10 ainouye 5/17/2018 Removal of Redundant Combined Use Limit Condition
Over the years stacked water rights 72-16633, 72-16635, 72-16637, and 72-16639 have been split by multiple ownership changes. A condition was implemented on the parent rights that identified the summation of the rates and acres associated with the parent rights and the subsequent children rights and was not actually a limiting condition. This non-limiting condition was removed from the parent rights and all resulting split portions to eliminate the need to continually update it on all the parent and children rights on future ownership changes.
