**ORDER AUTHORIZING
TEMPORARY CHANGE**

WHEREAS, a drought emergency has been declared for Cassia County to allow administrative actions to lessen the severe impacts of the drought conditions in the County; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the Director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on July 27, 2022, Eugene Matthews ("applicant") submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, the applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

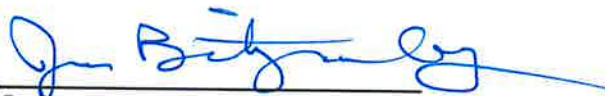

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of rights 45-13552, bearing a priority of 12/10/1956, and 45-13554, bearing a priority of 2/1/1954, is authorized only at the point of diversion described on the application or as otherwise approved in this order.
2. Use of rights 45-13552 and 45-13554 for the remainder of the irrigation season is limited to 171.0 acres at the place of use described in the application.
3. The use of rights 45-13552 and 45-13554 is limited to the historical use limitations locally imposed by the watermaster.
4. This temporary change approval does not authorize construction of a new well.
5. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing

water rights.

6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. When this right and others appurtenant to the lands identified on the application are combined, no more than 0.02 cfs per acre may be diverted at any one time at the field headgate.
10. This temporary change approval expires on November 15, 2022 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.
11. This exchange is subject to a private agreement between Alyssa, Rick, Colt, and Morgan Robinson (owners of the water rights) and Eugene Matthews, dba H & E Holdings, LLC (owner of the well proposed as the temporary point of diversion under this approval).

DATED this 5th day of August, 2022.

Adam-

I sent you an email last week soliciting watermaster comments on a Temporary Change Application (copy attached) we received from Eugene Matthews north of Oakley. I will be writing the order for the Temporary Change tomorrow and I wanted to make sure you had the opportunity to comment on it. Let me know, if you could, by tomorrow if you have any concerns or questions. Thanks for your assistance.
