. Well #25 (D0030863) is housed in a 28 ft X 28 ft cinder block pump house, was drilled on 3/30/2004 by Treasure Valley Drilling. It is a 24 inch casing, 335 ft deep, 40 ft static, 200 Hp Turbine US Electrical Motor serial # H06-41078559-008R-03, FlowWay Pump model 14DKH, 4-stage, with 14 inch bowl to a 10 inch discharge through a 10 inch McCrometer propeller MW500 model E7000-000, Serial # E07-12019-10 flowmeter, calibrated 11/28/2007, which discharges through 10 inch ductile iron to the distribution system for the City of Meridian. Well 25 is the lead pump for this pressure zone. Well #28 (D0053548) is housed in a 30 ft X 58 ft cinder block pump house, and was drilled on 7/17/2009 by Treasure Valley Drilling. Well #28 has a 24 inch casing, is 731 ft deep, 53.9 ft static, has a 250 Hp Turbine US Electrical Motor serial # R09-30720134-6T-03, National Pump model M14XXHC, 4-stage, with a 14 inch bowl to a 10 inch discharge through a 10 inch ABB Flow meter, electro-magnet ABB make, model MFE2513, serial # 3K62000053500, calibrated 8/2010, discharging through 10 inch ductile iron to the distribution of the City of Meridian. The system runs at 60 - 90 psi. Well #28 is the lead for pressure zone 5. Beneficial Use is for the municipal service area for the City of Meridian (an updated shapefile was submitted by the City of

7 shemenway 3/14/2014 Hydro Logic Additional Information
On 2/3/2014, the Department received additional information from Ed Squires, Hydro Logic, Inc. explaining questions the Department had in reference to conditions appearing to not being met. Information received was reviewed by the Ground Water Protection Section Hydrologist, and was found that well #25 is in compliance and meets the intent of the conditions. A diagram is attached indicating the depth of the casing, bentonite seal at the bottom, and showing that the clay extends to 203 ft depth, meeting the 200 ft minimum depth requirement. The first screen opens to a permeable aquifer sand at 203 ft.

Place Of Use:

MUNICIPAL within ADA, CANYON Counties
Large POU not displayed

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Meridian municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
4. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 8/26/2014.
6. 102 The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
7. T17 Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
8. 01Q After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
9. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No. 2 located in T03N, R01E, S07, NWSW (Lot 3).
10. 020 The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.
11. 004 This right does not grant any right-of-way or easement across the land of another.
12. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
13. Transfer 79778 authorizes the following additional wells: No. 16B located in T03N R01E S8 SWNE No. 16C located in T03N R01E S8 SWNE No. 16D

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 86021

CITY OF MERIDIAN, 33 E BROADWAY AVE, MERIDIAN, ID 83642-2619 has filed Application No. 86021 for changes to the following water rights within ADA County(s): Right No(s). 63-10105, 63-10840, 63-11671, 63-11737, 63-11922, 63-12039, 63-12162, 63-12173, 63-12181, 63-12295, 63-12378, 63-12416, 63-12560, 63-2893, 63-31138, 63-31281, 63-31318, 63-31630, 63-31677, 63-3252, 63-32567, 63-32568, 63-7105, 63-7307, 63-7978, 63-8331, 63-8332, 63-9849; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows:

to add an additional point of diversion to the City of Meridian's municipal system. With the completion of this transfer the City's 28 municipal water rights will have 35 authorized points of diversion. The new point of diversion is approximately 0.7 miles southwest of the intersection of Ustick Road and Black Cat Road.

For additional information concerning the property location, contact Western Region office at (208)334-2190. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Western Region, 2735 W AIRPORT WAY, BOISE ID 83705-5082 together with a protest fee of \$25.00 for each application on or before 9/19/2022. The protestant must also send a copy of the protest to the applicant.

Subject: Application for Transfer – City of Meridian

Dear Scott,

Enclosed on behalf of City of Meridian, is an *Application for Transfer* proposing a new POD (aka Well #34) be added to the City's municipal system for a total of 35 PODs. Since additional flow rate is not being proposed, the transfer filing fee is based on Well 34's anticipated design capacity of 5.6 cfs (2500 gpm). The \$900 filing fee is being covered with an HDR credit card upon submittal.

Per agreement, SUEZ was notified of the transfer application. Attached to this letter is their authorization email.

Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Kurt / Cathy,

We have a new application ready to submit to IDWR for your review. We have not yet filed it with IDWR.

We are constructing a new well and therefore adding a new POD to the portfolio.

Please let me know if you have any questions and if we can go ahead with filing the application.

Thanks,

Kyle
