WATER SUPPLY BANK LEASE CONTRACT No. 1547

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Hiawatha canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.16 cfs of the leased portion of this right into the Hiawatha Canal whether it is rented or not.
13. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

Re: City of Hailey Water Lease: Water Right 37-23364

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty percent (20%) of the right is left in the Canal as conveyance loss: and

2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank. or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions. please do not hesitate to call me.
