to the new portion of the PPU. Eventually, the water will be piped to the new portion of the PPU.

- b. Who owns the property at the point(s) of diversion

Ryan Hawker

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

this application may result in rejection of the application or cancellation of an approval.

- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

When water associated with right 43-13886 is moved within the PPU, the area previously irrigated by
this right will not be irrigated with this right.

- e. Describe the use of any other water right(s) for the same purpose or land, or same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

Existing surface irrigation rights are 43-94, 43-95, 43-93, 43-441, 43-13884, 43-13885, 43-13887, 43

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☒ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**

1. Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.: _____

Yes. The transfer allows supplemental right 43-13886 to be used on additional farm land. The earliest priority surface rights on the land where 43-13886 is currently used have priority dates of 4-30-1880 (2 rights) and 4-30-1882 (1 right) with duties of water of 0.010046 AF/acre, 0.003836 AF/acre, and 0.010667 AF/acre. The earliest priority surface rights on the proposed additional POU have priority dates of 4-30-1879 and 4-30-1880 with duties of water of 0.017955 AF/acre. It appears that the surface rights on the proposed additional POU are better in quantity and priority.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: July 6, 2022
To: Transfer #86230, Ruel and Kathryn Barker file
From: Jim Bitzenburg
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes to change the place of use (POU) of ground water irrigation right 43-13886 which currently irrigates 113.2 acres of ground within a 161.7 acre permissible place of use (PPU) located approximately 0.7 – 1.6 miles south and 0.5 – 1.3 mile west of Elba. As a result of the transfer, 72.4 acres will be added to the PPU at a location approximately 0.5 – 0.8 mile south and 0.0 – 0.5 mile west of Elba. Post transfer, the right will irrigate 113.2 acres within a 234.1 acre PPU. The location of the point of diversion (well) will not change.

The transfer allows supplemental right 43-13886 to be used on additional farm land. The earliest priority surface rights on the land where 43-13886 is currently used have priority dates of 4/30/1880 (2 rights) and 4/30/1882 (1 right) with duties of water of 0.010046 cfs/acre, 0.003836 cfs/acre, and 0.010667 cfs/acre. The earliest priority surface rights on the proposed additional POU have priority dates of 4/30/1879 and 4/30/1880 with duties of water of 0.017955 cfs/acre. It appears that the surface rights on the proposed additional POU are better in quantity and priority.

The proposed transfer is in Water Districts 143 and 43C so Watermaster comments were solicited. The Watermaster of WD-43C did not comment on the transfer; the Watermaster of WD-143 had no concerns with the transfer. The transfer should have no hydrologic effect on nearby water users, so advertising was not necessary.

- **Authority to File:**
The Department's database indicates that water right 43-13886 is owned by the applicants, Ruel and Kathryn Barker. The application was signed by the Barkers.
- **Water Right Validity:**
The water right was decreed in the SRBA in 2002, and irrigation is evident at the current POU, so forfeiture is possibly not an issue.
- **Injury to Other Water Rights:**
None anticipated or foreseen. The POD is not moving and there is no increase in volume or acres.
- **Enlargement of Use:**
None anticipated.

- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
6/7/2022

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

The transfer is only adding acres to the PPU, so there should be no hydrologic effect on nearby water users.

Re: Application for Transfer of Water Right #86230

Dear Mr. and Mrs. Barker:

Enclosed you will find the *Application for Transfer of Water Right* which you discussed with Corey Skinner in our office this week. Please review the application carefully, sign (both of you), and return it to our office at the above address with the \$500.00 fee. The fee is based on the amount of the right changing, which, in this case, is 0.93 cfs.

The checklist on page 1 is something we fill out when the transfer is submitted, so you don't have to do anything there. Page 2 is where you will need to sign and date and page 3 shows what portions of the right are changing. Page 4 shows what the right will look like when the transfer is approved and the only change is that the land in Section 5 (72.4 acres) has been added to the permissible place of use (PPU). The questions we talked about on the phone are shown on page 5. We will need a notarized statement from Farm Credit Services consenting to the transfer, as mentioned in question 5. c. Page 6 shows the right in its present state before the changes and page 7 talks about the surface water rights' priority dates and duties of water on both places to justify the ability to use the ground water right on both pieces of ground.

I attached a map to the transfer showing the proposed additional PPU and another map showing the proposed irrigated acres within the PPU, post-transfer.

If you have any questions concerning the enclosed information, please contact me at (208) 293-9909.

Sincerely,

Jim Bitzenburg
